HVAC Ductwork Installation Specifications

Multi-angle field inspection sheet showing spiral duct reduction, transition fitting, overhead mounting, and perspective alignments.

1. Wide Angle View

Captures the complete horizontal run along the joist line, showing structural clearance and main transition assembly.

2. Side Elevation View

Highlights the straight run alignment, transition taper angle, and clearance beneath framing support members.

3. Vertical Plan View

Illustrates symmetrical reduction alignment, centerline tracking, and rib spacing along the duct sections.

4. Close-Up Perspective View

Details sheet metal joint seam integration, surface finish, transition welding, and hanger attachment point.
