About Us

Researches and inventions are making people live an easy life. In simple terms, it means, advancements in technology are making people use more and more machines to ease works that would otherwise consume more time, money and effort if performed mechanically. One of the sectors, which has impressively grown with mechanical advancements is Food. The Indian Food Industry in particular has grown in great size with the development of food processing machines. We, **Vaidikaz Industries**, take great pride in stating that we are a new entrant in this sector and more focused than any other longstanding establishments. We can develop better technology machines for easing diverse food preparation works. In service as **manufacturer**, we are currently introducing **Semi Automatic Potato Peeler Machine, Stainless Steel Onion Chopping Machine, Semi Automatic Samosa Making Machine, Commercial Mixer Grinder Machine, SS Commercial Chapati Puffer**, etc. Our creations are built to support small, medium and large-scale food processing companies in performing food processing work with complete convenience and enjoy the benefit of better and faster production.

Why Us?

The ever rising need of hygienically prepared food is one of the foremost reasons for companies investing in advanced food processing machines. We, with an aim of suiting the needs of commercial food manufacturers, restaurants, hotels, etc., are introducing machines which can minimize human contact with food. Some factors that support our commitment of offering quality based machines are as follows:

- ✿ Use of tested components for fabrication of advanced machines
- ✿ Smart use of available resources for creating value for money machines
- ✿ Energy efficiency, durability, ease of maintenance and compact design of offered machines

Our Infrastructure

Vaidikaz Industries is standing tall on a 1000 sq. ft. land at Rajkot, Gujarat (India). Our company has professional quality and advanced machines and tools for fabrication of Stainless Steel Onion Chopping Machine, Semi Automatic Potato Peeler Machine, SS Commercial Chapati Puffer, and other food processing machines. Our large production unit supports us in carrying out all sorts and types of production works, from shaping metals to welding, quality inspection and more. Assembling of every machine, be it small or big, is done in a manner by our smart professionals that no design or functional fault arises in the future.

Our Products

2 In 1 Grinding Machine

3 HP Gravy Machine

Multi Purpose Spice Grinder

2 HP Gravy Machine

Tilting Mixer Machine

2 HP Gravy Machine

3 HP Pulverizer Gravy Machine

Stainless Steel Dough Kneading Machine

Pulveriser Masala Machine

Masala Making Machine

Atta Dough Kneader Machine

Semi Automatic Potato Peeler Machine

2 Hp 2 In1 Grinding Machine

Single Ribbon Blender

Vegetable Chopping Machine

Peanut Shelling Machine

Power Transmission Products

Decorticator Machine
