About Us

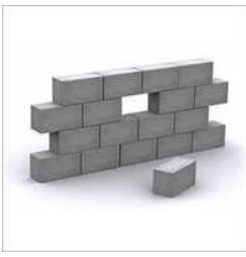

There is a variety of construction materials that are used for making structures. Finding important construction materials like that of TMT Bars, Cement and much more, under one big roof is why we have become an appreciated name in Construction Industry. We are Indian Steel Company, a company serving top quality RMC Concrete, Mild Steel TMT Bars, TMT Steel Bars and Cement since 1994. The years of our service in construction industry exhibit our dedication and quality of our products. As matter of fact, it is quality along with our services that makes us customers favourite.

Wholesaler/distributor and supplier stands as our business type suggesting that aforementioned products are supplied and distributed in regional Indian markets. At every construction site, bulk materials are required to develop structure and buildings so we procure materials in bulk and meet the demands of customers. The company is being managed, controlled and run perfectly by Mr. Neeraj Agarwal, Proprietor of the company. It is his network with vendors, retailers and construction companies that is benefiting the company well.
