About Us

Gas agencies are taking initiatives to free homeowners from hassles related to using conventional LPG cylinders, by giving them piped LPG connections. Delhi is the first Indian city where the piped gas network is created, covering nearly 2.5 lakh homes. This network is spreading slowly in various Indian cities. It is a safer option for supply of gas for cooking and water heating purposes. **Unique Gas Service** is one such name powering homes with cost-efficient gas solutions. Our company is providing **LPG Gas Pipe Line Installation Service** and **Gas Pipe Fitting Services** in the Ludhiana in the Indian state of Punjab. The benefits of piped gas system are many, starting from an uninterrupted supply of gas with no need to time-to-time book cylinders, no subsidy, no worries regarding an underweight cylinder delivered to you, to freeing up the space in kitchen dedicated to house gas cylinders. People can be assured of the clean and stable supply of gas to their premise all round the clock.

Since 2012, our company is operating as a **service provider** as well as **supplier** of **LPG Parts, LPG Pipe, Aerosol Fire Extinguisher, Carbon Dioxide Fire Extinguisher and Fire Extinguisher Cylinder** to customers in the city and nearby states and cities. We equip corporates, commercial and residential sectors with Aerosol Fire Extinguisher and Carbon Dioxide Fire Extinguisher to suppress and extinguish fire at the time of emergency. We procure the entire range from reliable companies and maintain a stock in our unit.

About Mentor

Mr. Ashok Kumar is the founder and promoter of the company, whose main aim is to provide clean, safe, efficient and economical gas supply to homes. He is leading a team of 15, supervising their performance, giving them guidance and support whenever required and setting up strategies to improve the performance of the team.

Reasons to Choose Us

There are many companies that can provide you gas piping solutions, but, our zeal to stick to our commitment to be at the forefront of providing solutions is matchless.

- We are responsible and accountable for everything we do, right from our business operation techniques to serving our customers.
- Customers can be assured of the reliability of the pipeline and overall operations.
- Down the line as we progress, we want to be a quality supplier and service provider.
- We believe that a company can grow, only when its employees grow, therefore, we equip them with essential skills.
