## About Us

Aganaya Trading Company stands as a trusted name in the field of industrial raw material supply, catering to a diverse spectrum of businesses across the globe. As an exporter, trader, and supplier, the company has built its foundation on the pillars of purity, consistency, and reliability. With a superior range of products such as zinc ash, zinc sulphate, silica sand, silica manganese, chrome concentrate, and bauxite ore, Aganaya Trading Company is a trusted partner for those industries which settle for nothing but top quality material.

Leveraging a rich market understanding of requirements and material specifications, every product supplied is thoroughly quality-checked and imported from inspected mines and manufacturing plants. From mass industries to specialized operations, the firm guarantees timely delivery, reliable supply, and customized solutions that comply with technical specifications with accuracy. The focus on effective logistics, combined with an active approach to compliance and sustainability, makes us a first choice for companies searching for reliable sourcing and supply.
