About Us

Trans Ergonomics has combined expertise with technology and creativity to bring forth a wide range of appealing chairs. Our company is a major manufacturer and supplier of a comfortable, durable, and appealing range of chairs, such as the cafeteria chair, office revolving chair, visitor chair, bar chair, bar stool, stainless steel waiting room chair, etc. Established in 2023, we have been catering to the demands of our clients with the best solutions. With a modern production base and a team of skilled professionals, we have been exceeding the expectations of customers. Our Manufacturing Unit We own a modern manufacturing unit with advanced machines and tools to create valuable products in different designs and styles.

Our production base has high-tech facilities to design quality-tested products with customised specifications according to customer needs. The unit is located over a huge area with different divisions to ensure the development of the best-quality chairs in bulk quantities. Quality Assurance Quality is the forte of the company. We have been offering high-quality cafeteria chairs, office revolving chairs, visitor chairs, bar chairs, bar stool, stainless steel waiting room chairs, etc. to our clients after conducting strict quality tests on them. We test the entire product line for durability, coating, design, strength, sturdiness, and other factors before offering it to clients.
