About Us

We, Crimscent Industries are Manufacturer and Supplier of the vast range of Residential Gas Leak Detector, LPG Gas Detector, Smoke Detector, Sulfur Hexafluoride Gas, Flame Detector, and more. At our company, all of us come to work each day because we intend to get to the bottom of the issue in our cities. Everybody in the surrounding environment is bluffing. We invest in luxuries by the thousands; yet, we never care about focusing on an essential need, Safety. All of us, as a group, have promised to render the whole country impervious to fire dangers. We not only provide Gas leak sensors, but also ensure that the sensors are correctly calibrated with NABL certified calibration gas standards. We offer best services like gas detector for rental, gas detector for repair, AMC, and calibration of Gas detector

Gas detector is an apparatus that senses the presence of gases in a space, usually part of a protection system. The equipment is applied to sense a gas leak or other release and can be interfaced with a control system so a process may be automatically halted. Crimscent Industries having served over 300+ clients has appeared to be a leading player in Fire and Safety domain. A gas detector is able to trigger an alarm for operators in the vicinity of where the leak is taking place, allowing them a chance to vacate. This kind of equipment is significant due to the fact that there are numerous gases which are dangerous to organic life forms, such as animals or human beings.

Our Products

Portable Multi Gas Detector

Combustible Gas Detector

Co2 Gas Sensor Transmitter

Chlorine Gas Leak Detector

Portable Hydrogen Gas Leak Detector

Portable Single Gas Detector

Ammonia Gas Leak Detector With Alarm

Fixed Gas Detector

Methane Gas Detector

LPG Gas Detector

Residential Gas Leak Detector

Carbon Monoxide CO Gas Detector

Oxygen Gas Detector

PNG Natural Gas Leak Detector

LPG & PNG And CNG Flameproof Gas

Ammonia Gas Detector
