Global 3D Labs is among the cream of 3D Printer manufacturing companies in India. Global 3D Labs aims at bridging the gap between ideation and manufacturing by providing high quality and cost effective 3D printers through cutting edge research and innovation. G3D Labs specializes in manufacturing 3D printers and rapid prototyping with some of the clients being IIT Ranpur, III-Indoe, BARC, Indian saliways, National Chemical Laboratory.

### PRAMAAN 200

Pramaan 200 is a highly professional, reliable and intelligent 3D Printer. It is a single nozzle printer with a build volume of 200 mm x 200 mm x 200 mm and is ideal for makers and people starting with 3D Printing. The printer comes with a Touch Screen display to support stand alone printing.

### Technical Specifications
