"Teamwork Makes The Dream Work"

We are a team force

Customer is our first priority and customer satisfaction is our motto. This philosophy along with your continued support has enabled "NAPSON Lubricants Private Ltd" to show steady growth year after since its incorporation in 2000. Napson Lubricants engages in manufacturing product development and marketing of lubricants and oil specialties for Automotive and Industrial. We are successfully marketing our products under the brand name "MOTOFORCE" which is known for its quality and performance.

MOTOFORCE offers a wide range of high quality products, inspiring the lives of millions world over. Our constant endeavour to work in tandem with our customer's need, while implementing the most advanced technology, supported by our technical expertise and two decades of experience, has earned us the trust of all our valued customers.

We Believe In "United Victory" Let's Win Together...

We are a leading manufacturers of Automotive Industry, yet we believe in conquering victories together with a policy of 'You win, We win'

Being an all-in-one complete solutions provider we care all our business associates for long term prosperity.

- ▶ Complete Automotive Solution
- ▶ Uncompromising Quality
- ▶ World Class Infrastructure
- ▶ Team Work
- ▶ Long Term Prosperity
- ▶ Quick Service & Support
- ▶ Happy Customers

About us

We are a team force

The Company's laboratory is well-equipped with an advanced and full complement testing machines that produce highly accurate testing analysis. This includes an advanced fully automatic kinematic viscosity tester that provides efficient and accurate results. With the combination of our QC expertise and superior controlling systems, our customers are assured that all batches of product will be strictly tested (in accordance to ASTM standards) before packed.

We Envision A Mutual Profitable Performance

Envisioning quality solutions payback rich dividend. But envisioning profitable solutions that mutually benefit the environment, takes you miles ahead of the rest.

Our Achievements

- **Napson lubricant is happy to announce that NAPSON LUBRICANTS PVT LTD. has been nominated as BEST QUALITY AWARD of 2017.**
- **We feel immense Pleasure to announce that NAPSON LUBRICANTS PVT LTD. has been awarded as BEST QUALITY AWARD of 2018.**

We are now ISO 9001:2015 Certified

NAPSON LUBRICANTS Pvt. Ltd. has been assessed and found to be in accordance with the requirements of international standard ISO 9001:2015. We are also proud to announce that NAPSON LUBRICANTS PVT. LTD. :ISO 9001: 2008 Certified company by **BS Certification Services Ltd. HONG KONG**

Our Mission

To provide quality products at a price that reflects true value along with the unparalleled support services by highly trained and well motivated workforce meeting customer expectations and requirements

Our Values

The values that guide us are Trust, Ethics, Integrity, Discipline and Performance.

Our Vision

To be the foremost Indian Manufacturing Company most admired for its quality products, reliable performance and best services with a perspective of global excellence.

Our Philosophy

High Quality Standards - Product & Services : We aim to decrease downtime, extending life of major capital assets and reducing the costs associated with fleet and heavy equipment use and maintenance

Flexibility : Prompt response in meeting customers' needs

Continuous Improvement : Dedication in research and development

Innovative : Always on the lookout for emerging technology and new materials to stay ahead of the competition

Total Customer Support : Experienced team of professionals offering products selection, product knowledge, training and logistics support

Our Power And Strength Behind The Sustainable Flow

We rely on our dedicated, expert team to create best products as per market requirement.

A professionally qualified & dedicated team of experts is deployed at each level of hierarchy within the Duke Napson Lubricants Pvt. Ltd. We channel the diverse skill-set of every member in the same direction to ensure perfection. Our employees & technical staff also attend seminars, workshop & training to keep themselves updated with the latest technology.

Boss 4T, Rexxo 4T

API SL

API SJ

Boss 4 Stroke Engine Oils are premium quality engine oils Tested by Napson R&D team They confirm to international specifications of JASO (Japanese Automobile Standard Organization) MA & MB. Boss 4 Stroke Engine Oils have been developed keeping in mind the difficult driving conditions prevalent on Indian roads. To meet the complete lubrication needs of your Scooters & Motorcycles we strongly recommend that you use Boss 4T Engine Oils only. Test evaluation of Micra 4 Stroke Engine Oil indicates the clear benefits of this oil over conventional 4T Oils. These products minimize spark plug fouling & preignition , prevent rusting & provides protection against scuffing , seizure & wear.

Product Features and Benefits

- Resists viscosity and thermal breakdown at high temperature and severe operating conditions.
- Reduce exhaust emission.
- Higher fuel efficiency and extended oil drain period.
- Protects against scuffing and wear, enhancing engine life.
- Eco-friendly & catalytic converter compatibility.

Applications

Recommend for all new generations 4 stroke ,two wheelers, plying under severe duty conditions like frequent stop & go, dusty environment , variable climatic conditions etc. viz Honda, Hero Honda, Bajaj, TVS, Yamaha , Suzuki, LML ,Kinetic etc. and three wheelers also.

Performance Standards

- Meet API SL
- Meet API SJ
- Equivalent to IS 13656

Packing

800 ml, 900 ml, 1 ltr, 20 ltr, 50 ltr, 210 ltr

Brakefluid Dot 3

MotoForce BRAKE & CLUTCH FLUID (DOT 3) is a synthetic fluid for use in the hydraulic brake systems of all cars, trucks and other motor vehicles made in North America, and can also be used in foreign made vehicles that call for a DOT 3 Brake & Clutch Fluid. MotoForce Brake & Clutch Fluid (DOT 3) is designed for disc and drum brakes. MotoForce Brake & Clutch Fluid(DOT 3) is compatible with the various metal components found in the cylinders and tubing that make up the brake system. MotoForce Brake & Clutch Fluid (DOT 3) will not cause corrosion of these metals. This product is compatible with non-metallic parts, such as the rubber hoses at the wheels and the rubber cups on the pistons. MotoForce Brake & Clutch Fluid (DOT 3) contains a lubricant to limit the wear between the rubber cups and the cylinder walls.

Applications

Recommended for re-fill or top-up of brake and clutch systems in passenger cars, 4WD's, motorcycles, light and heavy duty commercial vehicles, mining, construction and agricultural equipment that require a non petroleum based DOT 3 brake & clutch hydraulic fluid. suitable for use where the vehicle manufacturer specifies DOT 3 brake fluid. DOT 3 BRAKE FLUID can be used for first fill or refilling a brake or clutch system. For best results, the system

Performance Standards

- Meets : 1. US federal standard 116 DOT -3
- 2. ISO4924
- 3. IS 8654

PRODUCT FEATURES :

- Exceptional thermal stability
- Excellent chemical stability
- Good water tolerance
- Good fluidity at low temperatures

Appearance

Golden

Packing

100ml, 250ml

Revolt Synth 4T, Rhino Synth 4T

API SN

API SM

MOTOFORCE Revolt Synth 4-T is a Premium performance, shear-stable, multigrade engine oil specifically designed for use in four stroke motorcycles and portable power equipment meeting requirement of API SN JASO MA2 lubricants, including high output engines operating in severe service. Proven metallo-organic anti-wear additive system reduces wear of highly stressed engine components under severe operating conditions.

Highly effective detergent/dispersant additive system ensures excellent control of piston ring belt deposits for very good power release and acceleration.

Correct frictional characteristics enable smooth operation of wet clutches and back torque limiters.

Designed with the perfect synergy for less oil consumption, reduced engine internal friction and extreme pressure performance, for more power.

Developed with synthetic chemistry of base oil with additives for better engine cleanliness, wear protection and long life.

Applications

Recommended for all new generation 4 stroke , two wheelers, plying under severe duty conditions like frequent stop & go, dusty environment, variable climatic conditions etc. viz. Honda, Hero Honda, Bajaj, TVS, Yamaha, Suzuki, LML, Kinetic etc. and three wheelers also.

Performance Standards

- Meets API SN Grade performance level & exceeds the stringent requirements of JASO: MA-2.
- Meets API SM Grade performance level & exceeds the stringent requirements of JASO: MA-2.

Packing

900 ml, 1 ltr, 20 ltr, 50 ltr, 210 ltr

Royal Synth 15W50

MOTOFORCE Royal Synth 15W-50 is the most advanced performance Synthetic engine oil meets requirements of API SM designed to provide ultimate wear protection for a smooth driving experience every time. 15W 50 provides superior protection for engine, clutch and gears of the high powered Motor Cycles, especially those with engine displacement of 350 cc and above. The product helps you to derive the best performance from your bike all the time, while ensuring high engine durability.

Product Features and Benefits

- ▶ Actively prevents deposits and sludge build-up to enable long and clean engine life.
- ▶ Reduces oil ageing allowing extended drain interval protection.
- ▶ Less hydrocarbon pollution and oil make up due to evaporation.
- ▶ Excellent overall lubrication and wear protection performance for all driving styles and conditions.
- ▶ Performance reserve in the most extreme driving situations.

Applications

- ▶ Recommended for all new generation 4 stroke , two wheelers, plying under severe duty conditions like frequent stop & go, dusty environment, variable climatic conditions etc. viz. Royal Enfield Bullet 500, Bullet 350 / Bajaj Pulsar 220 NS.

Performance Standards

- ▶ Meets API SM Grade performance level & exceeds the stringent requirements of JASO: MA-2.

Packing

2.5 ltr, 3 ltr, 50 ltr, 210 ltr

Rexton Synth 5W40, Aston Synth 5W30

MOTOFORCE Aston Synth 5W-30 & Rexton Synth 5W40 is made with a proprietary blend of high performance synthetic basestocks fortified with a precisely balanced component system. The 5W-30 viscosity grade is one of the most recommended viscosity grades for new cars.

MOTOFORCE 5W40 is an advanced synthetic engine oil designed to keep your engine running like new by providing exceptional wear protection, cleaning power and overall performance. It meets or exceeds the requirements of the industry's toughest standards and outperforms our conventional oils. Its technology comes as standard equipment in many different vehicles, including select high-performance vehicles.

Product Features and Benefits

- Helps prevent deposits and sludge buildup to enable long engine life.
- Excellent overall lubrication and wear protection performance for many driving styles.
- Outstanding performance during the maximum oil change interval recommended in a vehicle's owners manual.
- Quick cold weather starting for ultra fast protection helps to extend engine life.
- Enhance the fuel economy of the vehicle.

Applications

- Recommended For modern day high performance cars running on Petrol / Diesel / CNG like Tata Motors, Hyundai Motors, Maruti, Datsun, Toyota, BMW, Honda, volkswagen, Skoda, Ford etc.

Performance Standards

- Meets API SN/ACEA-A3/B4 requirements.

Packing

1 ltr, 3 ltr, 3.5 ltr, 4 ltr, 5 ltr, 50 ltr, 210 ltr

Gear Synth 75W90

MotoForce Gear synth 75w90 is synthetic gear lubricant formulated from synthetic base oil and an advanced additive system. It is designed for use in new generation car & truck gear boxes and provides excellent load-carrying capability where extreme pressures and shock loading are expected.

Features and Benefits

New generation car & truck gear boxes designs have changed and increased the requirements of fluids to deliver higher performance including potentially increased productivity and reduced operating costs. MotoForce Gear Synth 75w90 is engineered to deliver exceptional performance and contribute to lower total lubrication - related operation costs. The key potential benefits include

Application Recommended For :

MotoForce Synth 75w90 Recommended for use in new generation truck & car and automotive front or rear differentials, manual transmissions, and lower gear units of marine engines that specify the use of an API GL-5 Fluid.

Appearance

Bright Golden Color

Performance Level

Meet API GL-5

Packing Size (Ltrs.)

1 ltr., 2.5 ltr., 20 ltr., 50 ltr., 205 ltr., 210 ltr.

Delta Plus Turbo 15W40 (CI - 4)

MotoForce Delta Plus Turbo 15w40 (CI - 4) is very high performance diesel engine oil formulated with advanced additive technology to corrosion protection to meet API CI - 4 plus specification. Outstanding soot dispersancy protects against abrasive wear and pumpability even with soot - laden oil, High dispersancy - protection in extended drain or severe service intervals and in EGR - equipped engines.

Product Features & Benefits

- Unique dispersant and detergent technology (UDD) with premium group II base oils provide advanced
- The extend TBN reserve enables extended drain Interval capability and the high viscosity index res.
- Very low oil consumption and hence increased drain interval.
- Extremely good soot handling capacity
- Better engine protection and durability

Recommended

Its superior additive technology and balanced formulation allows running on virtually all types of engines in the on and off highway application. Is recommended for most heavy earth moving machinery engines types found in construction and mining equipments.

Appearance

Bright Golden

Performance Level

Meets API-CI4 Plus

ACEA E7-08

Pack Size (Ltrs.)

5 ltr., 6 ltr., 7 ltr., 7.5 ltr., 10 ltr.,
11 ltr., 15 ltr., 20 ltr., 50 ltr., 205 ltr., 210 ltr.,

Express Turbo 15W40, Auto Star 15W40

CF - 4

CH - 4
Tractor Oil

These oils are high quality multigrade engine oils, meeting API:CH-4 performance requirements, formulated from selected high quality base oils and additives, to suit diesel engines, operating under severe duty conditions.

Product Features and Benefits

- Provides excellent protection against high temperature, engine deposits, ring groove carbon, piston and bearing lacquer, top deck and crankcase sludge.
- High viscosity index provides optimum film thickness & strength under severe operating conditions.
- High oxidation stability protects against formation of gums, varnish and resists oil thickening and filter plugging, for longer drain period.
- Overall outstanding performance accounts to fuel saving and prolonged engine life.

Applications

- Commercial road transport and off-highway vehicles applications.
- New generation automotive vehicles.

Performance Standards

- Meet API - CH - 4
- Meet API - CF - 4
- Equivalent to IS - 13656 - 2002

Packing

500 ml, 1 ltr, 3 ltr, 3.5 ltr, 5 ltr, 6 ltr, 7 ltr, 7.5 ltr, 8.5 ltr., 10 ltr, 15 ltr, 20 ltr, 26 ltr, 50 ltr, 210 ltr

Precautions

- Always change filter when changing engine oil.
- Short trips; stop-and-go traffic; excessive dust or dirt-such conditions are very hard for engine oils and may lead to frequent oil changes.

Platinum 20W40

MotoForce Platinum 20w40 oils are long engine oils, having good built-in alkaline reserves to combat corrosive wear that may result from the use of high sulphur fuel. These oils possess high oxidation stability and thermal stability to resist decomposition in service and having excellent ability to control viscosity due to soot related oil thickening. These oils meet API CF-4, US Military MIL-L-2104C, performance level and Equivalent to BIS - 13656 - 1993 Nissanol Power Plus Multigrades are suitable for all seasons.

Product Features and Benefits

- Suitable for all weather performances.
- Adequate viscosity is maintained at operating temperature for effective lubrication.
- Special dispersant/detergent additives, provides excellent piston / valve cleanliness and reduce exhaust emission.
- Reduced ring / liner wear.
- Lower oil consumption and increased fuel efficiency.
- Suitable for all seasons.

Applications

- Naturally aspirated / Super charged, turbo charged, diesel engines, operating with high ring zone temperature, under severe duty conditions.

Precautions

- Always change filter when changing engine oil.
- Short trips; stop-and-go traffic; excessive dust or dirt-such conditions are very hard for engine oils and may lead to frequent oil changes.

Performance Standards

- Meet API - CF-4, MIL - L - 2104C
- Equivalent to IS - 13656 - 2002

Packing

500 ml, 1 ltr, 3 ltr, 5 ltr, 6 ltr, 7 ltr, 7.5 ltr, 8.5 ltr, 10 ltr, 20 ltr, 26 ltr, 50 ltr, 210 ltr

API SL

Meet API - SG/CF

It is a super premium multigrade oil for gasoline engines, meeting API:SF/CC, performance requirements. It is made from high quality base oils and selected additives. Being multi grade oil it has wide ranging features.

Product Features and Benefits

- ▶ Excellent oxidation stability results in less engine deposits.
- ▶ Higher detergency / dispersancy level keeps oil degradation product well under suspension.
- ▶ Added protection against rust, corrosion and wear.
- ▶ Easy engine start & longer battery life.
- ▶ Avoids seasonal oil changes.
- ▶ Reduced exhaust emission.
- ▶ Increased oil drain period and better fuel efficiency.
- ▶ Lower oil consumption due to lesser tendency of oil thickening.
- ▶ Maintains stay-in-grade viscosity throughout over wide range of operating temperature.

Applications

- ▶ Fuel efficient petrol/CNG engine driven cars and utility vehicles.

Precautions

- ▶ Always change filter when changing engine oil.
- ▶ Short trips; stop-and-go traffic; excessive dust or dirt-such conditions are very hard for engine oils and may lead to frequent oil changes.

Performance Standards

- ▶ Meet API - SL
- ▶ Meet API - SG CF
- ▶ Equaliant to IS - 13656 - 1993

Packing

1 ltr, 3 ltr, 3.5 ltr, 50 ltr, 210 ltr

Gear guard 90, 140, 80w90, 85w140

GL-4

GL-5

These are premium quality gear oils EP Type GL-5 which are blended from highly base oils having high viscosity index & good oxidation stability. These oils are also fortified with combinations of additives which provides outstanding load carrying load carrying properties, good anti foaming / antiwear characteristics for long term performance.

Product Features and Benefits

- ▶ Excellent thermal and oxidation stability.
- ▶ Protection of gears under high speed low torque & low speed high-torque conditions.
- ▶ Anti foaming and good film forming.
- ▶ Smooth gear changing / shifting and long drain interval.
- ▶ Prevent scuffing and scoring of gears.

Applications

- ▶ Hypoid, spiral bevel, spur and double reduction constant or synchromesh gear boxes, transfer boxes etc. of vehicles and construction plants; steering boxes and oil lubricated universal gear joint, requiring EP type GL-4 gear oils.

Performance Standards

- ▶ Meet API - GL - 4 - MIL - 2105
- ▶ Meet API - GL - 5 - MIL - 2105
- ▶ Equivalent to IS - 1118

Packing

500 ml, 1 ltr, 2.5 ltr, 5 ltr, 7 ltr, 10 ltr, 12 ltr, 20 ltr, 26 ltr, 50 ltr, 210 ltr

Premium UTTO Wet Brake

MOROFORCE Utto Wet Brake Oil is a special purpose Hydraulic and Transmission Oil designed to lubricate tractor transmissions, differentials and final drive gears. It also functions as a power steering, power brake, power take-off and implement drive fluid with sufficient friction and heat transfer characteristics to facilitate the efficient operation of tractor wet brakes and power take-off units. WET BRAKE OIL is a High Performance Hydraulic cum Transmission Oil.

Product Features and Benefits

- Widely used for Agricultural Tractors fitted with oil immersed Brakes.
- Adequate operating viscosity at all temperatures ensures lubrication Efficiency.
- Ensures quiet and chatter free operation under all climatic conditions.
- Compatible with seal materials used in transmission systems.
- Superior gear wear protection.
- Stays in grade under all conditions.
- Protects against corrosion.

Applications

Recommended for use in all Tractors having oil immersed brakes and backhoe loaders of TELCON JD, L & T, CASE, JCB, VOLVO, CATERPILLAR, TEREX, Mahindra & Mahindra, Eicher, TAFE, SAME, Swaraj, Fiat, Massey Ferguson, Ford & New Holland having wet brake systems.

Performance Standards

- Meet API - GL - 4 - J20 C/D, Ford M2C 134D, M1141.

Packing

1 ltr, 5 ltr, 10 ltr, 20 ltr, 26 ltr, 50 ltr, 210 ltr

Sigma TQ

Transmission Oil

It is a premium quality red dyed transmission oil having a low coefficient of friction to meet Type A Suffix A Specifications.

Product Features and Benefits

- High thermal and oxidation stability.
- Good detergent - dispersant, antiwear, anticorrosion properties.
- Provides excellent power shift transmission, even at low temperature.
Reduces gear wear.
- Improves life of transmission & steering system.
- Compatible with various type of seal materials.

Applications

- Lubrication of synchromesh gears and automatic and power steering units of automobiles and LCVs requiring Type A Suffix A fluid.

Performance Standards

- Meet Type A, Suffix A Specifications.

Packing

500 ml, 1 ltr, 5 ltr, 10 ltr, 20 ltr, 26 ltr, 50 ltr, 210 ltr

Hydro HLP 10, 32, 46, 68

MotoForce Hydro HLP oils are blended from highly base stocks and carefully selected anti-oxidant, anti-wear, anti-rust and anti-foam additives, to get best possible lubrication characteristics, MotoForce Hydro oils have long service life and are recommended for hydraulic systems due to excellent lubrication characteristics and a wide variety of circulations systems of industrial and automotive equipment. These oils are also used for compressor crankcase lubrication, but are not used for lubrication of Rem for high pressure hydraulic systems.

Appearance :

Hydro HLP : Clear White & Clear Golden

Performance Level :

Meet IS - 10522 - 1983

Pack Size (LTRS.)

5 ltr., 10 ltr., 20 ltr., 26 ltr., 50 ltr., 205ltr., 210 ltr.

Moto Cool 1:4

These are non petroleum base engine coolant cum-antifreeze, formulated from ethylene glycol and special inhibitors. It is used in all types of automotive vehicles / industrial engines radiators, for protection against winter - freezing and summer boil out of cooling liquid. Easy miscibility with water. Excellent cooling properties. High boiling point and low freezing point. Non corrosive and antirust. An ideal medium which lubricates continuously bearings, seals and other critical parts of water pumps. Protects all metals including aluminum. All kind of petrol / diesel engine driven passenger cars, jeeps, vans, commercial vehicles and stationery engines operating with water as a cooling medium. Dilution Recommended Nissanol Coolant 1/3rd parts of coolant with 2/3rd parts of distilled water.

Precautions :

Check cool level occasionally and top up and when required.

Appearance :

Clear florescent green color liquid.

Performance Level :

As per astm - d 1384/2570
Synthetic Base

Pack Size (Itrs.)

500ml, 1 ltr., 3 ltr., 5 ltr., 20 ltr., 210 ltr.

Micro 2T Cng & Petrol

Micro 2T is a super premium lubricant specially designed for use in 2 stroke, CNG Rikshaw, motorcycles and scooter. This oil is manufactured from selected low-carbon foaming base oil and fortified with a non-metallic, ashless detergent dispersant additive and rust inhibitors to provide maximum engine protection during storage and minimize spark plug fouling, pre-ignition, ring sticking and combustion chamber deposits.

New Friction Free Technology

Application :

Recommended for CNG & Petrol Vehicles. Other air-cooled 2-stroke motorcycle engines where the OEM specifies API TC quality oil.

Appearance :

Clear & Bright Golden Color

Performance Standards :

API TC / JASO FC

Pack Size (LTRS.)

500ml, 1 ltr., 20 ltr., 50 ltr., 205 ltr., 210 ltr.

Fork Oil Ultra White

- Advanced mineral based fluid designed to provide the optimum dampening performance in suspensions over a wide temperature range.
- Prolongs seal life by resisting premature hardening and glazing ensuring efficient fork operation.
- Stays in-grade, Maintaining consistent fork operation.
- Assists in minimizing corrosion and formation of rust.
- Suppress foam to ensure efficient dampening operation.

Appearance :

Clear White Color

Pack Size

175ml, 350ml.

Moto Long Life Gel Grease (NLGI-3)

It is a premium quality lithium based all purpose grease fortified with mild EP additives. It is specially formulated to enhance re-lubrication interval, up to 45,000km. under ideal road condition. It is good thermal, chemical and structural stability including water out properties. It provides excellent lubrication and protection to the bearing parts over a wide temperature & pressure range, under normal as well as adverse mechanical conditions.

Motoforce Long Runner 100000

MotoForce Long Runner 100000 GREASE is high performance lithium complex grease designed for lubrication of bearings of most automotive and industrial equipment. This grease is based on high quality mineral base fluid and superior lithium complex soap thickener fortified with excellent anti-oxidation, anti-rust and anti-wear additive systems. This grease provides long term protection to the rolling elements over a wide temperature range.

Appearance :

Red Color

Performance Level :

NLGI 3

Pack Size

500gm., 1kg., 2kg., 3kg., 5kg.,
7kg., 18kg., 180kg.

Moto - Ap3 (NIGI-3)

These are multi functional lithium base greases, mild extreme pressure (EP) properties. These greases possess excellent shear stability high load carrying properties & prevent welding & seizure of moving parts under shock loading conditions. These greases are recommended for industrial & automotive, earth moving equipments, gear couplings, electric motors, ball & roller bearings etc.

Moto Tractor - APLR (35000)

APLR 35000 Grease is of Exceptional quality grease strengthened with high performance additives. It has excellent water resistance properties, high oxidation stability and maximum structural stability with superior anti-rust & anti-corrosion properties. It resists water washout & enjoys all round acceptance for both anti-friction & plain bearing lubrication. It meets the requirements of British Timken ALG 1/57, IS 7623-1993 (second revision), IPSS:1-09-006 specification & U.S. Steel 374 requirements. It is largely used in steel plants, heavy engineering units, textile mills, petrochemical & chemical units, etc. These greases are recommended for all class of service in automotive lubrication & bearings.

Moto - MP3

MotoForce MP-3 is a multifunctional complex base grease, having extreme pressure (EP) properties. These greases possess excellent shear stability, high load carrying properties & prevent welding & seizure of moving parts under shock loading conditions. These greases are recommended for industrial & automotive, earth moving equipment, gear couplings, electric motors, ball & roller bearings etc.

Pack Size

100gm., 200gm., 500gm., 1kg.,
2kg., 3kg., 5kg., 7kg., 18kg., 180kg.

Ultra Gear 90

MotoForce Ultra Gear 90 are hypoid gear oils containing extreme pressure additive and have long service life due to their extremely good oxidation stability. These oils meet API service classification GL-4, 15:1118-1992, US military MIL-L-21015 specifications. MotoForce Gear EP oils are recommended for hypoid, spiral bevel of warm gear transmission systems of cars, buses and trucks requiring EP type lubricants.

Turbo ex 15W40

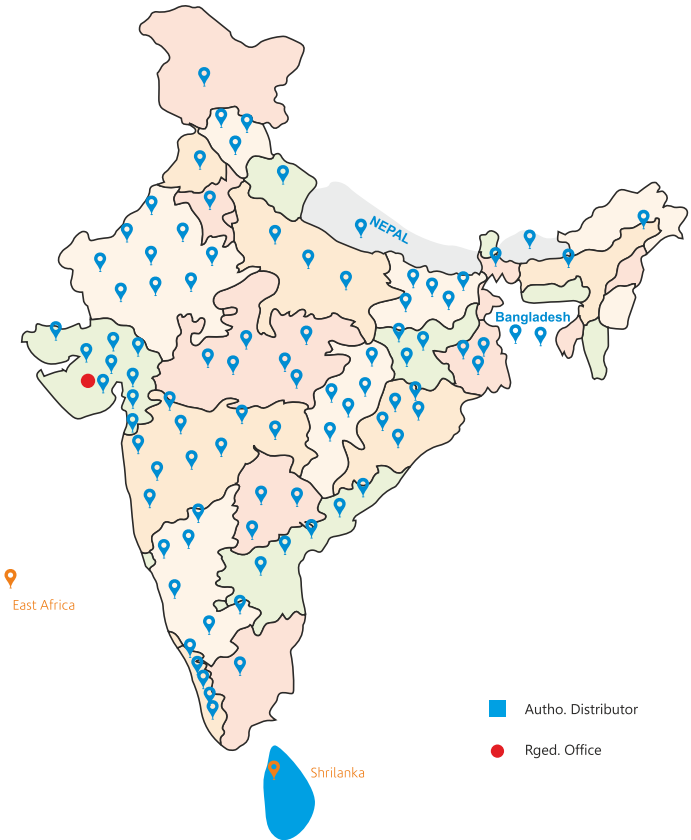

MotoForce Turbo ex 15W40 is a commercial multipurpose diesel engine oil and meets the requirements of off-highway diesel engines. This oil assures outstanding protection against high temperature engine deposits, oil degradation, oil thickening and corrosion resistance. This oil having excellent stability to maintain viscosity under severe, high temperature operations. This oil meets the latest API CF4 service classification for modern and low emission diesel engines. Provides excellent protection against high temperature, engine deposits, ring groove carbon, bison and bearing lacquer, top deck and crankcase sludge. High viscosity index provides optimum film thickness & strength under severe operating conditions. High oxidation stability protects against formation of gums, varnish and resists oil thickening and filter plugging for longer drain period. Overall outstanding performance accounts to fuel saving and prolonged engine life

Pacific 20W40

MotoForce Pacific 20w40 oils are long drain engine oils, having good built-in alkaline reserves to combat corrosive wear that may result from the use of high sulphur fuel. These oils possess high oxidation stability and thermal stability to resist decomposition in service and having excellent stability to control viscosity due to soot related oil thickening. These oils meet API CF, US Military MIL-L-2104C, performance level and Equivalent to BIS - 13656 - 1993 MotoForce Pacific Multigrades are suitable for all seasons.
