**AARTI**

**STEEL ENTERPRISE**

# ABOUT US

- Aarti Steel Enterprise was established in the year 1997 and for the last 22 years has enjoyed its customers trust and respect.
- Our esteemed finders are Mr. Shantilal Panchal and his hard work and guidance has led our company to glorious heights.
- We are among the leading manufacturers of all kind of machinery spare parts and other related products like Auger, Auger – Screw, Screw Conveyor, Screw Feeder, Hopper, Tank & precision CNC Jobs works etc. Our products are manufactured by using premium quality ferrous and non-ferrous raw materials procured from our reliable vendors.
- we are engaged in offering a range that is in line with specific requirements of our clients.
- We are Endowed with a technically advanced manufacturing unit, along with use of modern technology and advanced machineries has allowed us to diversify in terms of products and customers.

- we are principally involved in Light and medium metal fabrication using state of the art latest technology like CNC laser cutting, CNC bending and welding etc.
- Our consistent approach has also helped us to garner quality conscious clients in the market. With an integrated infrastructure and support of a diligent team of professionals, we have been able to carve a niche in the domain. Our expertise and the dedicated support provided by our experienced team have helped us in gaining a commendable position in the market.
- Our company has a firm reputation in the market, we follow the total quality management concept and to prove our quality consciousness. Further we are looking to export our materials in coming future.

# vision

- We aim to be the leading manufacturing of packaging machinery parts through creation of innovative marketing activities .
- We also strive to be a respected member in our community, where our customers, employees & partners take pride in associating with us.

# Mission

- To provide best quality product & services to the customer.

# We are engaged in manufacturing of:

- PACKAGING MACHINERY SPARE PARTS
- AUGER FILLER MACHINE SPARE PARTS
- SCREW CONVEYOR
- SCREW FEEDER
- ALL TYPES OF CNC PRECISION JOB WORKS

# Our team

- our professional workforce consists of **managers, quality controllers, R&D personnel, administrative personnel, technical experts, semi skilled, unskilled and skilled personnel and others**. Regular training sessions are conducted so that they can adjust and work according to the constantly changing market scenario and are able to keep our customers happy.

# Future plan

- We Are Planning To Create Our Company In Private Ltd

# Quality assurance

- Special care is always maintained by us while manufacturing and supplying machineries to our national and international clients. Quality-proven ferrous and nonferrous materials, as well as special grade casting material and Teflon are used as raw materials by our workforce. Use of high grade packaging material as per ISP guidelines and a wide distribution network, latest technology, higher work life, durability, reliability, efficiency, tensile strength, resistance to corrosion or rust are other advantages our products offer. We also offer OE products and private labeling.

# Achievements

*The 31<sup>st</sup>  
Precision Sheet Metal Technology Fair*

***Grand Prize  
( Sheet metal parts )***

*Presented to:  
Aarti Steel Enterprise*

*Award for:  
Spiral*

*This is to certify that your excellent work  
is awarded herein and we are pleased to  
honor your high level of contribution to  
metal fabrication field.*

*Congratulations on your performance.*
