## About Us

A building is made up of more than just bricks and mortar; it also includes materials such as wood, plastic, steel and aluminium. All of these items work together to make a structure functioning. Ayub Steel & Aluminium Works, a factory situated in New Delhi (India), caters to buyers needs for various goods. They see us as the number one manufacturer, service provider and supplier.

We are well-known in the Indian industry for providing Stainless Steel Door, Aluminum Window, Glass Door, Wall Partitions And Door Partitions, Aluminum Door, Aluminum Wall Partition, etc. These creations are made of high-grade material, which is sturdy, lightweight, and corrosion resistant. Our used Steel and Aluminium range contributes significantly to the aesthetic and practical appearance of a structure. By employing modern technology, we have more design freedom and can create products. Along with our high grade product range, our company also renders the best Glass Door Job work service, Aluminium Window Job Work service, and more.

We have been operating under the supervision and quality management of our mentor Mr. Ayub since we first started in this business. Furthermore, his enthusiasm and inspiration have aided us in fulfilling all of our tasks without difficulty, gaining us a top position in the market.
