Hitachi Ducted Split System Specifications

Multi-angle technical layout showing front perspective, profile depth, top plan view, and rear service connections for indoor ducted and outdoor condenser units.

1. Front View

Displays the ducted indoor unit with dual outlet collars alongside the vertical outdoor condenser unit and wireless remote controller.

2. Left Side View

Details the indoor unit control box with inline filter drier line and the slim outdoor unit casing depth clearance.

3. Top Plan View

Overhead view illustrating footprint dimensions, fan grille placements, and structural mounting points for both units.

4. Rear View

Shows outdoor unit heat exchanger ventilation slots, service valve access points, and piping line connections.
