

Benefits of Cow Cubicles:-

- Appropriately designed & managed cubicles lead to proper occupancy.
- Dry & clean cubicle bed reduces the risk of udder disease & lameness as well as physical damage to cows.
- Improved initial standing position prior to lying down.
- Reduced pressure on back legs due to correct preliminary position (NO Perching).
- Lying in correct position with larger "lunge zone".
- Independent of weather for cows & farmers, easy to install (Quick & easy to fit), wide range of fitting & accessories available.
- Safe & Hygienic with low maintenance.
- It provides Cow's extra comfort while housed which encourages cows to spend more time lying on the cubicle bed which will in turn get the cow to produce more milk & profitability.
- Compatible with all our mattress products.
- Maximizes cows' herd health & productivity.
- Customized & adjustable height & width.
