## About Us

In the business of animal trade and distribution, our company ranks top-most in India. We're the trusted partners to diverse dairy farming industries to whom we supply medically fit and healthy Dairy Cattle, Dairy Farm Cattle, Australian Cow, American Cow, Hf Cow, Jersey Cow, Murrah Buffalo and various other breeds. Everything needed to keep the cattle healthy and fit is done by us so that our customers receive nothing below the best. Feeds free from chemical impurities are provided by us to cattle which aids us in giving required nutrition to their body, thus, enhancing their milk production capacity. Medical check-ups of cattle is done by renowned veterinaries, who also make their diet charts, following which we provide food to cattle. As a trusted wholesaler/distributor and supplier, we pay special focus over maintaining cordial relationships with customers. Trade between two parties becomes easier and profitable when they share good relationship; this is something well-understood by us, hence, our company adopts several customer-focused approaches to keep customers happy for longer run. In addition, we also offer Livestock Consultancy Services where our professional experts provide their sound advice to address issues such as animal health, vaccination, ruminant nutrition etc.

Situated in Karnal (Haryana, India), our company, Dharamvir Dairy Farm, is known for trading and supplying finest Sahiwal Breed Cattle, Pregnant Heifer and various other breeds of cattle. Quality in work and transparency in deals are two attributes for which we are best known in the markets. Our company is good at keeping its word for proving singularly the best in terms of healthy cattle and this has been well-experienced by our existing customers who happens to be renowned dairy farming enterprises. We own spacious sheltering area where until transit, cattle of various breeds are kept in safe conditions. In addition to this, everything mandatory for the comfortable stay of cattle like water, food and grazing area and separate place for excretion is there within our sheltering place.
