About Us

Established in 2002, Aruna Techno Industries has created an immaculate success story that truly revolutionized the concept of architectural hardware. Based in Mumbai, the financial capital of India, we are addressed as a premiere exporter, manufacturer, importer and supplier of premium quality building hardware such as Door Closing Devices, Architectural Glass Fittings, Patch Fittings, Shower Hinges, Floor Hinges, Panic Exit Devices and many other such items.

Our policy of quality is based on the philosophy of "ensuring true value for money to our customers". Towards achieving our aim of delivering quality products, we adhere to stringent quality control norms at every level of the production process. The entire process, right from procuring error free raw materials like stainless steel, to their casting and finishing are done under the supervision of expert quality control analysts. Matt and glossy finish are given to them so that they are able last for a long period of time. They are casted with zinc alloy and are given nickel brush chrome painting to make them an excellent guard against corrosion and heat. Thus, every parameter is given due importance at our quality test centre to ensure the movement of only the best products to the market.
