

## RESEARCH POLARIMETER (LI-RPOL-184)

### APPLICATION :

Polarimeter is used routinely in quality and process control in the pharmaceutical industry, flavor, fragrance and essential oil industries, food industries, and chemical industries .

### SPECIFICATIONS :

<b>Model : LI-RPOL-184</b>	
Range of Measurement	+130° to -30°
Vernier Accuracy	0.1° (I.S.S.)
Telescopic Magnification	4.5 X
Analyser	Glans Thompson Prisms
Polariser and Half shade	Prism system
Polarising Aperture	6 mm
Light Source	Sodium Lamp for 35 Watts
Observation Tube	Upto 220mm length
Power	230V AC, 50Hz
