Hitachi Ceiling Cassette AC Specifications

Multi-angle technical overview showing fascia panel, profile depth, louvers, and rear blower housing assembly.

1. Front Grille & Panel View

Standard ceiling-flush layout with centralized air intake grille, LED indicator panel, and 4-way direction louvers.

2. Side Profile View

Shows unit depth clearance required for ceiling void installation, main electrical connection box, and side drain connections.

3. Louver Open & Filter Access View

Displays extended air deflection vanes and mesh intake filter housing for maintenance and airflow adjustment.

4. Rear Blower & Chassis View

Exposes the internal centrifugal fan wheel, copper refrigerant pipe stubs, terminal block, and galvanized sheet metal enclosure.
