About Us

We, **Jara Impex**, know the importance of consuming hygiene and quality food in living a disease-free life. Witnessing the growing adulteration in the food industry, we decided to enter in this domain with the mission to deliver safe to consume products. Our offerings namely **Honey, Red Onion, Khakhra, Banana Chips**, etc. are quality tested before delivery. In a short frame of our foundation, we have emerged as a trustworthy manufacturer and supplier of various edible items. The ingredients that we use in preparing our snacks are high in quality that not only results in the delicious but healthy end product as well.

We are able to meet the bulk orders of our customers and deliver the same within the stipulated time at their doorstep. The consignments are tracked and the customer is updated about the location of their order until they reach the destination. Furthermore, no delay is done in delivering the quantity of orders as we understand that it can affect the business of our customer adversely.

As we are dealing in edible things, we are more concerned about hygiene and to maintain the same, we take effective steps. Not only the premises is kept clean but is made mandatory for workers to sanitize their hands, put on gloves, face mask, aprons and shoe covers, etc., before entering the wing. The production machines are also cleaned regularly so that dust may not get accumulated on its surface, thereby affecting the quality of our Banana Chips, Khakhra, Honey and other products.

The products are packed in an airtight manner so that any unwanted factor including moisture, air, dust, etc. may not affect the quality of our offering. We have special machines to seal the packaging material tightly, thereby, eliminating the chances of reducing the shelf life of consumables.

Key Facts

Nature of Business: Manufacturer, Supplier & Exporter

No. of Employees: 02

Year of Establishment: 2020
