## **POLYPROPYLENE CUTTING BOARD**

## POLYPROPYLENE CUTTING BOARD

We are the manufacturer and supplier of Cutting Boards for many decades. Our cutting boards have been developed with long experience, R & D work with a unique know how of both the cutting technique as well as plastics manufacture and processing, we have now been able to offer these boards which suits across the full spectrum of cutting of soft materials for different applications.

In the material selection and manufacturing processes, the cutting boards have been designed with an objective of giving best cutting result, maximum accuracy and long service life of the cutting board and the tool. The surfaces of Cutting boards are smooth on both sides and planed as standard, and are available in all dimensions commonly encountered in the market.

### Uses:

- Swing Arm Cutting Machine
- Travelling Head Cutting Machine
- Leather Fiber Material
- Gaskets Foam Plastics
- Uphostery Material
- Foils Bridge Cutting Machines
- Roller and Bridge Type Cutting Installations
- Insole Material Rubber
- Textile, Felt
- Paper Cardboard Cartoon
- Thermoplastic Materials

### Cutting Materials :

Leather Fiber Material, Paper Cardboard Article (Cutting of Shoe Uppers Especially Suitable for Safety Footwear and Hand Cutting, also Suitable for Textile and Components Industries.
