About Us

H K Home Appliances is a manufacturer and supplier of practical electrical and home appliance solutions designed to bring greater comfort, convenience, and efficiency to everyday living. With a focus on functional design, dependable performance, and customer satisfaction, we offer products that cater to diverse residential and commercial requirements. Our product range includes Mega Flow Room Heater, Fan Motor, Modular Touch Switches, and other electrical and home utility products.

We understand that modern spaces demand products that combine performance with ease of use. Therefore, we emphasize quality-conscious manufacturing, reliable components, and careful attention to product functionality. Our appliances and electrical solutions are developed to support convenient operation while delivering dependable performance for everyday applications. Our experienced team works with dedication across sourcing, manufacturing, quality checking, packaging, and customer service. We continuously focus on understanding changing market preferences and improving our offerings accordingly. Customer satisfaction remains an important part of our business philosophy, encouraging us to maintain responsive communication, timely service, and consistent product standards.
