About Us

VEENA APPLIANCES PVT LTD. is manufacturer of ceiling fans manufacturer, decorative ceiling fans, designer ceiling fans, super premium fans.

Ceiling fans are a popular choice for both residential and commercial spaces, providing both comfort and airflow.

As a ceiling fan manufacturer, VEENA APPLIANCES PVT LTD. likely offers a variety of ceiling fan designs, styles, and sizes to suit different preferences and room dimensions. They may provide options for both indoor and outdoor ceiling fans, catering to various installation requirements.

Ceiling fans from VEENA APPLIANCES PVT LTD. are typically designed to be energy-efficient, durable, and reliable. They may feature advanced motor technology that ensures smooth and quiet operation, along with multiple speed settings to suit individual preferences. Additionally, VEENA APPLIANCES PVT LTD. ceiling fans may incorporate reversible airflow options, allowing for efficient cooling in the summer and improved air circulation in the winter.

In terms of aesthetics, VEENA APPLIANCES PVT LTD. ceiling fans may offer a range of finishes, blade designs, and lighting options. This allows customers to choose ceiling fans that complement their interior decor and provide a stylish addition to their living spaces.

By specializing in manufacturing ceiling fans, VEENA APPLIANCES PVT LTD. aims to provide high-quality products that combine functionality, aesthetics, and performance. Ceiling fans can enhance the overall comfort and energy efficiency of a space, making them a popular choice for cooling and air circulation in many homes and businesses.

DECO 24"

Sweep (600 mm)

Brown / S. Brown / White / Ivory / Blue

- Innovative & contemporary design
- Wider blade tip for high air delivery
- Energy - efficient motor with optimum performance at low voltage

ECO 24"

Sweep (600 mm)

Brown / S. Brown / White / Ivory / Blue

- 100% copper motor
- Excellent air thrust & air delivery
- Scientifically ribbed aluminium blade & motor body

SWIFT 24"

Sweep (600 mm)

Brown / S. Brown / White / Ivory / Blue

- Innovative & contemporary design
- Wider blade tip for high air delivery
- Energy - efficient motor with optimum performance at low voltage

EV-8 24"

Sweep (600 mm)

Brown / S. Brown / White / Ivory / Blue

- Innovative & contemporary design
- Wider blade tip for high air delivery
- Energy - efficient motor with optimum performance at low voltage

KWID 24"

Sweep (600 mm)

Brown / S. Brown / White / Ivory / Blue

- Quick start high torque motor
- Excellent and long lasting finishing
- Ribbed blades for high speed

TEJ 24"

Sweep (600 mm)

Brown / S. Brown / White / Ivory / Blue

- Quick start high torque motor
- Excellent and long lasting finishing
- Ribbed blades for high speed

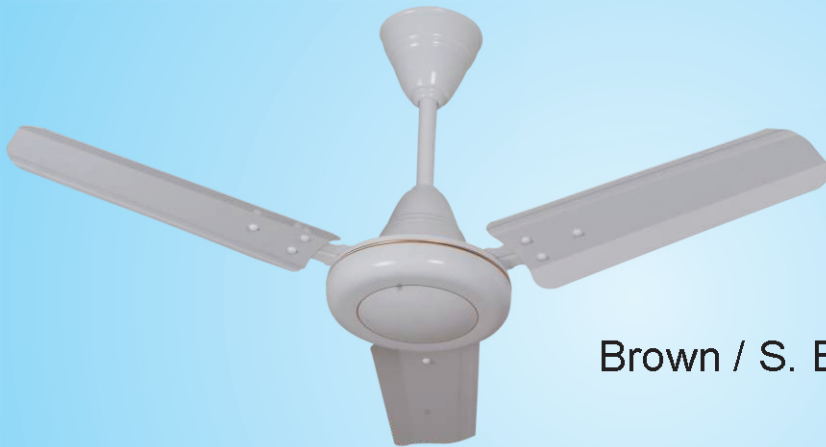

DECO 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- 100% copper motor
- Excellent air thrust & air delivery
- Scientifically ribbed aluminium blade & motor body

ECO 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- Quick start high torque motor
- Excellent and long lasting finishing
- Ribbed blades for high speed

FUSION 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- Quick start high torque motor
- Excellent and long lasting finishing
- Ribbed blades for high speed

KWID 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- High air thrust
- Energy - efficient
- Superior paint finish for longer life

PSL-1 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- Quick start high torque motor
- Excellent and long lasting finish
- Ribbed blades for high speed

SWIFT 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- Quick start high torque motor
- Excellent and long lasting finish
- Ribbed blades for high speed

TEJ 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- High air thrust
- Energy - efficient
- Superior paint finish for longer life

WIFI 36"

Sweep (900 mm)

Brown / S. Brown / White / Ivory / Blue

- Highest air delivery
- Strongest motor
- Aerodynamic blades

DECO 48"

Sweep (1200 mm)
Brown / S. Brown /
White / Ivory / Blue

- High air thrust
- Energy - efficient
- Superior paint finish for longer life

ECO 48"

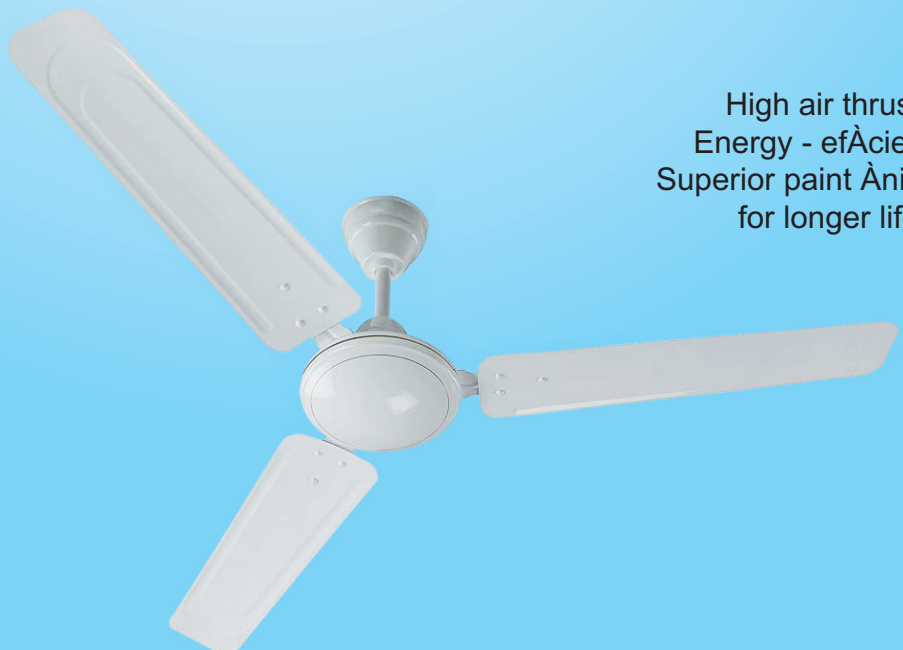

Sweep (1200 mm)
Brown / S. Brown /
White / Ivory / Blue

- High air thrust
- Energy - efficient
- Superior paint finish for longer life

SWIFT 48"

Sweep (1200 mm)
Brown / S. Brown /
White / Ivory / Blue

- High air thrust
- Energy - efficient
- Superior paint finish for longer life

EV-8 48"

Sweep (1200 mm)
Brown / S. Brown /
White / Ivory / Blue

Quick start high torque motor
Excellent and long lasting finishing
Ribbed blades for high speed

FUSION 48"

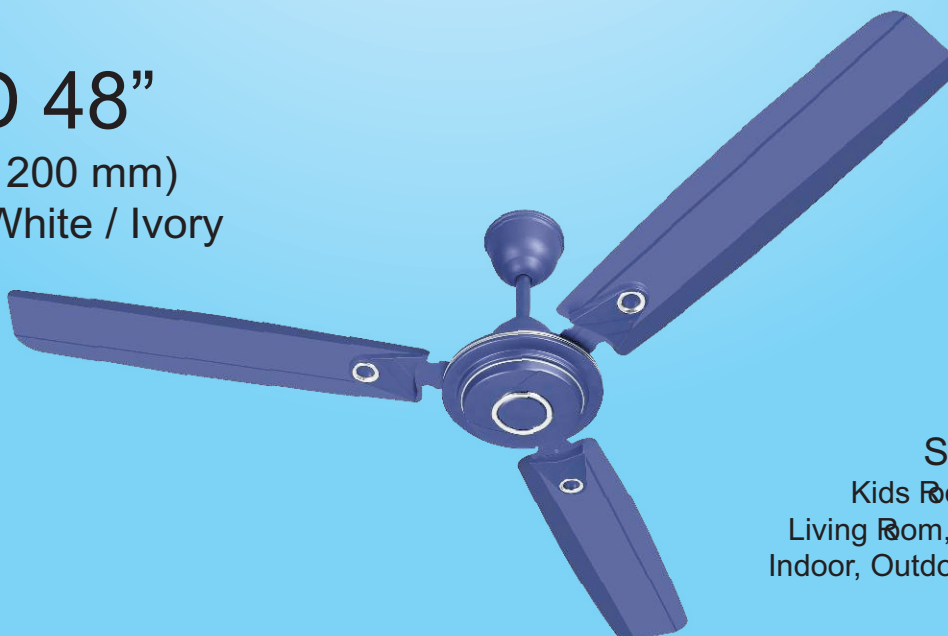

Sweep (1200 mm)
Brown / S. Brown /
White / Ivory / Blue

High air thrust •
Energy - efficient •
Superior paint finish •
for longer life

KWID 48"

Sweep (1200 mm)
Brown / White / Ivory

Suitable for :
Kids Room, Bedroom •
Living Room, Dining Room •
Indoor, Outdoor, Home etc •

WIFI 48"

Sweep (1200 mm)

Brown / S. Brown / White / Ivory / Blue

- Double ball bearing
- 100% copper motor
- Quick start high torque motor

ROVER 48"

Sweep (1200 mm)

Brown / S. Brown / White / Ivory / Blue

- Suitable for :
- Kids R room, Bedroom
 - Living Room, Dining Room
 - Indoor, Outdoor, Home. etc

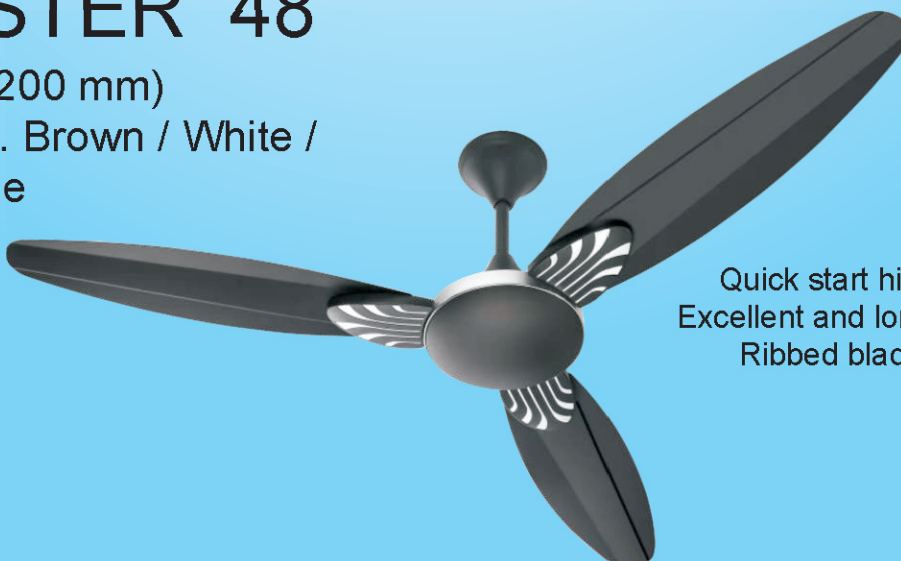

BLASTER 48"

Sweep (1200 mm)

Brown / S. Brown / White / Ivory / Blue

- Quick start high torque motor
- Excellent and long lasting finishing
- Ribbed blades for high speed

PEDESTAL FAN 16"

SUV 700

Sweep (400 mm)

Brown / White / Ivory

- Motor, specially designed for Indian conditions
- Aerodynamically designed pp blades
- RPM -2200
- Wattage - 70w

PEDESTAL FAN 16"

SUV 700

Sweep (400 mm)

Brown / White / Ivory

- Motor, specially designed for Indian conditions
- Aerodynamically designed pp blades
- RPM -2200
- Wattage - 70w

**Table Fan
&
Wall Fan**

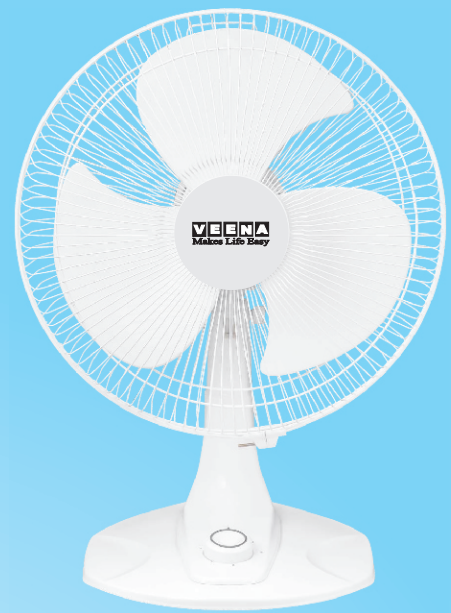

SUV 300 16"

Sweep (400 mm)

Brown / White / Ivory

- Low noise operation
- Oscillation function brings wider range of air flow
- Thermal overload protector for extra safety

SUV 300 12"

Sweep (300 mm)

Brown / White / Ivory

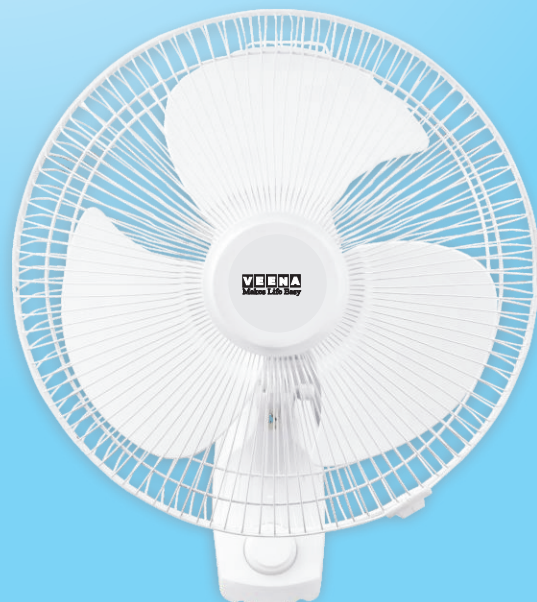

- Low noise operation
- Oscillation function brings wider range of air flow
- Thermal overload protector for extra safety
- RPM -1200

SUV 500 16"

Sweep (400 mm)

Brown / White / Ivory

- High air delivery
- 100% copper motor for longer life
- Motor overheat protection
- RPM -1200

VENTO 12"

Sweep (300 mm)
Brown / White / Ivory

- Low noise operation
- Oscillation function brings wider range of air flow
- Thermal overload protector for extra safety

VENTO MAX 12"

Sweep (300 mm)
Brown / White / Ivory

- High air delivery
- 100% copper motor for longer life
- Motor overheat protection

CELERIO 12"

Sweep (300 mm)
Brown / White / Ivory

- High air delivery
- 100% copper motor for longer life
- Motor overheat protection

I-20 12"

Sweep (300 mm)
Brown / White / Ivory

- Low noise operation
- Oscillation function brings wider range of air flow
- Thermal overload protector for extra safety

BULLET 16"

Sweep (400 mm)

Brown / White / Ivory

- No. of blades : 3
- Rated speed : 2200 revolution per minute
- Power consumption : 130 W
- Rated frequency : 50 Hz
- Rated voltage : 220 V-240 V

JET EXPRESS 16"

Sweep (400 mm)

Brown / White / Ivory

- 3 : No. of blades •
- 2200 revolution : Rated speed •
per minute
- 130 W : Power consumption •
- 50 Hz : Rated frequency •
- 220 V-240 V : Rated voltage •

BULLET MOVING 16"

Sweep (400 mm)

Brown / White / Ivory

- No. of blades : 3
- Rated speed : 2200 revolution per minute
- Power consumption : 130 W
- Rated frequency : 50 Hz
- Rated voltage : 220 V-240 V

Fresher Fan

VENTILATION FAN 6",8",10",12"

Sweep (400 mm)
Brown / White / Ivory

- No. of blades : 3
- Power consumption : 130 W
- Rated frequency : 50 Hz
- Rated voltage : 220-240 V

9" FRESHER Exhaust

Sweep (400 mm)
Brown / White / Ivory

- 3 : No. of blades•
- 130 W : Power consumption•
- 50 Hz : Rated frequency•
- 220-240 V : Rated voltage•

12" FRESHER Exhaust

Sweep (400 mm)
Brown / White / Ivory

- No. of blades : 3
- Power consumption : 130 W
- Rated frequency : 50 Hz
- Rated voltage : 220-240 V

Heater

2 ROD HEATER

Heating Power (2000 W)

- 3 heating positions
- Additional safety grill
- Instant heating
- Elegant design

ALUTR

Heating Power (2000 W)

- Better aesthetic abs body
- Protects from accidental hazards
- overheating protection
- Adjustable vent angle for air delivery
- PTC ceramic heating element

FAN HEATER 03

Heating Power (2000 W)

- 100% copper motor
- Bi directional placement
- 5 level protection
- ABS body and metal mesh

Grinder**

MINI DIMOND

Watts 550

- 1 Lt. stainless steel dry & grinding jar
- 400 ml stainless steel chutney jar
- Automatic overload cutoff switch for motor protection
- Transparent lids (random pp)
- 3 Speed with pulse control
- Turbo universal motor
- ISI marked
- 30 Minute rating

MINI STAR

Watts 550

- 1 Lt. stainless steel dry & grinding jar
- 400 ml stainless steel chutney jar
- Automatic overload cutoff switch for motor protection
- Transparent lids (random pp)
- 3 Speed with pulse control
- Turbo universal motor
- ISI marked
- 30 Minute rating

SHAKTI

Watts 550

- 1 Lt. stainless steel dry
- 400 ml stainless steel chutney jar
- Automatic overload cutoff switch for motor protection
- 3 Speed with pulse control
- Turbo universal motor
- ISI marked
- 30 Minute rating

MARK-1

Watts 550

- 1.5 Lt. polycarbonate jar
- 600 ml stainless steel dry jar
- Automatic overload cut-off switch for motor protection
- 3 Speed with pulse control
- Turbo universal motor
- ISI marked
- 30 Minute rating

RIO

Watts 550

- 1.5 Lt. polycarbonate jar
- 600 ml stainless steel dry jar
- Automatic overload cut-off switch for motor protection
- 3 Speed with pulse control
- Turbo universal motor
- ISI marked
- 30 Minute rating

TURBO JET MIX

Watts 900

- 1.5 Lt. SS liquid jar
- 1 Lt. SS dry jar
- 400 ml. SS chutney jar
- Double ball bearing motor
- 100% copper motor
- 3 Speed with pulse control
- High quality jar lid
- 90 Minute rating

PLANCHA KING

Watts 1000

- Heavier sole plate
- Dupont American Heritage Sole plate coating
- Bi-metallic thermostat with thermal fuse technology
- High temperature grade PBT insulator
- Easy grip tem. control dial for selection for different fabrics

PLANCHA 555

Watts 1000

- Indicator light
- Large sole plate
- Heavy weight body
- Aerodynamic design
- Easy grip tem. control dial for selection for different fabrics

MAGIC

Watts 750

- 750W
- Indicator light
- Aerodynamic design
- 180° Swivel cord for effortless maneuvering
- Weilburger premium non stick coating smooth gliding on fabric

MYSTRO

Watts 750

- Indicator light
- Aerodynamic design
- 180° Swivel cord for effortless maneuvering
- Weilburger premium non stick coating smooth gliding on fabric

DUSTER

Watts 750

- Indicator light
- Aerodynamic design
- 180° Swivel cord for effortless maneuvering
- Weilburger premium non stick coating smooth gliding on fabric

JUPITER

Watts 750

- Heavier sole plate
- Dupont American Heritage Sole plate coating
- Bi-metallic thermostat with thermal fuse technology
- High temperature grade PBT insulator
- Easy grip tem. control dial for selection for different fabrics

INDUCTION TOUCH BUTTON

- 1500 W
- Heavier sole plate
- Dupont American Heritage Sole plate coating
- Bi-metallic thermostat with thermal fuse technology
- High temperature grade PBT insulator
- Easy grip tem. control dial for selection for different fabrics

INDUCTION TOUCH BUTTON

- 2000 W
- Indicator light
- Large sole plate
- Heavy weight body
- Aerodynamic design
- Easy grip tem. control dial for selection for different fabrics

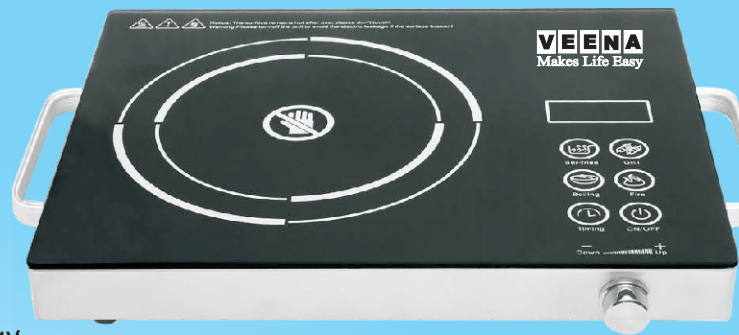

INDUCTION PUSH BUTTON

- 1500 W
- Heavier sole plate
- Dupont American Heritage Sole plate coating
- Bi-metallic thermostat with thermal fuse technology
- High temperature grade PBT insulator
- Easy grip tem. control dial for selection for different fabrics

INFRARED COOKTOP

- 2200W
- Heavier sole plate
- Dupont American Heritage Sole plate coating
- Bi-metallic thermostat with thermal fuse technology
- High temperature grade PBT insulator
- Easy grip tem. control dial for selection for different fabrics

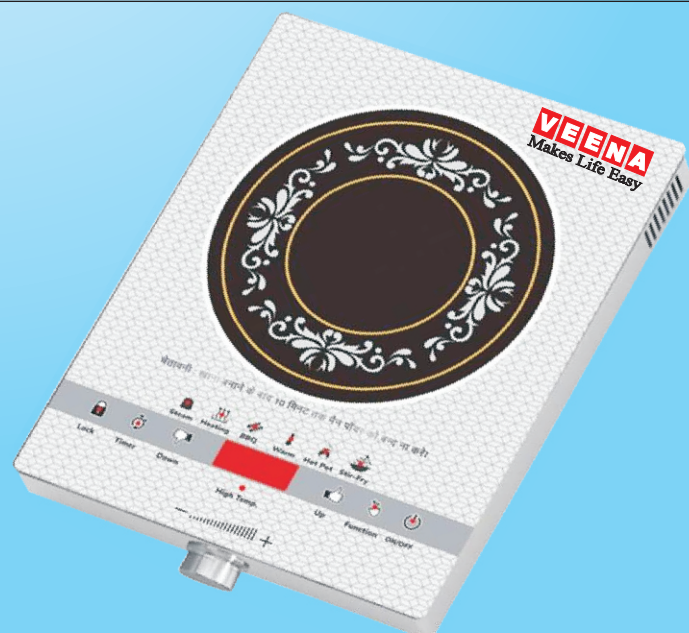

INFRARED COOKTOP

- 2200W
- Indicator light
- Large sole plate
- Heavy weight body
- Aerodynamic design
- Easy grip tem. control dial for selection for different fabrics

INFRARED COOKTOP

- 2000W
- Heavier sole plate
- Dupont American Heritage Sole plate coating
- Bi-metallic thermostat with thermal fuse technology
- High temperature grade PBT insulator
- Easy grip tem. control dial for selection for different fabrics

Immersion Rod

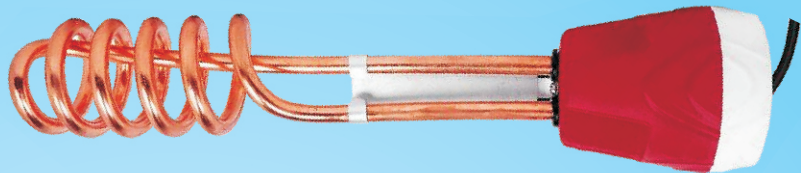

Kettle

WATER PROOF

Watts 1000/1500/2000

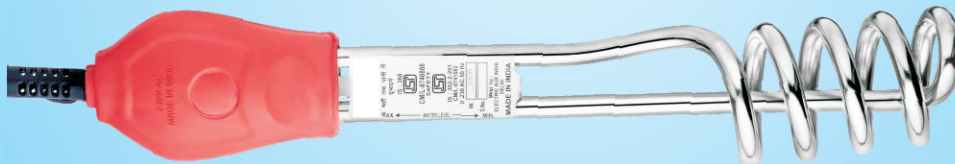

- Heavy copper heating element with nickel coating for good corrosion resistance
- Spiral design heating element for uniform heating
- ISI CertiÀed product for safety and quality
- Shockproof immersion rod for 100% safety during operation

NON-WATER PROOF

Watts 1000/1500/2000

- Heavy copper heating element with nickel coating for good corrosion resistance
- Spiral design heating element for uniform heating
- ISI CertiÀed product for safety and quality

KATTLE

Watts 1350

- Indicator light
- On/off switch
- 1.8 L capacity
- 304 grade SS body
- Easy to clean, washable Àter
- Auto cut off & dry boil protection
