

Biniek
GERBERA

The logo for Biniek Gerbera features a stylized red flower icon with many petals to the left of the brand name "Biniek" in a black, cursive script, with the word "GERBERA" in a smaller, black, sans-serif font below it.

Kimya Biotech Pvt. Ltd.,

AN ISO 9001-2008
CERTIFIED COMPANY

From last 24 years the indian floriculture world is knowing our skills in propagation of quality plants and the success, which we have achieved in this span.

Our master expertise, the state of art tissue culture lab and the dedication to floriculture has made us the growers first choice over india.

We offer, the best performing varieties, intime delivery and best after sales service at all times.

The best performing varieties directly from breeder.

From the Desk of Damian Biniek

Yet again, we hand in to Your hands the newest catalogue of our firm the most perfect evidence of our long-standing hard work and achievements. Undoubtedly, the process of plant breeding is extreemly laborious and it requires the enormous amount of commitment. Therefore, in order to satisfy Your requirements, our firm tries to be extremely demanding of itself. By means of our consistent adherence to the adopted guidelines, our firm strives after the improvement of the quality of our products. We hope that in this years catlogue, you may be able to find such varieties that will come up to Your ex-pectations and will comply with Your criteria. May our products have a high yield and bring You a lot of satisfaction !

We have great pleasure to announce that Kimya Biotech is our partner for India. Kimya is providing Biniek's latest Gerbera varieties newly introduced and best performing varieties in India, with prompt delivery and best after sales service. Thanks to this co-operation Biniek is breeding varieties especially for Indian market, which fulfill Indian Market needs.

Our work – our passion!

Kimya makes every effort to ensure the accuracy of the data presented. However, all data is based on our in-house tests. colour, size, length and production numbers may very due to different growing conditions. Kimya cannot be held liable for any deviations in these figures
