ABOUT US

We TREND, one of the Renowned brands for manufacturing and supply of water slides and water park equipment. TREND was established in the year 2018, the journey was started with the thought of having delighted customer base, since the establishment TREND had adopted all latest technologies like LRTM / CNC and having wide range of product base, we are being continuously working and improving on Material, Man, and processes now we have achieved best in class quality of product. Over the period we have built a sound team, adequate infrastructure and facilities which is well supported by technical support and adoption of latest technologies, which is enabling us to deliver the products on time.

During our journey we have realised that so many people are selling only product at good price and quality too, but the customers are struggling to execute the project and we felt that it is not about only equipment that customer need, they need support in all aspects like planning, designing, selection of land, selection of equipment etc. Hence we have changed our strategy and now we are not only selling products we are holding customers hands from beginning of the project which is continued as long as they need our support. With this we have established various methods to educate customers or to guide them. We are now a well known brand who becomes partner in the project not supplier.

VISION

To be first choice for customers and to be followed by the industry for our good practises, our ethical and transparent approach.

Quality policy

The company's vision statement encapsulates the corporate philosophy QC=SC....

Quality Control=Satisfied Customer

At every stage of production, right from the purchase of raw material to packaging, the product is subjected to rigorous and stringent testing before it receives the Trend stamp of quality approval.

State-of-the-art production units that are backed by sophisticated machines and the latest technology ensure quality along with our team of dedicated quality supervisors ho have an in-depth knowledge of industry verticals. Our Quality Management System encompasses every organizational, technical, and management activity to assuring the highest level of quality.

It is our goal to ensure that our products and services meet the quality expectation of our customers. Our products are manufactured under the supervision of skilled personnel who are experts in their domain. Our Quality Control Department always tests the incoming raw materials and outgoing finished products for their quality and only after they meet the required criterion, they are sent into the market.

We have a dedicated team of professionals, who possess a wide knowledge of the industry verticals. Besides, we continually strive to enhance and optimize the work process by integrating the latest technology. Hence, we are able to simplify and accelerate the whole process of providing services and adding value where it matters.

Our Research and Development department is regularly coming out with high-quality products to meet the demands of our clients/ customers. In summary, our company has a well-qualified technical team, which is highly experienced and has a thorough knowledge of the field of design, production, and quality control.

SPLASH ZONE

**“Tiny Feet, Play Delight,
Big Smiles & Where Every
Splash Tells a tale a Joy”**

Being driven by mission of Guiding customers it is observed
While designing Waterpark with them that kids are overlooked
While selecting park equipments, Here We Realised that kids are the
One who brings parents and others to Water park and we are not
Considering them, hence we have decided to design and Promote
Splash Pad, which play a crucial role in enhancing the overall
Experience. Splash-pad is safe for kids and very Interactive, having
Various features to both, the Facility and its Visitors. Highlights
Of importance as below.

1. Inclusive Entertainment:
2. Engaging for Younger Guests:
3. Safe Water Play:
4. Attracting Families:
5. Low Maintenance and Operating Costs:
6. Water Conservation:
7. Versatility in Design:
8. Promoting Physical Activity:
9. Seasonal Appeal:
