About Company

- ❖ Since 2011
- ❖ One of the leading RCC Spun Pipe, & Vibrating Cast, Main Hole and Gully Gratings Manufacturer
- ❖ Situated at KHARKHODA, SONIPAT
- ❖ Area : 7 Acres Land
- ❖ ISI
- ❖ Mix Design {M-35}
- ❖ Well Equipped Laboratory
- ❖ Crane for proper Handling
- ❖ 3 Curing Tanks with Sprinkler
- ❖ Electronic Weighing Machine for Accurate Cages
- ❖ Sizes : 150 to 1800 MM I/D With Classes : NP2, NP3 & NP4
- ❖ Main Hole – Covers & frames, Heavy Duty (HD-20), Extra Heavy Duty (EHD-35)
- ❖ IS Codes : IS 458:2003 & IS 12592 :2002

❖ TIN : 06273017622

❖ PAN : ARBPD3112A

❖ SSI : 0608001935

❖ ISI : CM/L-9100010688 & CM/L- 9100017298

❖ TRADE MARK : OM PIPE

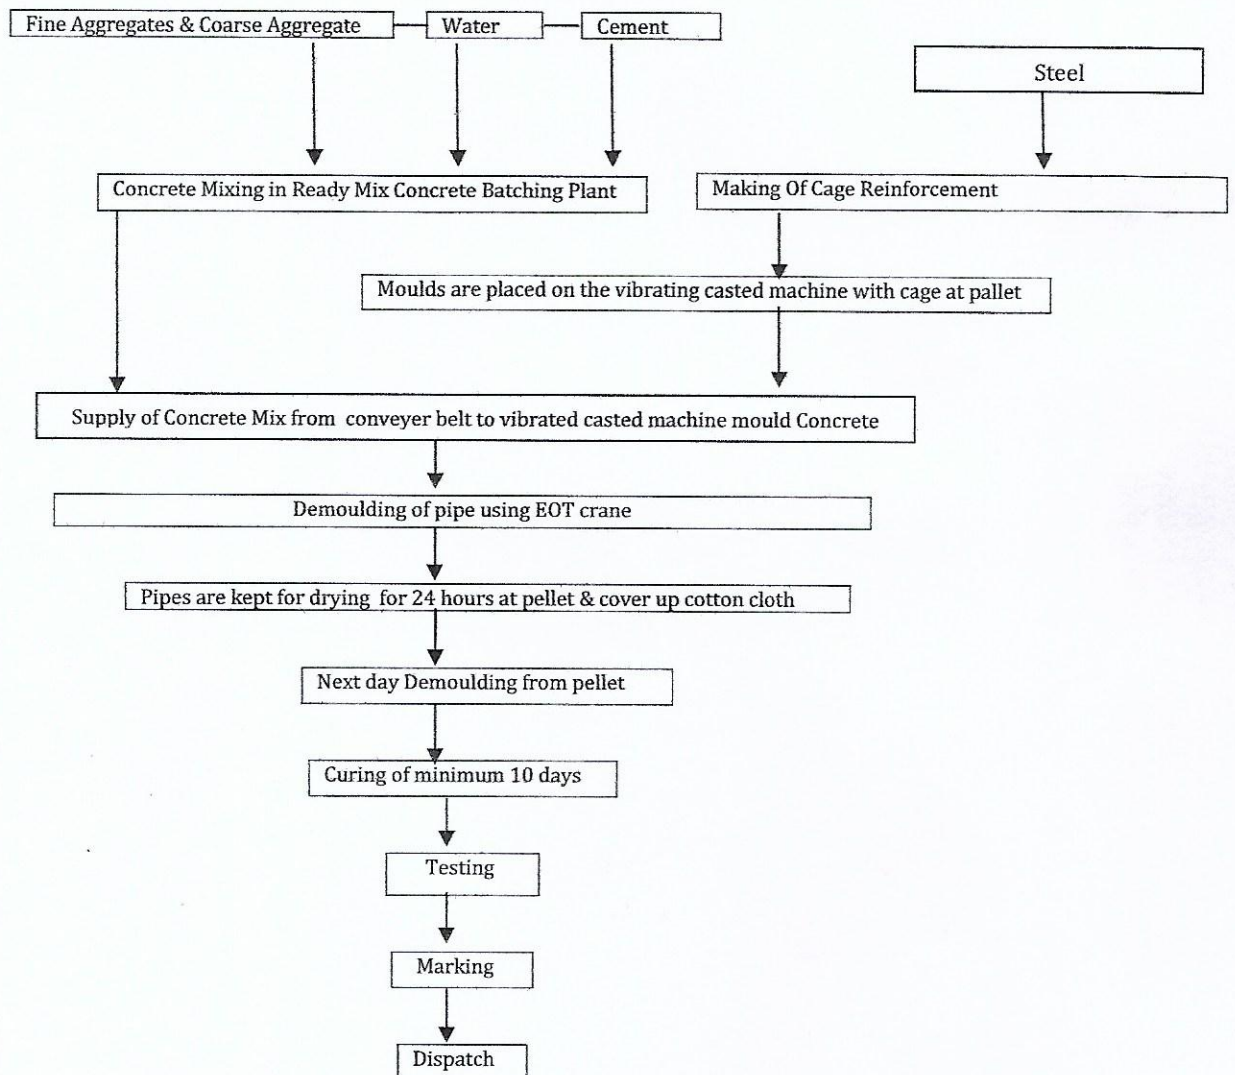

❖ GST NO.- : 06ARBPD3112A1ZX

VIBRATING CAST

PROCESS FLOW CHART

Manufacturing Process of Pipes

(R.M. = 6 to 20 MM Coarse Aggregate, Fine Aggregate, Stone Dust, Cement, Iron & Water)

- Step 1 Caging:** 1st of all reinforcement cages are fabricated on collapsible drum type cage machines. All cages are separately weighted on Electronic weigh. Supervisor makes it sure that all cages are as per IS: 458. All cages are tagged with weights and according to tag nos. there weights are written down on the black Board. Quality In charge randomly checks the weigh of some cages for accuracy. All cages weights are note down in Daily Production sheet with their tag nos. and are given a specific code no.
- Step 2 Molding:** All moulds are properly cleaned from Hand Grinder after opening. Proper supports are given for centering of cages. {If it is higher dia 2 cages are made as per IS: 458 and upper cage is always 75% of inner cage} Proper oiling is done on moulds as well as on bushes and rings. These are properly packed with tie rods and nut-bolts.
- Step 3 Mixture:** According to mix design and regular checking aggregates, water and Cement are used by weight. Instructions are written on boards for proper mixtures. Instructions are given to consume mixture within 30 minutes for its proper strength. IS 456 is followed for this.
- Step 4 Manufacturing:** After molding moulds are properly kept on runners with the help of Chain Pulleys. Initially while pouring the mixture RPM of machine is very slow for proper pouring and than RPM are up to 1500 as per the requirement of IS: 458. When the proper spinning is done it leaves extra water which gives the strength to the pipe. After it, finishing of pipes is done by cutting from rods and brushes.
- Step 5 Marking:** After manufacturing process, all pipes are marked and dated from permanent marker. Supervisor record all these marked numbers in front of tagged numbers and after wards these are stored in Computer by date and marked number wise with the weigh of cages.
- Step 6 Demoulding:** While remolding, with the help of Chain pulleys moulds are separated. Moulds are remolded after 24 hours for proper quality of pipes.
- Step 7 Curing:** After Demoulding with the help of Trolleys, Hydra and ceilings pipes are kept in curing tanks for proper curing. Rotation of pipes is done daily and 24 hours Sprinklers are on. After 28 days curing pipes are taken out from tanks and storage is done.

Test Plan

We have all the instrument and testing machines required for testing of pipes, Manhole Covers and Interlocking Blocks as per IS 3597:1998, IS 12592:2002 and IS 15658:2006. All these instruments and machines are calibrated and tested regularly.

For every Lot of all sizes of pipes, we are regularly having our Test Plans Like:

- ✓ Hydrostatic Test
- ✓ Three Edge Bearing Load Test
- ✓ Permeability Test
- ✓ Dimensions checking for every pipe

Our Products

- RCC Spun Pipes (IS 458:2003)
- SFRC Manhole Covers & Frames (IS: 12592 part I & II)
- Curb Stone
- Ferro Cover
- Other RCC Products (As Per Requirement)

Quality Control

Quality is main motto, for this purpose we have appointed an Engineer and a Technician.

- A. **Raw Materials** {IS Codes - IS 432: 1982, IS 383: 1970, IS 1489: 1991, IS 456, 3025}
- a. **Cement:**
 - i. Using Pallets for saving it from moisture
 - ii. Always keeping it in Packed Godown
 - iii. Using ISI Marked 43Grade OPC
 - b. **Iron:**
 - i. Stored in a Separate Godown to save it from rusting
 - ii. Stored as per their Sizes.
 - iii. Using ISI Marked
 - c. **Aggregates:**
 - i. Covering from Tirpals / Shades
 - ii. Separation walls for Proper Storage
 - iii. Internal Testing for Every Lot
- B. **Multi Level Checking System**
- a. **1st Level:** Raw Materials are first of checked at entrance gate by Watch man if it is physically OK than calls to Quality In charge.
 - b. **2nd Level:** Quality In charge takes the samples from trucks and takes it to Lab. In Lab all type of testing are done like – Sieve analysis, Contents of Moisture, Checking of Gauges, Hardness and Gradation etc. After the required testing/ analysis only those raw materials are accepted which are as per norms.
 - c. **3rd Level:** All type of raw materials is properly unloaded and storage of raw materials is done in a proper and systematically manner.
- C. **Others**
- a. **Cubes:** Every day making cubes and testing after 7 and 28 days
 - b. **Welding of Cages:** For Maintaining Span in Cages and Strength of Pipes
 - c. **Movement of Moulds & Pipes:** Using Trolleys to Minimize Damages & Cracks
 - d. **Mix design:** Mix design is done from Government approved Lab for M-35 strength
 - e. **Water Cement Ratio:** Always maintaining this Ratio by Measuring Water before use
 - f. **Generator:** Using Self Start Generator to Protect Strength of Pipes in case of Power Cut

Our Ref : CM/L-9100010688

Dated : 30 Sep
2015

Subject: Grant of BIS Certification Marks Licence No. CM/L-9100010688 as per IS 458 : 2003

OM PIPE INDUSTRIES,
Village Thana Khurd,
Kharkhoda
Distt : Sonipat
Haryana
131001

Dear Sir,

With reference to your application, we are pleased to inform you that it has been decided to grant you a licence to use the Standard Mark in respect of the following:

Product: **Precast Concrete Pipes (with Reinforcement)**
IS No : **IS 458 : 2003**

Type/Size/Grade/Variety covered under licence :
Spun Cast, S&S ended, Class NP3, 250 mm to 1200 mm.

2. The licence is being granted with the explicit condition that you will mark entire/substantial production which conforms to the Indian Standards referred above.

3. The number assigned to this licence is CM/L- 9100010688 which has been made operative from 30/09/2015 and is valid upto 29/09/2016. The licence number should invariably be referred to in your future correspondence.

4. According to sub-regulation (2) of Regulation 6 of Bureau of Indian Standards (Certification) Regulation, 1988, the licence fee of Rs 1000/- and the marking fee of Rs. 29000.00 as stipulated in the Second Schedule of this licence is payable by you with effect from 30/09/2015 for the period of validity of the licence.

Service tax @ 14 % as applicable shall also be charged.

5. Minimum marking fee stipulated therein is payable by you regardless of whether you actually mark your product or not with the Standard Mark. Our Receipt No. 9120744 dated 30/09/2015 for Rs. 34200.00 for the licence fee (Rs. 1000/-) and the minimum marking enclosed/sent separately.

6. This advance minimum marking fee will be carried over to the next year on every renewal. The actual marking fee calculated on the unit rate on the production marked or the minimum marking fee, whichever is higher shall be payable by you at the time of renewal.

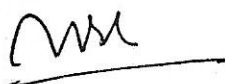

7. With a view to streamlining the reporting of quantity marked, calculation and collections of marking fee on the unit rate basis, fees will be calculated on the production marked during the first nine months of operation of the licence at the time of first renewal and the production marked during twelve months comprising the last three months of the previous operative year, at the time of second and subsequent renewals. In case the licence expires, the entire production marked till the expiry date shall be taken into account for calculating the marking fee payable.

8. The Scheme of Testing and Inspection DOC: STI/458/13:APR 2005 which has already been accepted by you vide your letter dated 14/08/2015 will have to be implemented by your organization strictly and control function in your organization. The supervision of the operation of the Scheme shall be done by a person responsible for the quality control function in your organization. Kindly inform us the name and designation of the person who will be held responsible for the operation and maintenance of the Scheme. Any future change in this respect will have to be communicated by you to us and whenever this takes place.

9. We are enclosing a sheet giving the preferred dimensions of the Standard Mark to enable you to prepare the designs of the Standard Mark for marking the above product. Photographic reduction in any size is permissible. This will ensure the relative proportions of the different dimensions are maintained. Preferred dimensions may be used as far as possible. Kindly get the designs of the stencil/label/rating plate incorporating the Standard Mark approved by us. You will be permitted to commence marking the above mentioned product only after approval by this office.

10. On commencement of marking of your product for which you are licensed, you may advertise your product with Standard Mark in hoardings, slides and newspapers only during the validity of your licence. The use of Standard Mark on letterheads and publicity literature will be permitted only on receipt of your assurance that in the event of cancellation or lapsing of your licence, the letterheads etc. with the Standard Mark will be destroyed/obliterated. The required assurance may please be submitted in the enclosed proforma.

11. You are requested to intimate us the actual date from which you intend to introduce the use of Standard Mark on your product. Our Inspecting Officer may be present in your factory at that time to assist you in adopting the Scheme of Testing and Inspection (STI) and in the maintenance of test records.

12. The Licence is being granted for you factory situated at : Village Thana Khurd Kharkhoda Sonipat and the rights and privileges under the licence shall not be exercised by any other firm/company/factory,etc.This licence is not transferable.In the event of shifting of the manufacturing and testing equipment from the licenced premises to some other place ,use of Standard Mark shall be stopped till the new premises are inspected and found to be satisfactory by us in respect of manufacturing and testing facilities available there and address of the new premises is endorsed in the licence.

13. The license is granted to you on the condition that if the verification sample drawn by BIS Officer during verification visit fails to confirm to the requirements of ISS, license will be put under stop marking. In case the fresh sample drawn by BIS for independent testing fails, or you do not inform corrective action taken and do not offer improved samples within one month of the date of stop marking the license shall be processed for cancellation and no further chance would be given.

14. You are requested to intimate to this office the address of your servicing unit where applicable and the name and designation of the person, his telephone and telex number who should be contacted in case of complaints. It is obligatory on your part as a licensee to keep this office informed about changes taking place from time to time in your declared list of servicing units.

15. The licence is under preparation and will be posted to you in due course.

16. You are requested to send us back the enclosed proforma No. CMD/PF615 duly filled in.

17. An instruction sheet containing Responsibilities of BIS Licensees is also enclosed for information / compliance.

Kindly acknowledge receipt of this letter.

Thanking you,

U.K.Kher
