Beyond Heights

YOUR PERFECT SHUTTERING & SCAFFOLDING PARTNER

CHAIRMAN'S MESSAGE

Dear Friends,

With a team of seasoned and qualified business professionals working in all of our business units, Winntus has become capable of meeting scaffolding and shuttering demands of our prestigious clients flawlessly. It makes us tremendous pride, pleasure and privilege to reflect and share our achievements of the past, activities of the present and ambitious vision of the future.

Our Organizational philosophy has always been driven by adopting best practices, commitment, dedication, sincerity and **premier ethical standards**

All Our Strategic moves, structures and systems are focused on attaining consistent customer satisfaction by delivering products, solutions and services that boast of quality and are yet very cost-effective. In our quest to be the regional and national performer of scaffolding and shuttering world, we have constantly improved ourselves as per the changing trends and market demands. Our achievements, accomplishment and successes of high proportions are attributable firstly to **GOD** the Almighty and then to our valuable assets - **Our Team**, whose persistent hard work, unwavering commitment, valuable contribution, tremendous faith, confidence and trust have all been instrumental for taking the entire Group to its present status.

At this moment, I would like to thank all our stakeholders for placing their faith in the organization and to assure them that their faith will never be tarnished. We will continue to innovate, ideate and expand our product and service portfolio to a higher level by creating solutions that are not only designed to meet customer specifications but are also much safer and efficient than ever before.

I wish you all the success in the world and hope that our current or future association would be rewarding.

With Best Wishes,

D.P. Goel

Chairman

Wintus

ABOUT US

Winntus is a committed and trusted brands of scaffolding industry manufacturer, exporter, contractor and repair of the quality-assured range of products in compliance with the international standards. Winntus Scaffolding also grants the products for rental purposes. The rental facility is for those clients whose projects are time based and needs it to be done at the earliest. The focus is not to manufacture the products but also deliver the best service to the clients that builds long-term relationships.

With a team dedicated towards its objectives, Winntus Scaffolding believes in the adoption of latest technology machines and equipment. The extensive range of products is widely appreciated by the clients for its sturdy standards, dimensional precision, weathering resistance, excellent wear strength and perfect design and finishA.

Our R&D unit helps us to improve our methods of production and fix the lapses in the product and services. We also ensure timely delivery of the ordered products via our worldwide distribution channels. Our package quality is valued by our clients all across Australia/NZ, Indian Subscotints, South/West Africa and the Middle East.

Shiv Shakti Scaffolding is SBU (Strategic Business Unit) of Winntus which is consistent in delivering the classified products and supply since 1999.

The methodology is setting an example for the world in technology driven products, reliable services, maintenance and high ethical standards.

The goal is to create customer satisfaction by delivering the qualitative products, solutions to all their ambiguities, and cost effectiveness. The achievements and success are gained by unwavering commitment, valuable contribution, con dence and team spirit.

VISION

To become a prominent diversified business group by working closely with our clients to understand their need with an aim to provide practical services, products and solutions that are qualitative, valuable and cost effective through talented individuals, enabled by modern technology.

MISSION

CORE VALUES

Our People

Our people make us what we are. We will strive to continuously provide our people with an environment that is professional. where they could grow personally, along with the institution.

Diversity

We represent unit in diversity. A coming together of people from different background and cultures, with a single minded purpose, of adding value to the institution that we represent.

Dignity

We believe that it is in treating each other and our customers with dignity. i.e with trust and respect, that we as an institution, in turn would be treated with dignity.

Openness And Transparency

We are open and transparent in our dealings with treatment of our employee and customers. we believe that long term relationship are built and nurtured, in being open and transparent in our actions and dealings.

Informal

We are informal, yet disciplined. We do not let formality come in the way of listening to and in the treatment of issue concerning our employees or our customers, at any time. However we are disciplined in that we do things on the basis of a logic or philosophy and not in an adhoc manner.

Integrity

In all our actions as a Group and as individuals representing this Group, we would be governed by integrity. Integrity both financially and professionally. Truth and honesty would guide each and every action or our between ourselves, our customers and all our employees.

Excellence A Way Of Life

We Welcome challenges. In fact we are defined by our determination and ability to take on challengeable tasks and deliver excellent result, always

Commitment

We would commitment in whatever we do - to the institution that we represent , our customer and our employees

Entrepreneurship

Each and every one of us takes ownership of what we do and ensure our commitment to the institution by leaving behind something better than what was handed over to us.

One Family

In all that we do, we would act as " One Family" with teamwork and loyalty to the institution, defining and differentiating us in ihe market place.

SERVICES

Winntus Scaffolding serves in all six corners of a hexagon i.e. manufacturing, export, repair & reconditioning, contractor, exchange and rental. Our quality of work and services have let us win the heart of our customers and have helped us establish worldwide. Whether you need an engineered scaffold solution complete with assembly and dismantle, or just want rental or buy equipment- Winntus Scaffolding is the one stop solution point.

Rental

The rental facility is for those customers who requires the shuttering and scaffolding material for the time being. All the products, equipment, and accessories are also available for rental purposes. We are leading scaffolding rental company in the country. We are currently working with more than 400 sites across India. The rental facility has helped us gain the recognition and around 20,000 tons of material is on rental period. The idea behind the rental facility is to accelerate the infrastructure.

Manufacturing

Winntus scaffolding is the manufacturer of steel shuttering and scaffolding. With enormous warehouse and inventory, we promise to deliver any scaffolding and Shuttering solution at your doorstep. We offer scaffolding for all types of structures, i.e. industrial, revamp, special event and much more. Our team of experts can design and erect the structure as per the requirements and plans of the customers and also dismantle it when the project is accomplished.

Scaffolding Repair and Recondition

Winntus also provides scaffolding for repair and recondition. Available for both small and large scale scaffolding repair and recondition demand. Our plant is equipped with a drive built scaffolding reparation center, capable of handling requirements of all proportions and restorations. All the repair and recondition center go side by side with the manufacturing unit so that the requirements could be meet accordingly. We have the expertise, information, and capability to refurbish your scaffolding equipment back to working conditions. There are 4 steps to repair and recondition i.e.

- » Blast Cleaning
- » Inspection
- » Repair and reconditioning
- » Paint and finishing

Scaffolding Exchange

Under this service, Winntus take your non-workable, scrap and provide you with the new and customized scaffolding and shuttering material. With the help of exchange service, Winntus promise to deliver the best in segment application and service which are exclusive for our customers. With changing technology, we bring you the latest scaffolding products in exchange.

The motive behind the exchange service is to decrease the loss that occur on a national scale.

Exporter

Winntus Scaffolding exports steel shuttering, scaffolding and accessories. All the exports are done as per the requirement of the projects. Manufacturing gives us first hand in the export process. All the shuttering and scaffolding products could be transferred to other countries without any hassle. Time-management is very important when it comes to exporting goods and services to neighbor countries. For within the country, the shipment process is carried out. The products are shipped from one part of the country to the other with the fastest means of logistics. We make sure that the whole export and shipment process carried out on time.

Contractorship

Winntus is known as best service provider in scaffolding and shuttering industry. To make our services more better we introduced highly skilled employees to guide our clients regarding shuttering and scaffolding structure making

" HIGH SUPREME
QUALITY AND CERTIFIED
PRODUCTS"

WHY RENTAL PREFERRED OVER PURCHASE

- Avoid huge investments. It is better to run more projects than to invest in shuttering and scaffolding purchase
- Avoid unnecessary storage cost.
- Avoid theft and mismanagement.
- Avoid maintenance charges, manpower cost and other resources cost.
- By Choosing rental services you are making new investment business partner for your running and ongoing projects.

SCAFFOLDING PRODUCTS

The material that is required to erect and dismantle the structure is called the scaffolding. Winntus offers various scaffolding products to its customer. They are:

Scaffolding are Available in Three Categories:

- » Galvanized Scaffolding
- » Powder coated scaffolding
- » Dip Paint Scaffolding

Cuplock Verticals / Standards

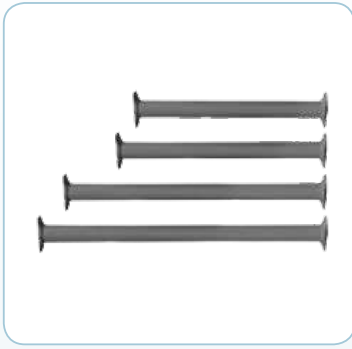

We make definite to compromise of an extensive range of supreme quality cuplock verticals/ standards to the customers. These principal load bearing members have seats top and bottom cups.

Bottom cups are welded at 500/1000mm distance position. Besides, top cups can be moved and retained by a fix. Verticals are made of 40 NB medium/ heavy class pipes and drilled to fix spigot joints.

Feature:- » Galvanized Scaffolding » Powder coated scaffolding
» Dip Paint Scaffolding

Sizes of cuplock verticals / standards

Sizes in mm	No. of cups @ 500/1000 mm	Weight in Kg
3000	6/3	13.00*
2500	5/3	11.00*
2000	4/2	8.90*
1500	3/2	6.50*
1000	2/1	4.50*
500	1/1	2.35*

Cuplock Ledgers / Horizontals

Winntus scaffolding manufactures cuplock ledgers/ Horizontals using 40 NB light or medium range pipe with forged ledger blades that are soldered at the ends. Length of the ledgers or horizontal is measured between center to center of two verticals. Moreover, we provide the alternative of choosing between standard as well as customized cuplock ledger / horizontals.

Feature:- » Simple Robust Design » Low Maintenance » Durable standards

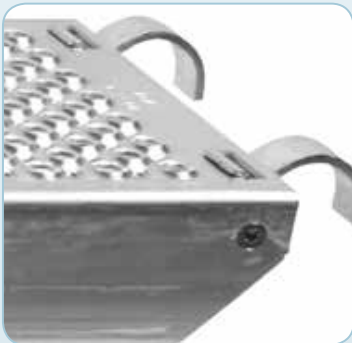

Sizes in mm	Lenght in mm	Weight in Kg
1800 C/c	1752	6.00*
1500 C/c	1452	5.00*
1200 C/c	1152	4.00*
1000 C/c	952	3.50*

Toe Board

A toe board is one of the most elementary part of protection gear. Our toe board can work even in scorching heat, jittering cold, rain, and any other weather condition. They are always available in our warehouse for use.

Length in mm	Weight in kg
1000	6.3
1200	8
1500	11.5

Walkway Planks

High tensile scaffolding pipes are designed for pipes & coupler scaffolding. The pipes have hot dipped galvanized surfaces finish so as to provide excellent appearance with sufficient durability in such applications where salty air or long term weather exposures are inevitable. We offer our products in various specifications as per our customers requirements.

Length in mm	Weight in kg
1000	7.5
1200	8.5
1500	11

Scaffolding Ladder

Being a quality-focused organization, we offer a selected range of scaffolding ladder. These products are available with us in different dimensions, weighing scale and specifications. need.

Column Formwork

The column formwork allows speedy assembly and assembly on site while reducing labor and crane time. The forms, made of steel or aluminum sometimes with a wooden form-face liner, can be accustomed on site to give diverse column sizes. Metal formwork systems can have primary concreting platforms with guard rails and access equipment comprising ladders. This diminishes the need for autonomous access. In some systems the props used to stabilize the column formwork are essential. The metal forms are easy to clean and reprocess with little surplus generated compared with old-style formwork.

Base Jack

Base Jack offered can be made available by us in different outer diameter pipe options as well as size choices of 34 *650 MM and others as per the specific demands of the customers these jack can be provided with different loading capacities of 5 to 6 tons as well as in versatile, heavy duty steel construction. some of its features includes modular scaffold system, allowing for reliable usage as well as easy construction and dismantling possibilities.

U - Head Jack

U - Heads are designed to be used in conjunction with adjustable system scaffolding. The main function of a U -Head is to hold timber beams in securely in place.

The U - Heads Jack offered by us are of superior quality standard, these are adjustable and thus is the biggest advantage of these.
