## **Technical Data Sheet (T.D.S)**

### **Mercuric Chloride**

Chemical Characteristics	Mercury in Chloride Form, HgCl <sub>2</sub>		
CAS No.	7487 – 94- 7		
E.U. Index	28-34-48/24/25-50/53		
Melting Point	277 °C		
Boiling Point	302 °C		
Appearance	White Crystalline Powder		
Toxicological Information	Highly Toxic. Avoid inhalation, eye contact, skin contact and ingestion		
Personal Protection	Must wear eye protection glasses, mask, gloves and boots while handling the material		
Fire Fighting Methods	Water spray. Carbon dioxide, dry chemical powder, or appropriate foam.		
Hazard Information	Emits toxic fumes under fire conditions		
Handling	Keep away from heat, sparks and open flame. Containers to be kept closed tightly. This product will oxidize slowly if exposed to air		
Packaging	HDPE Drums with double poly-lined bags inside. Custom packaging upon request. (terms & conditions applied)		
Storage	Store in a cool, dry, well-ventilated place and away from fire, sparks and incompatible substances. Keep tightly closed. Light sensitive. Moisture sensitive.		
Shelf Life	Mercuric Chloride is sensitive to moisture. Unsealing the container and leaving exposed to open air or storing in humid areas will reduce the shelf life.

Q.C. Laboratory

### **Physical/Chemical Properties**

Appearance Physical State: Solid

Property	At Temperature or Pressure	Value
Molecular Weight		271.5 AMU
BP/BP Range	302°C	760 mmHg
MP/MP Range	277°C	
Vapor Pressure	236°C	1.3 mmHg
SG/Density		5.44 g/cm3

#### STABILITY

Stable: Stable Conditions to Avoid: Light. Moisture Materials to Avoid: Strong oxidizing agents, Strong bases.

#### HAZARDOUS DECOMPOSITION PRODUCTS

Hazardous Decomposition Products: Mercury/mercury oxides.

#### HAZARDOUS POLYMERIZATION

Hazardous Polymerization: Will not occur

#### TOXICOLOGICAL INFORMATION

ROUTE OF EXPOSURE -Skin Contact: Causes burns. Skin Absorption: May be fatal if absorbed through skin Eye Contact: Causes burns. Inhalation: Material is extremely destructive to the tissue of the mucous membranes and upper respiratory tract. May be harmful if inhaled Ingestion: May be fatal if swallowed.

#### **REGULATORY INFORMATION**

EU DIRECTIVES CLASSIFICATION Symbol of Danger: T+-N Indication of Danger: Very toxic. Dangerous for the environment

## **Mercuric Chloride**

CAS No.: 7487 – 94- 7

Molecular Formula: HgCl2

### Grade: ACS

PARTICULARS	SPECIFICATION
Assay (as purity) after drying	99.5%
Appearance	White Crystalline Powder
I.C.P Assay	conforms to Mercury Compounds
Titration (Complexometry)	99.5% (73.76% as Hg)
Residue on Reduction	0.02%
Solubility (2gms/60mls Ether)	Clear Solution
Iron (as Fe)	0.002%

Note: All the afore-mentioned specifications are standard. Specifications can be tailor-made as per requirement.

### **Uses/Application**

- **Chemical reagent:** Mercuric chloride is sometimes used to form an amalgam metals like aluminum.
- Stabilizing agent
- Photography: Mercuric chloride as a photographic intensifier
- **Historic purposes in preservation:** Mercuric chloride, in preservation purposes, is used to preserve anthropological and biological specimens during the late 19<sup>th</sup> century to early 20<sup>th</sup>. Those specimens were dipped in or painted with the mercuric solution. The preservation with mercuric chloride was done to prevent the specimens' destruction that may be caused by moths, mites, and molds. The chemical is also used in wood preservation.
- Seed surface sterilizer
- Disinfectant
- Topical antiseptic
- Pesticides: Mercuric chloride can also be used as pesticides, specifically fungicides
- Catalyst in Vinyl Process

DISCLAIMER: For R&D and Industrial use only. Not for drug or household uses.

**WARRANTY**: All the technical information given in this document is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product. Pinkto Chemicals shall not be held liable for any damage resulting from handling or from contact with the above product.
