

Aludecor
Metal Composite Panel

IMAGINE CREATE INNOVATE

At Aludecor our aim is to facilitate imagination, creativity and innovation. We ensure this through future-friendly products that raise the bar, every day.

Stringent measures are adopted to make sure that the products meet international standards. Since 2004 the company has consistently upgraded technology, introduced superior aesthetics, used the best raw materials and established new parameters for excellence in the national market of Metal Composite Panels (MCPs) and coated coils.

Reasons to buy Aludecor MCPs

Aludecor MCPs can come in both Aludecor FireWall A2 and Aludecor FireWall. They have Factory Production Control certification from Warringtonfire of the UK (ewcl™)[now under Element Materials Technology] for reaction to fire classifications of EN 13501-1 Class A2-s1, d0 for FireWall A2 (CF 5916), EN 13501-1 Class B-s1, d0 (CF 6002) and BS 476, Part 6 and 7 Class O (ME 5092) for Aludecor FireWall.

Now, Aludecor ZCP is available in FR Class B (CF 6002). Aludecor has surpassed one of the World's Highest Fire Safety Standards - the NFPA 285 Rating Test for FireWall Class B products.

#BeatTheFire

Aludecor FireWall A2 has fireproof properties close to metals.

Shades may vary from batch to batch. For warranty and related matters please contact our toll free number 1800 102 0407. As responsible citizens we choose to design products that help prevent the depletion of natural resources. The Pedra, Timber and Ace Series provide building materials that help preserve nature's resources. With this we hope to gift our children a better tomorrow.
