

A Diverse Line of Blasting Machines

Range of Spare Parts for Airless /Wheel Operated Machines

ADL Blastek Industries

(A Diverse Line of Blasting Machines)

- Shot Blasting Machines
- Shot Peening Machines
- Blast Room Systems
- Paint Spray Booths
- Baking Ovens
- Industrial Dust Collectors
- Abrasive Media

Range of Spare Parts for Airless / Wheel Operated Machines

- **Bare Blast Wheels of Size--(12 ½" / 15 ½" / 19 ½")**
- **Hardened to Guarantee the Sturdiness of the Wheel**

- **Blades- Set of 8 No's**
(Available for Wheel Size – 12 ½" / 15 ½" / 19 ½")
- **Material- Hi Chrome & Hi Molly Alloy Composition**

- **Control Cage**
(Available for Wheel Size – 12 ½" / 15 ½" / 19 ½")
- **Material- Hi Chrome & Hi Molly Alloy Composition**

- **Impeller**
(Available for Wheel Size – 12 ½" / 15 ½" / 19 ½")
- **Material- Hi Chrome & Hi Molly Alloy Composition**

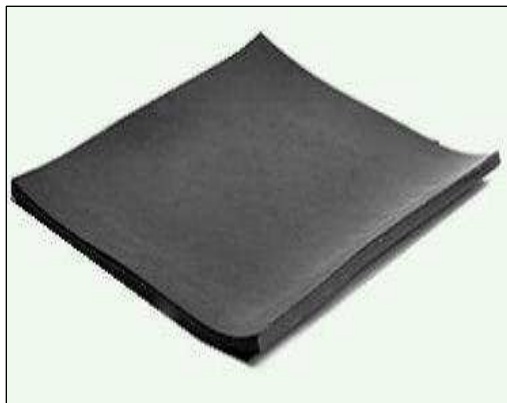

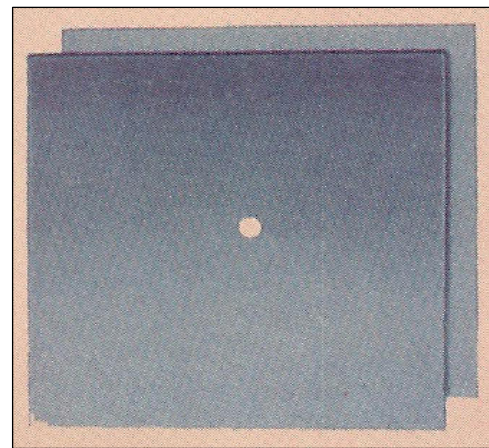

- **Centering Plate**
(Available for Wheel Size – 12 ½" / 15 ½" / 19 ½")

- **Feed Spout with Ring**
(Available for Wheel Size – 12 ½” / 15 ½” / 19 ½”)
- **Shell Casted for better rigidity.**

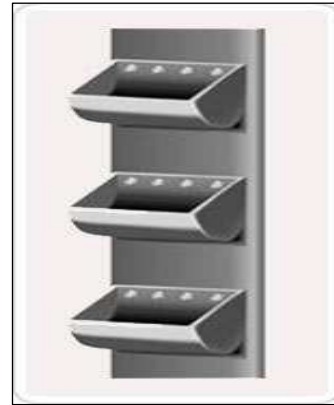

- **Mn. Steel Side Liners for Blast Wheels**
(Available for Wheel Size – 12 ½” / 15 ½” / 19 ½”)
- **Material- Mn. Steel Grade-III, having vital property of work hardening.**

- **Mn. Steel Overlapping Tiles for inner protection of blast cabinet**
- **Material- Mn. Steel Grade-III, having vital property of work hardening i.e. the surface actually gets harder with use, making is ideal for the cabinet protection against abrasion. Mn. Liners consists of 11 to 14% of Manganese.**

- **Special Rubber Sheet.**
- **Shore Hardness 45-55°**
- **Has a special property to retard abrasion on account of ricocheting/ rebounding of abrasive and protects the main cabinet from abrasion for longer period.**

- The buckets are of seamless type made of 3.15 mm thick steel sheet (or as per the machine)
- Elevator Belt will be of 4/5 Ply Rubber Belt

- High Quality Fabric Bag Type Filters for Mechanical Shaking Type Dust Collector.
- Filter Efficiency upto 10 micron (for Standard Filter Bags).

- High Quality Spun Bounded Pleated Filter Cartridges for Automatic Pulse Jet Type Dust Collector.
- Filter Efficiency upto 5 micron (for Standard Filter cartridges).

- Screw Conveyor
- Bottom/Lower Screw Conveyors
- Upper Screw Conveyors

(NOTE**- We have all types of Spares parts, for every type of Shot Blasting/Peening Machines. Above shown are only some of the spares used in Shot Blasting Machine)
