4-Way Ceiling Cassette Technical Elevations

Architectural and technical 4-view specification sheet detailing Front Elevation, Top Plan View, Right Side Elevation, and Rear Elevation for commercial HVAC ceiling cassette unit.

1. Front Elevation

Highlights the ceiling-facing decorative panel, 4-way louvers, return air intake grille, and status LED indicator module.

2. Top Plan View

Displays top structural housing, suspension bracket anchor positions, structural stamping, and primary refrigerant line ports.

3. Right Side Elevation

Details vertical profile depth, electrical control box casing, knockouts, and dual brass refrigerant pipe connections.

4. Rear Elevation

Shows protective rear chassis plating, factory rating label, condensate drain connection, and safety certification markings.
