About Us

Cladding Projects Pvt. Ltd. was set-up in the year **2009** with a single motive to save the valuable time and money of the customers by providing them a common platform where they can get **Anchor Bolts, Bubble Insulators, Purlins as well as Cladding, Galvanizing / Painting and Erection solutions of Pre Engineered Building & Steel Structures**. The core competency of our company lies in our way of working, whether we manufacture building products or carry out Turnkey Projects, we maintain highest quality standards and accomplish the work within the committed time for attaining customer delight.

We feel honored that our outstanding products & solutions enabled us in achieving ISO 9001:2015 certification and in becoming a renowned manufacturer and supplier throughout the country. With the back of experienced manpower and modern equipment, we have completed so many projects for Japanese clients. Our skilled & proficient engineers have complete knowledge of designing software like Tekla Structures 3-D, MBS & STAAD Pro through which they are able to deliver accurate, optimum and professionalized engineering products & solutions.

Ballabgarh, Haryana based Cladding Projects Pvt. Ltd. is a single stop destination to get cladding & roofing products as well as MEP, Civil & Structural services. The company is mainly involved in manufacturing Purlins, Roof & Wall Cladding Profile Sheets, Roof Sheets and other building products that are used in airports, shopping malls, residential buildings, offices and in many other places. All these goods are being made using high grade material which our experts source from the certified vendors. Besides, the company's strength lies in our team of proficient employees, sophisticated infrastructural facility, wide distribution network and ISO certification.
