# About Us

Established in 2010, Delta Machines has carved a niche as a trusted manufacturer and supplier of high-quality Injection Stretch Blow Molding Machines. Backed by a team of skilled professionals and years of industry experience, we consistently deliver products that meet the highest standards of performance, durability, and precision.

Under the visionary leadership of our mentor, Mr. Vivek Rahalkar, we have not only achieved significant milestones but have also embraced innovative business practices that drive our continued growth. His expertise, insight, and guidance have been instrumental in shaping our success and reputation in the industry.

Delta Machines is a prime manufacturer and supplier of high-quality Injection Stretch Blow Molding Machines. At Delta Machines, we place strong emphasis on technical accuracy, sturdy construction, and high-performance output, serving various sectors including automotive, packaging, electronics, and consumer goods. Our state-of-the-art manufacturing facilities and a team of seasoned professionals empower us to deliver machines that meet global quality standards while addressing specific client requirements.

# Our Expertise

Our position as a leader in the field of Injection Stretch Blow Molding Machines is the result of decades of innovation, precision engineering, and customer-centric practices.
