

## ➤ 3 In1 Manual Feeder Stickers Half Square Cutting, Perforation and Creasing Machine

- Micro adjust system Minimum cutting size **16mm**, No GSM limit for sticker sheet
- Rotary type plaids are adjustable individually
- Size single dummy size **23"**, Variable speed system
- We are using high-speed steel roller and cutters Creasing & Perforation up to **400 GSM**
- Pull up and pull out rubber rollers, Machine weight **200Kgs**, we are using single, phase motor **0.5 Hp**

<b>TABLE TOP MODEL</b>	<b>DOUBLE UNIT MODEL</b>
Size 20" Without Stand, No of Blades : 8	Size 23" With Stand, No of Blades : 20
Minimum cutting size: 16mm, Without Variable speed	Minimum cutting size: 8mm, Variable Speed system, 6 digit digital counter
Motor : 0.5HP Single Phase	Motor : 0.5HP Single Phase
GSM : 35 – 400	GSM : 35 – 400

## ➤ **GLUING MACHINE (COLD GLUE and HOT GLUE)**

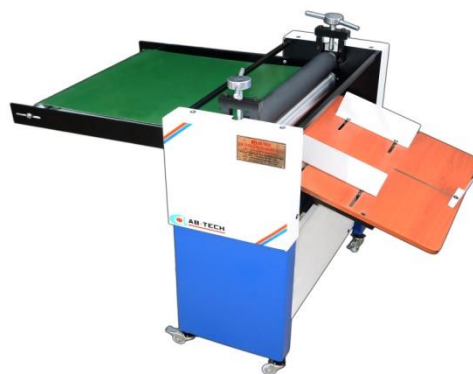

- Board to board pasting machine, Using all type of glue even varnish also
- Easily removable rollers & Easy to wash, Low maintenances
- Use any GSM Paper and Boards, It also suitable for strip gum,
- We are using fully stainless steel materials
- Minimum size **3" X 3"** & Maximum size **20"**
- Variable speed system ,we are using Low voltage single phase Motor **0.5 Hp**

## ➤ **HYDRUALI C HARD PRESS**

- This is hot press for pressing the Paper or Board after the pasting. Size available in 15\*20, 20\*30, 20\*20. Etc,

## ➤ **PAPER ROLLPRESSING MACHINE**

- This machines are used in Pressing the pasted Boards and Papers and Binding section

# AB-TECH ENGINEERING

## > COLD LAMINATION MACHINE

We offer excellent quantity range of **LAMINATION MACHINE**, Which is produced using best quality components and latest technology Under the supervision of our experienced professionals. The offered range of lamination machines comes with provision for roll to roll lamination With extended feeding table support.

- fully metalized body, Gum tray adjustment, Pressure adjustment, Hard Chromed and SS steels
  - Variable Speed 800mt/hr, Wrinkle free adjustment on roller, 2 Hp Motor, Single phase AC motor / drive for power consumption
  - Various type of film can use like polyester, BOPP, PVC, etc.,
  - Various GSM from 45 to 500, all type of lowest micron to highest micron
- Can use, Durability, Easy to operate, low maintenance.

## ➤ PAPER BAG MAKING COMBO MACHINES

### ➤ 42" Paper bag Creasing machine

- We are using high-speed steel roller and cutters Creasing & Perforation up to **400 GSM**
- Pull up and pull out rubber rollers, Machine weight **200Kgs**, we are using single, phase motor **0.5 Hp**
- We are using Male & Female type creasing, Moving wheels also

### ➤ Paper bag Side Pasting and Bottom pasting Machine

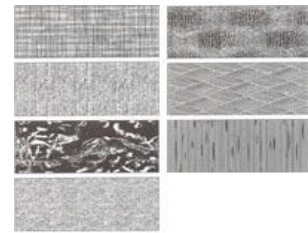

- Easily removable rollers & Easy to wash, Low maintenances
- Use any GSM Paper and Boards, It also suitable for strip gum,
- We are using fully stainless steel materials
- Minimum size **3" Bag** & Maximum size **20" bag**
- Variable speed system, we are using Low voltage single phase motor **0.5 Hp**

### ➤ "V" Creasing, Roll Pressing, Eyelet pressing machine

- Minimum size **3" Bag** & Maximum size **20" bag**
- "V" type creasing and cutting on the Bag Bottom
- Roll Pressing machine for pressing the Bag after the Pasting Side and Bottom
- Eyelet pressing for pressing the Eyelet Button on Bag top side, this Eyelet save the Handle from broken

## ➤ Board Knurling Machine & Embossing Machine

## ➤ Variable Designs

- Manual Pressure Adjustment system
- Easy to Change the designed roll
- We are having variable designs
- It specially designed for Emboss pattern on Paper & Board
- size **24"**, Variable speed system
- We are using high-speed steel rollers ,Use above **200 GSM**

Boards, Pull up rubber rollers

- we are using single phase motor **2.5 Hp**
- This Machine Suitable for Many application Packaging Boxes, Playing Cards, Box covers, wedding cards etc,
- Twin de-curling rubber roll prevent paper creasing

## ➤ **3 In1 Automatic Friction Feeder Sticker Half Square Cutting, Perforation and Creasing Machine**

- Cheque book perforation and Book creasing
- Micro adjust system
- Minimum cutting size 16mm
- No GSM limit for sticker sheet
- Rotary type plaids are adjustable individually
- Size single dummy size 23"
- Variable speed system
- We are using high-speed steel roller and cutters
- Creasing & Perforation up to 350 GSM
- Pull up and pull out rubber rollers
- Machine weight 200Kgs
- we are using single phase motor 0.5 Hp
