ABOUT US

We “TREND” Established in the year 2018, within a span of 6 years we are now Renowned brand for manufacturing and supply of water slides and water park equipment's. The journey of “TREND” was started with the thought of creating delighted customer base by doing continual improvement and by being system driven. Now as a next milestone “TREND” is developing and promoting new products and concepts like splash pad. We have adopted latest technology and we follow standard operating procedures to ensure top Notch Quality products, with the use of computerized machines (CNC) and high skilled workers and employees. We claim to deliver best of quality in the industry.

We had started manufacturing in 4500 Sq. Ft. of area and expanded to 100000 Sq. Ft. of area in 5 years. With Tremendous passion, dedication and hard work we are been able to reach all over India. Quick response, guidance to customer and speedy execution are the key factors of our success. We are an ISO 9001-2015 certified company and registered with IAAPI.

VISION

To be first choice for customers and to be followed by the industry for our good practises, our ethical and transparent approach.

QUALITY POLICY

The company's vision statement encapsulates the corporate philosophy QC=SC....
Quality Control=Satisfied Customer.

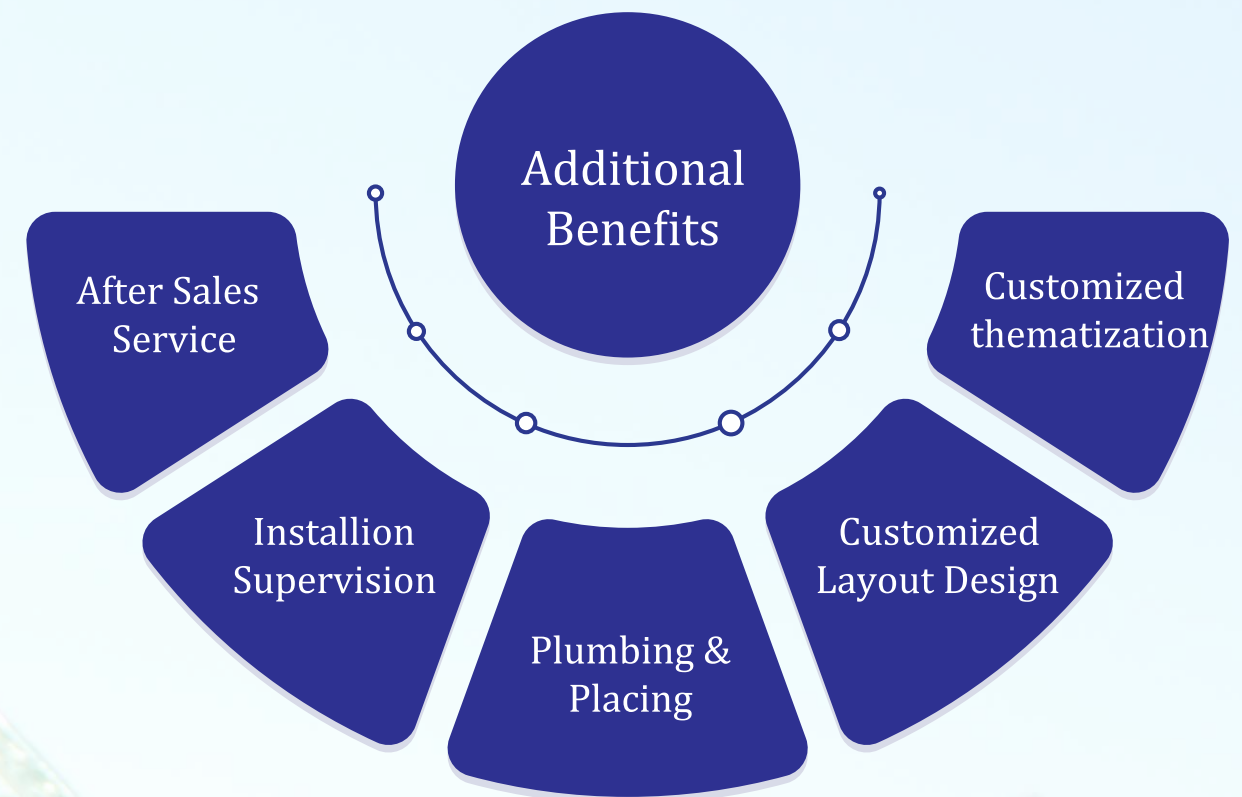

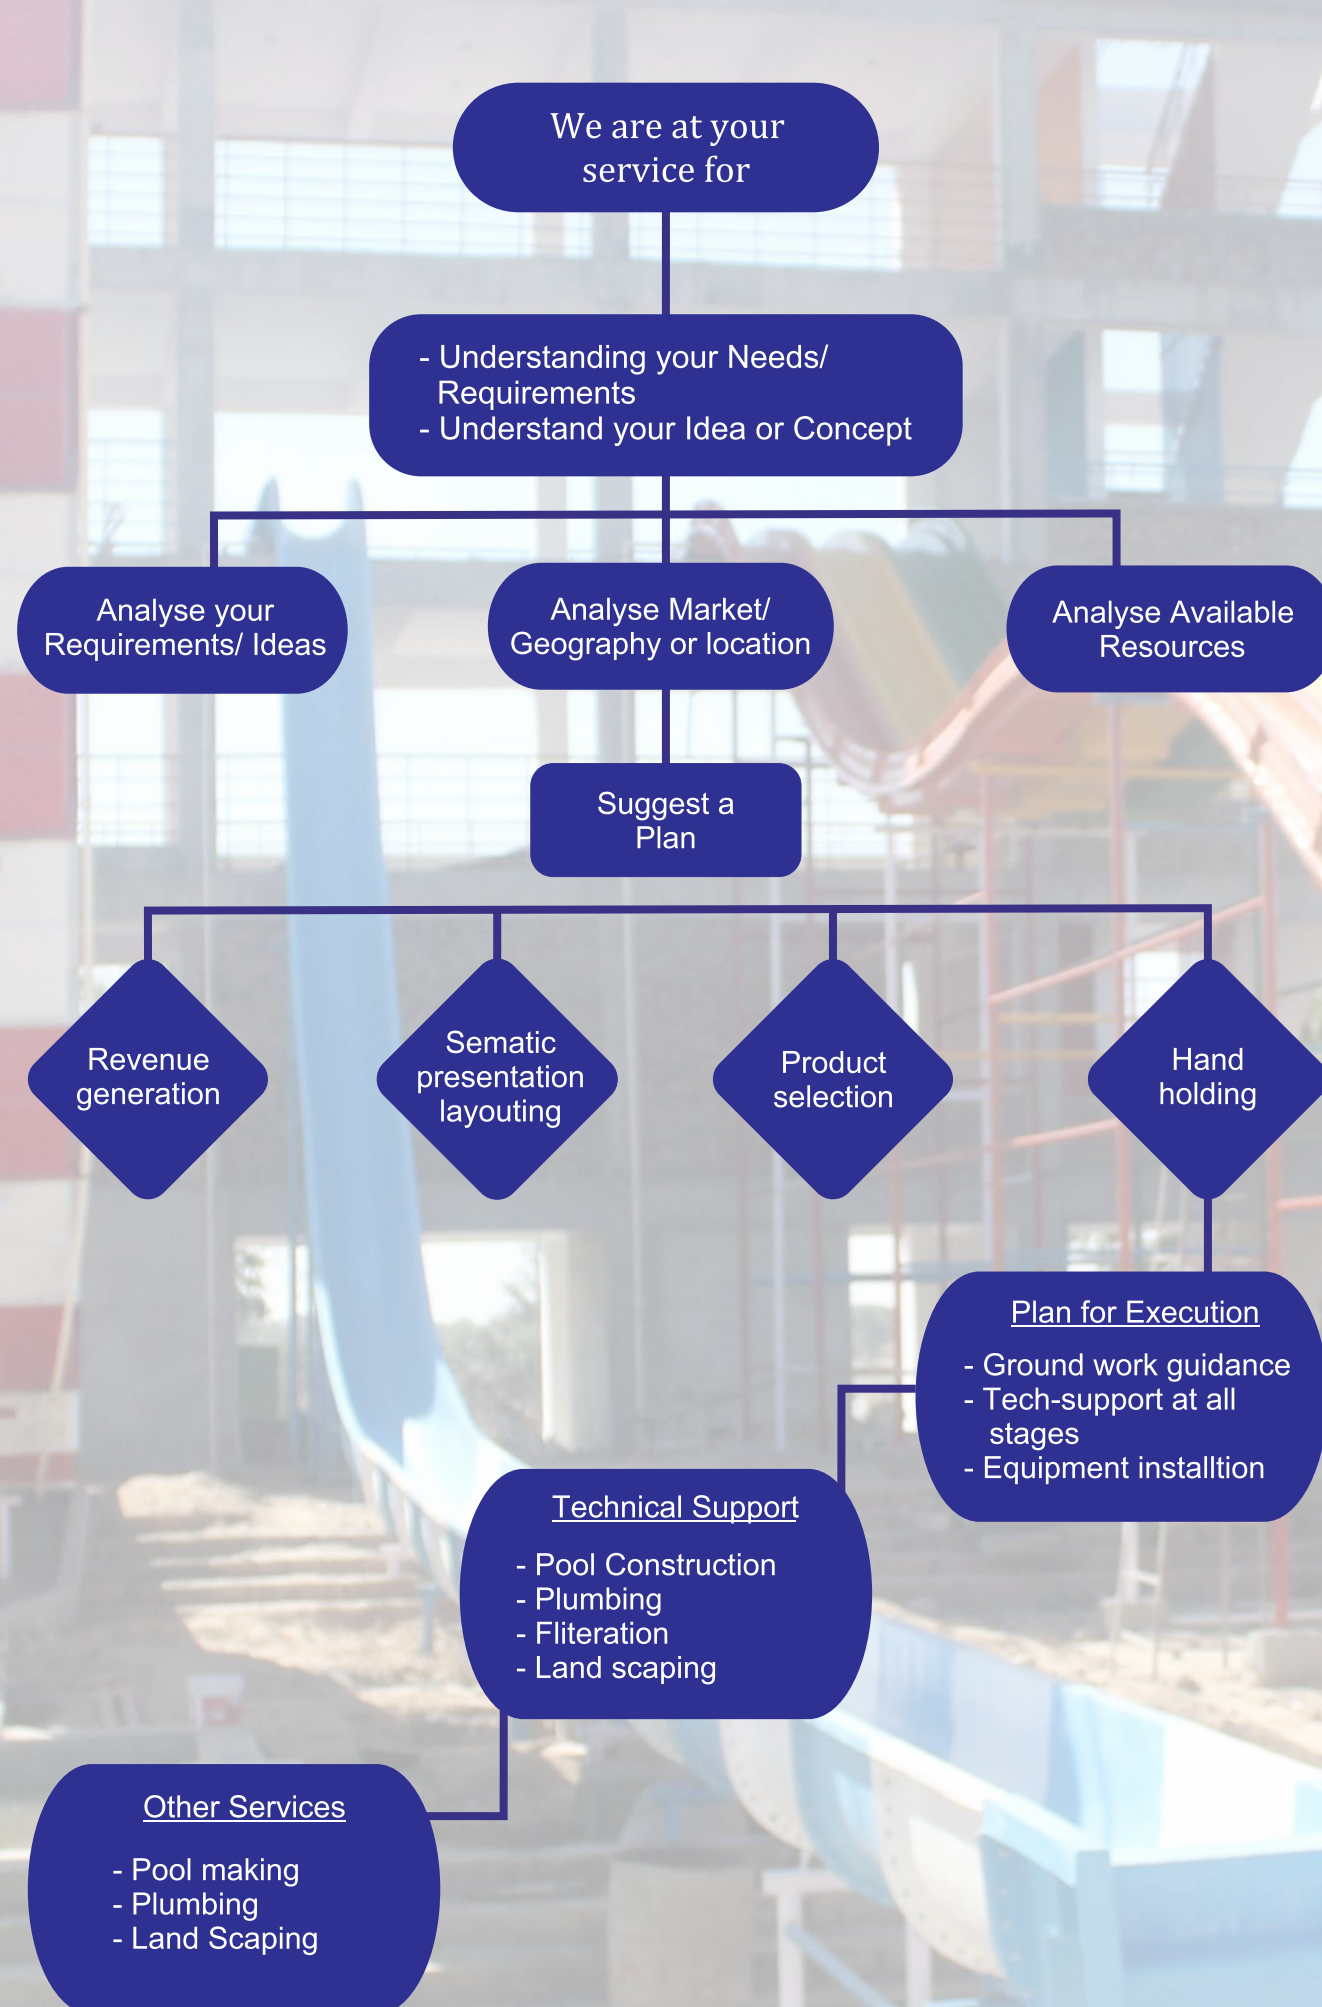

At every stage of production, right from the purchase of raw material to packaging, the product is subjected to rigorous and stringent testing before it receives the Trend stamp of quality approval. State-of-the-art production units that are backed by sophisticated machines and the latest technology ensure quality along with our team of dedicated quality supervisors who have an in-depth knowledge of industry verticals. Our Quality Management System encompasses every organizational, technical, and management activity to assuring the highest level of quality. It is our goal to ensure that our products and services meet the quality expectation of our customers. Our products are manufactured under the supervision of skilled personnel who are experts in their domain. Our Quality Control Department always tests the incoming raw materials and outgoing finished products for their quality and only after they meet the required criterion, they are sent into the market.

We have a dedicated team of professionals, who possess a wide knowledge of the industry verticals. Besides, we continually strive to enhance and optimize the work process by integrating the latest technology. Hence, we are able to simplify and accelerate the whole process of providing services and adding value where it matters.

Our Research and Development department is regularly coming out with high-quality products to meet the demands of our clients/ customers. In summary, our company has a well-qualified technical team, which is highly experienced and has a thorough knowledge of the field of design, production, and quality control.
