About Us

With years of experience, our company, Akktva Sadguru Engineering, has successfully created a name for itself in the market as one of the leading manufacturers and suppliers of mechanical parts. Our offered range includes Aluminium Double Compression Cable Gland, Brass Cable Cable Gland, Brass Hexagonal Nut, CNC Components, Stainless Steel Plain TC Ferrule, and more, and these items are highly useful in the proper functioning of any mechanical product. Made using premium-quality raw materials, the quality of our products is on par with international standards. We make sure to maintain the highest standards of quality while making these items. All the products we manufacture go through a series of quality assurance tests. Thus, they are highly efficient, durable, and have robust construction. Extra attention is paid to the dimensions because they need to fit properly. Our ability to provide these products to our customers at competitive market prices has helped us reach a larger number of people all over the country. Moreover, our strong logistics and delivery teams ensure timely delivery of all projects.

Since 2013, our company, Akktva Sadguru Engineering, has been conducting their business policies out of Mumbai, Maharashtra, India. We are known to manufacture and supply products like Stainless Steel Pipe Flange, Fire Hose Nozzle, Brass Insert, Butterfly Valve, Brass Fastener, and more. We have more than 10 years of experience in this industry, and that has given us a lot of knowledge in the respective field. We have the highest regard for all our clients and vendors and strive to maintain a healthy relationship with them. We keep a vigilant eye on the latest market developments and customize our product range according to the requirements of our clients. Our ability to change and adapt to market trends has helped us stay in this cutthroat industry for a long time.
