About Us

There are numerous industrial components for varied industrial works like pressure control, gauging, and more. To find the right piece at right price, trust **Dhamija Tool & Die Works**. Ours is a **Ludhiana, Punjab (India)** based modern production company, engaged in offering the finest industrial components such as **Pillar Bush, Core Pin, Die Spring, PU Round Rod, Taper Plug Gauge**, and many more. These components are designed and developed with precision to support users gain huge benefits. Our collection containing diverse industrial products comes at nominal prices for customers to make easy investment. We, as **manufacturer**, make available standard sizes, designs, finishes and dimensions of industrial products available to support users attain application specific results. We also serve as a **service provider** to render **Repairing and Maintaining Services of Dies and Mould Accessories.**

Active Since 2006

Customers often tend to make purchase from those establishments, which have experience in production. We at Dhamija Tool & Die Works, proudly boast that we have 15 years of experience in producing a large line of industrial components.

Our foundation dates back to 2006 when there were only small numbers of companies indulged in producing industrial components. Today, with the rise in the need of quality products, the number of industrial components producing companies has also increased but we feel proud to share that even today, we hold better reputation in the industry.

We have a lot of competition in the industry but what we are focused at is quality production. Needless to cite, it is this focus that has made us come a long way in this field and we are sure, it will open new path of success for us even in the near future.

Our Strengths

- **Strict testing program:** Our Pillar Bush, Taper Plug Gauge, Core Pin and numerous other industrial items go through some tests before packaging to ensure their flawless and free from any defect.
- **Advanced production facilities:** For perfect designing and complete production of industrial products we have modern facilities. Every item is perfectly shaped so that customers can avail cost-benefiting results using our products.
- **Customer benefiting schemes:** We have a large number of schemes such as scheduled delivery service and transparent business deals to benefit our customers.
