PHARMACEUTICAL

MEDI POL PHARMACEUTICAL INDIA PVT. LTD.

## Who We Are

### Medipol Pharmaceutical India Pvt. Ltd.

is the **most rapidly growing pharmaceutical company** based at **Baddi, Himachal Pradesh, India** offering a wide range of ethical and generic formulations to lead a healthy life with dignity.

We at Medipol are committed to make the world a healthier place through the development, production, and marketing of excellent pharmaceutical products. We strive to achieve this objective by developing innovative products, which suit the needs of the patients globally and are superior in terms of quality, packaging, and stability.

## Timeline

**1992-**

Inception of Medipol Pharmaceutical India Pvt. Ltd. in Bahadurgarh, Haryana

**2001-**

Major expansion-addition of Tablet and hard Gelatin Capsule section

**1999-**

Takeover of the company by present management

**2006-**

- Shifting of manufacturing facility to Baddi
- Separate block for  $\beta$ -lactam and Non  $\beta$ -lactam
- Commissioning of Dry Injectable section
- Grant of GMP Certificate.

With focus on manufacturing and marketing a wide range of pharmaceutical formulations the foundation of Medipol was laid in 1992. We have speedily evolved since then and now also engage in distribution pan India. Medipol has also unrolled its wings in global market by commencing export.

To maintain and make quality our work culture we are equipped with latest sophisticated systems and machinery. This **ISO 9001: 2015** and **WHO-GMP** certified plant is compliant with **GLP** norms also.

#### 2011-

- Infrastructure expansion by 50000sq. ft. covered area making total area to 100000 sq ft.
- Grant of GLP Certificate

#### 2016-

Stepped in International Market through Export

#### 2017-

- Export to Afghanistan started.
- Registration process in various countries has started.

#### 2015-

- Grant of WHO-GMP Certificate
- Turnover crosses 125 crores

Quality, the foundation stone of Medipol is now a habit and pride of our workforce.

## What we do

### Production

Medipol Pharmaceuticals India Pvt. Ltd is the burgeoning pharmaceutical company proposing a strong portfolio.

With fully integrated contract manufacturing and solution development solutions, Medipol is widely recognised as a potential production base by various domestic pharmaceutical firms to serve as a **preferred strategic partner** in the industry.

### Distribution

Medipol Pharmaceutical distributes through its **7 distribution centers** in the country by which it manages its Trade and Institutional distribution network throughout India.

### Import

Quality being non-negotiable at Medipol, it has become the nature of our work environment and we leave no stone unturned to achieve the same. We opt for importing a handsome number of API from around the globe in order to thrive our quality culture.

### Export

Our significant achievements during the last few years have helped us build an organisation and infrastructure that has led us to spread our wings in the global market by starting registration and supplying for export to various countries of **Asia** and **Africa**.

More than  
500 branded  
and  
1500 generic  
products in all major  
therapeutic areas.

# Quality Assurance & Quality Control

A quality control laboratory that performs the physio-chemical, microbiological and stability analysis, necessary to ensure a compliant product.

Latest sophisticated instruments in **chemical**, **instrumental** and **micro-biological** labs.

All labs are run by a large pool of scientists that work amicably to achieve constant quality compliance.

Quality Assurance Department governs all production, QC and dispatch activities closely through their team of experts to prevent and overcome any mistakes or defects.

## Our Certifications are:

ISO 9001:2015 Certificate

WHO-GMP Certificate

GLP Certificate

GMP Certificate

FSSI Certificate

A committed team carries out real time and accelerated stability studies as per ICH guidelines.

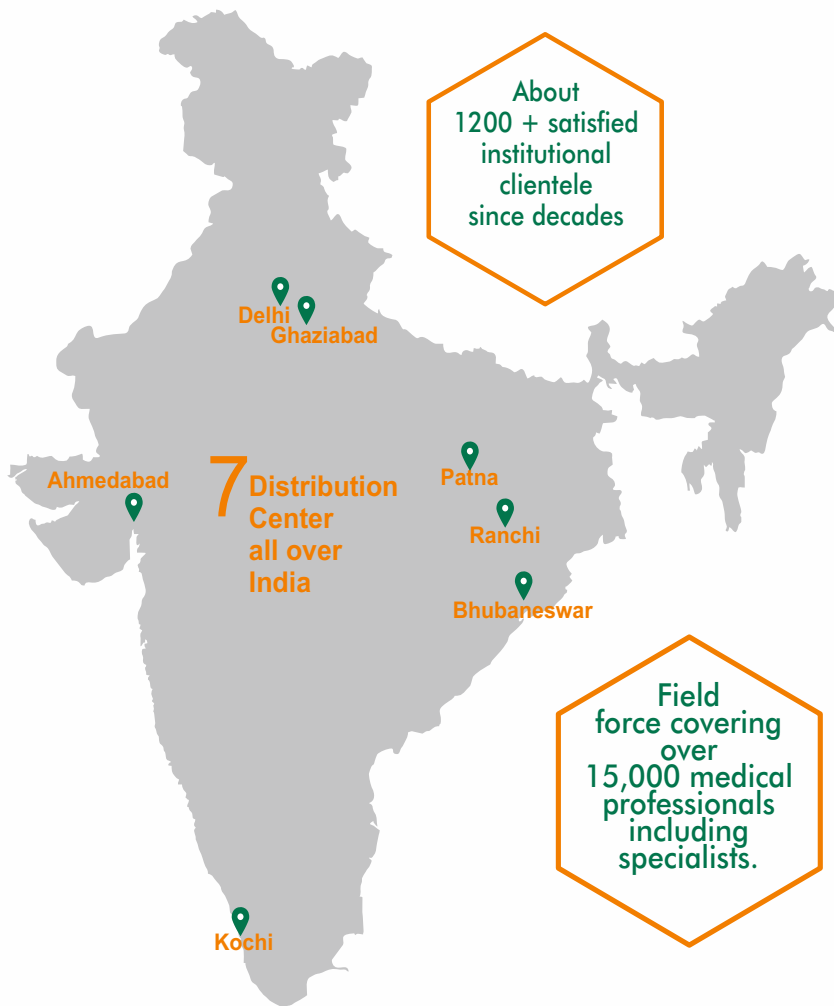

# Distribution Activity

We have gradually but solidly spread our network and now are a significant player **pan India**.

Medipol Pharmaceutical is a major distributor in India serving the pharmacist and respecting Good Distribution Practices.

## Export Activity

Medipol after covering the Indian market is now geared up to explore the export opportunities.

After receiving WHO-GMP certification in May 2016 Medipol started activities for registration in various countries of **Asian** and **African sub-continent**.

A dedicated team is engaged for compliance of regulatory affairs and other requirements according to specific countries.

Negotiation is ongoing with various other importers and in near future we will be commencing export in many more countries.

Started exporting to Afghanistan
