Inverter Cassette 4 Way Technical Specification

Architectural and engineering layout detailing Top View, Front Perspective View, Side Elevation View with Wireless Remote Controller, and Rear Elevation / Technical Access View for commercial 4-way inverter cassette unit.

1. Top View

Features central branding plate, intake grille pattern, and surround 4-way auto-swing air distribution vanes.

2. Front Perspective View

Displays recessed ceiling chassis profile, mounting flanges, and flush decorative ceiling fascia panel.

3. Side Elevation View

Details low-profile body depth, copper inlet/outlet refrigerant piping connections, and wireless remote controller accessory.

4. Rear / Technical Access View

Highlights manufacturer data plate, terminal block electrical connection layout, and main service access panel.
