## Deluxe 28 litre bucket ●● with air-tight lid for flat damp mopping

### Product Info

Partek Deluxe bucket is a single bucket with 28 litres capacity for damp floor cleaning needs. Made of premium grade virgin Polypropylene, this bucket can be used for carrying pre-damp flat mops. Light in weight and durable construction allows it to be carried anywhere and the air-tight lid does not allow the moisture of the damp mops to escape. It is paired with either Press & Go mop or Joy mop allowing efficient damp mopping thus eliminating occurrences like spillage of water from buckets and water contamination.

### Product Features

- ☑ 28 litres capacity
- ☑ Ergonomic and good aesthetic appeal
- ☑ Highly mobile and durable
- ☑ Air-tight lid
- ☑ Premium quality virgin PP plastic ensures long life
- ☑ Compact in size and aesthetics

### Applications

Hotels  
Corporate Offices  
Hospitals  
Manufacturing Units  
Banquet Halls  
Other areas

#### Pre-soaked Flat mopping Concept

These buckets are used with flat mopping systems for damp cleaning in pair. Generally, blue bucket will store pre-treated mops soaked in floor cleaning chemical solution and the red bucket is for storing used mops. This concept reduces contamination and more suitable than wet mopping where moisture is a concern such as ICU rooms, labs, and other areas.

Can be converted **max space**  
into a large size **CADDIE**  
useful for heritage properties

## Lito Microfiber Mop

kentucky style with complete color coding

### Product Info

Partek Lito Microfiber wet mops are engineered for lint-free wet mopping and are super absorbent. These microfiber mops are constructed with 100% continuous filament microfiber woven fabrics sewn into the tubes, which makes this the best mop for lint-free mopping applications. The microfiber mop increases the surface friction for superior cleaning as compared to traditional wet mop. This microfiber mop contains tail band to hold the tubes together ensuring even mopping. Looped ends on each tube prevents splitting of fibers thereby enhancing the life of the mop.

### Product Features

- ☑ Wide band for easy control
- ☑ Can absorb upto 7 times its weight in water
- ☑ Tail band to support looped ends
- ☑ Looped ends prevents splitting of the fibers
- ☑ Completely color coded including the ribbon and tail band

*Abrasive material on the band provides scrubbing action to remove sticky spots while mopping*

### Compatible Buckets/Trolleys

# Press & Go Velcro Mops

flat style

## Product Info

Partek Press & Go flat mops are superior quality densely woven mops for various types of damp & wet cleaning needs. These mops are crafted with expertise to address the issue of fine cleaning. They are used with Press & Go velcro frame to not just clean but also create optimum hygiene levels. Used as a pre-soaked mopping concept, these mops are pre treated and are used with storage buckets. Effective for areas demanding extra cleanliness and where wet mopping cannot be implemented. Paired with ultra-thin and light weight frame, these mops are easy to use, reduce stress and avoids fatigue.

## Applications

Hospitals  
Offices  
Schools/Colleges  
Bars/Cafes  
Banquet Halls  
Other areas

# Joy Mop with Inbuilt Solution Tank

## bucket-less mopping system

### Product Info

Partek Joy Mop is an elegant bucket-less mopping system designed to improve hygiene while reducing mopping time, chemical use, water use, labour cost and WHS issues. The 360 degrees swivel head allows for total floor mopping coverage by edge mopping first, followed by the standard "figure eight" method. Constructed from high impact plastic with an aluminum handle having comfort fitted hand grips, Joy mop is a specialised germ free solution to enhance hygiene standards.

### Product Features

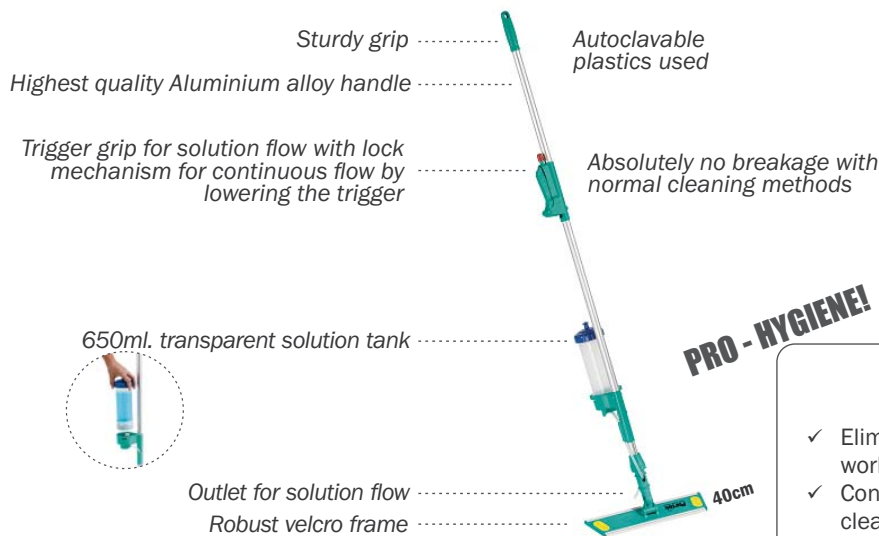

- ☑ Bucket-less mopping system
- ☑ Lockable trigger grip controlled 650ml solution tank
- ☑ Used with Press & Go mops
- ☑ Easy to clean and can be sterilized in an autoclave
- ☑ Heavy duty construction
- ☑ Elegant appeal with no sharp edges

### Applications

Hospitals  
Pharma Firms  
F&B units  
Kitchens/Cafeterias  
Gymnasiums  
Other areas

### Related Products

#### Mop Types

### 4 Benefits of Joy Mop

- ✓ Eliminates the use of buckets hence reducing work stress and eliminating germs growth.
- ✓ Convenience of using solution for deeper cleaning at any time, anywhere.
- ✓ Autoclavable plastics used which can be easily sterilized - a must for Hospitals
- ✓ High productivity due to no dependency on other tools for hygiene free surface.

### Joy Belt System - No buckets required

Joy Belt is a belt made of woven plastic, which the operator wears around his waist with the easy velcro system. This provides the convenience to carry fresh & dirty mops and chemical solution using multiple attachments, thus eliminating the use of a bucket.

# Quick Snap MicroDust Control Frame

aircraft grade aluminium construction  
for medium to large areas

## Product Info

Partek Quick Snap MicroDust Control frame is a carefully designed and developed superior grade tool for holding Partek Flortex dry and damp cloths. Made of aircraft-grade aluminium, this frame guarantees longevity and extreme durability. It has Sleek looks which adds on to the aesthetic values. It has rotating swivel head for multidirectional movement and can be locked in place for only two directional movement. Provision of four and eight logically placed quick snaps to hold the Flortex microfiber cloths tightly. Available in three sizes, it is an effective tool at micro managing dust and dirt to the minimum.

## Applications

Offices  
Hospitals  
Schools/Colleges  
Bars/Cafes  
Banquet Halls  
Other areas

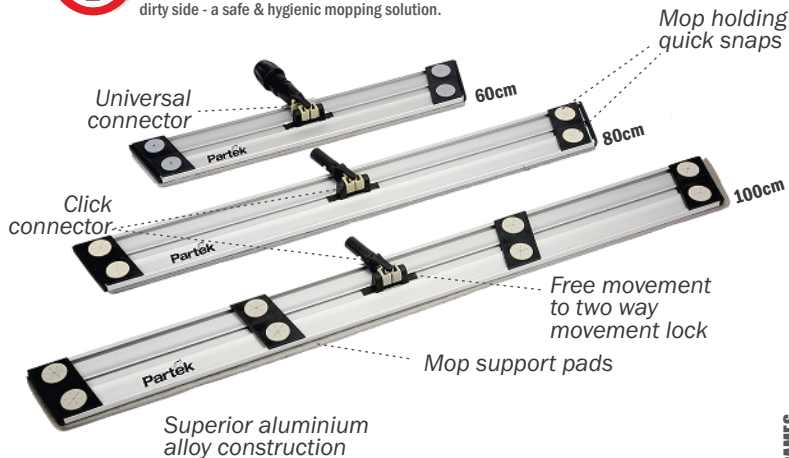

## Product Features

- ☑ Aircraft-grade aluminium ensures superior durability
- ☑ Smooth and sleek design with no sharp edges
- ☑ Firmly holds Flortex cloths for efficient damp cleaning
- ☑ 360 degree movement with locking mechanism

### Touch Free Mopping

Allows removing mops without touching the dirty side - a safe & hygienic mopping solution.

# Flortex MicroDust-Dirt Control Cloths

flat style touch free mops  
for medium to large areas

## Product Info

Partek Quick Snap MicroDust-Dirt Control cloths are special flat mops for dry and damp cleaning of smooth floors. Made of high quality polyester yarns densely fabricated for high dust/dirt capture, these cloths are easy to use and clean post work. Due to static charge created with fibers rubbing against the surface, these cloths bind dirt and dust like magnet. Used with a aircraft-grade frame, this mopping system guarantees longevity and extreme durability. Available in various sizes, these cloths are suitable for small to medium areas where dust/dirt control is important.

## Product Features

- ☑ Attracts dust and dirt effectively
- ☑ Easy to clean and maintain
- ☑ Lasts from 300 to 500 washes under normal working cond.
- ☑ Captures micro-dust and dirt
- ☑ Light weight and convenient to use
- ☑ Ensures the dirty part is not touched while replacing mops

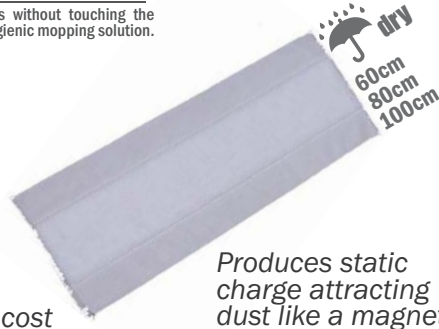

## Applications

Offices  
Hospitals  
Schools/Colleges  
Bars/Cafes  
Banquet Halls  
Other areas

### Touch Free Mopping

Allows removing mops without touching the dirty side - a safe & hygienic mopping solution.

Low cost  
in use

Produces static  
charge attracting  
dust like a magnet

Lightweight and  
easy to clean

Perfect blend of  
Polyester and Cotton  
for superior strength  
and good absorbency

Not suitable for rough surfaces

# Dido Mop Frame

Allows speed + quality mopping  
for small to medium areas

## Product Info

Partek Dido Mop frame is a superb professional quality folding frame that's made of strong grade eco-friendly plastic and used with Partek Dido mops. As compared to kentucky mops, Dido mopping is faster and much more effective. This is because the pressure applied by hand is equally spread out over the entire Dido mop in contrast to single line contact under pressure in kentucky mop. Hygienic foot operated button folds the frame in half enabling you to wring the mop head out effortlessly with a Partek Tec wringer. It can be paired with multiple trolleys and buckets for effectively cleaning dirt.

## Applications

Hospitals  
Offices  
Schools/Colleges  
Bars/Cafes  
Banquet Halls  
Other areas

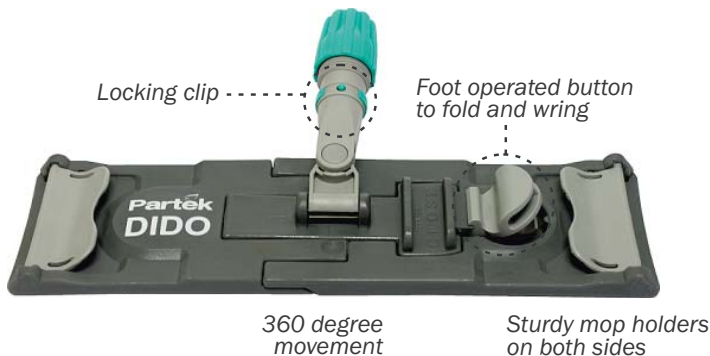

## Product Features

- ✓ Strong lock joints and overall frame ensures durability
- ✓ Foot operated button to fold and wring in a Tec wringer
- ✓ 360 degree cleaning possible
- ✓ Firm grip and no loose movements with locking clip
- ✓ Easy to operate with

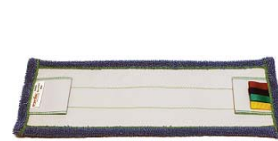

### Touch Free Mopping

Allows removing mops without touching the dirty side - a safe & hygienic mopping solution.

# Dido Microfiber Mop

Flat style touch free mopping  
for small to medium areas

## Product Info

Partek Dido Mop is an innovative flat microfiber mop for all types of damp cleaning needs. Made of dense microfiber, Dido allows more absorbency and is easy to use. Measuring 40cm, it is a compact and high performance tool. Hygienic foot operated button folds the Dido frame in half enabling you to wring the mop head out effortlessly with a Partek Tec wringer. Equipped with color coded strips, Dido can be coded with any of the four colors. It can be paired with multiple trolleys and buckets and is suitable for areas where wet mopping is not required.

## Applications

Hospitals  
Offices  
Schools/Colleges  
Bars/Cafes  
Banquet Halls  
Other areas

## Product Features

- ☑ Made of high quality microfiber unlike similar mops; no linting
- ☑ Allows more dirt capture and higher productivity
- ☑ Polyester backing to provide strength and avoid shrinkage
- ☑ Equipped with color coded strips
- ☑ Easy to use and wash after use

### Touch Free Mopping

Allows removing mops without touching the dirty side - a safe & hygienic mopping solution.

Fine microfibers allow better dirt capture

Durable stitching provides long life

Removable Color coded strips

Easy to use and wring

---

*includes  
Dense Microfiber Round mop  
with attached frame*

---

*Superior Absorption for Damp mopping  
in 4 colors ●●●●*

# Round Microfiber Mop

Superior absorbtion

## Product Info

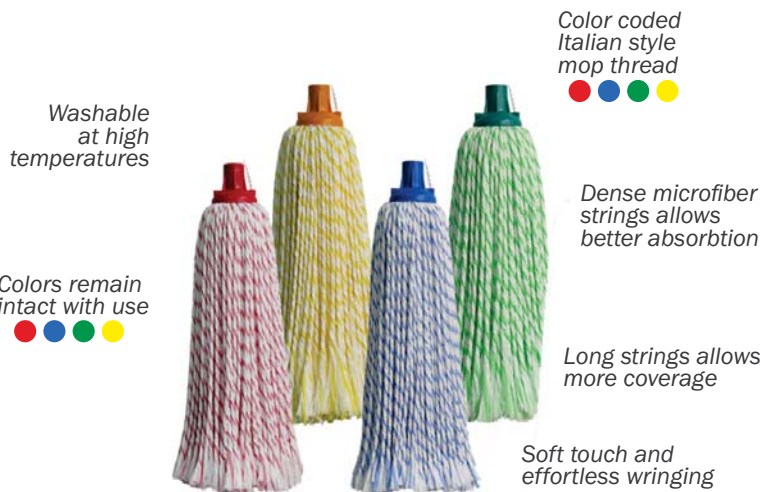

Partek Round Microfiber string mop paired with round wringer is a superior choice for wet mopping. Made of 100% microfiber opposed to other similar microfiber mops, the round mop has a higher percentage of micro fiber in the same weight and size of a cloth. This ensures better absorbency and more coverage on the floor providing better productivity. With a hollow center design, it dries quickly and can be used with a bleaching agent without color fading. It can also be washed in higher temperature without color fading.

## Product Features

- ☑ 100% microfiber with more coverage
- ☑ No linting and better absorbency
- ☑ Comes with Italian screw thread
- ☑ Soft microfibers allow easy wringing and improves work-time
- ☑ Can be washed at higher temperature without losing color

# Smart Wall Duster..

## Flexible duster with dual microfiber sleeve

### Product Info

Cleaning walls and ceilings has always been neglected due to non availability of a proper tool. With Partek Smart Wall Duster, a one of it's kind cleaning/dusting tool, cleaning them is like a breeze. It can also be used to reach areas which are inaccessible by hand (like pipes, ducts, between/below furniture). Flexible, thin foam frame is attached to microfiber sleeve allows for effective cleaning. It can be combined with telescopic handle/Pike-o Poles letting the operator reach walls, high overhead fans, blinds and dust on the ceiling. Each sleeve can endure hundreds of washes before starting to lose the microfiber properties. The paddle holding the dust sleeve is moldable and easy to shape for any necessary dusting application.

### Product Features

- ☑ Moldable foam paddle is extremely flexible
- ☑ Dual microfiber sleeve last much longer than ordinary microfiber sleeves
- ☑ Strong and sturdy grip for great productivity
- ☑ Ability to extend till 8 feet once fully flexed

### Applications

Homes  
Hotels  
Offices  
Schools/Hostels  
Hospitals

# Acro Cotton Duster

## Compact and Handy with Split-able frame

### Product Info

Partek Acro Cotton Duster with handle is a robust handy duster for everyday cleaning. The frame is split-able i.e. it can be split into two parts to clean around areas from both the sides. Due to this feature, it can be used to clean most of the objects found at the premises. The cotton fibers are dense and high quality, made of superior cotton yarn. These fibers attract even the finer dust and give the surface a cleaner look. It is extremely efficient at cleaning areas like blinds, ceiling fans, furniture etc. and can also be attached with telescopic poles for hard to reach areas.

### Product Features

- ☑ Sturdy eco-friendly plastic grip with hook at the bottom
- ☑ High quality fibers attract dust like a magnet
- ☑ Split-able frame
- ☑ Easy to use and clean
- ☑ Fibers last much longer than ordinary dusters

### Applications

Blinds  
Book Shelves  
Table Tops  
Ceiling Fans  
Lights and fixtures  
Furniture  
Other areas

Ceiling lights can be easily cleaned with telescopic pole

Can clean hard to reach areas

Special frame allows easy cleaning between hard to reach areas

Can clean ceiling fans with telescopic pole and articulated tool

Very efficient at cleaning blinds from both sides

# Magic Pad

**Dust & Dirt Eraser....works wonders with just water!**

## Product Info

Partek Magic Pad is nothing short of extraordinary - a cleaning pad which doesn't need harsh chemicals and is water-activated. In order to use, just wet it under the tap and then swipe away the dirt and grime and grease and whatever else you can find. It works best on hard surfaces, like countertops, tabletops, floors, doors, walls, baseboards, and appliances. Micro-scrubbers in the pad reach into the surface grooves, lifting away built up dirt and grime and giving a honest clean look. Weight less than 6 grams, this spongy pad is a must for every housekeeper, a handy tool to just swipe away the scuff marks and dirt.

## Applications

Houses  
Hotels  
Corporate Offices  
Schools/Colleges  
Restaurants  
Automobiles

## Product Features

- ☑ Feather light weighing less than 6gm
- ☑ Gets activated in seconds and that too with just water
- ☑ Also removes soap scum from tubs/tiles
- ☑ Can easily be squeezed in pockets or other smaller areas
- ☑ Cleans like magic, just like how eraser works

Clean crayon marks off walls

## How to Use

- 1) Wet in water
- 2) Squeegee out excess water
- 3) Swipe on dirty surfaces
- 4) Dry surface with microfiber cloth

Can also clean metal utensils

# Industrial Floor Sweeping Brush

Heavy Duty & ergonomic

## Product Info

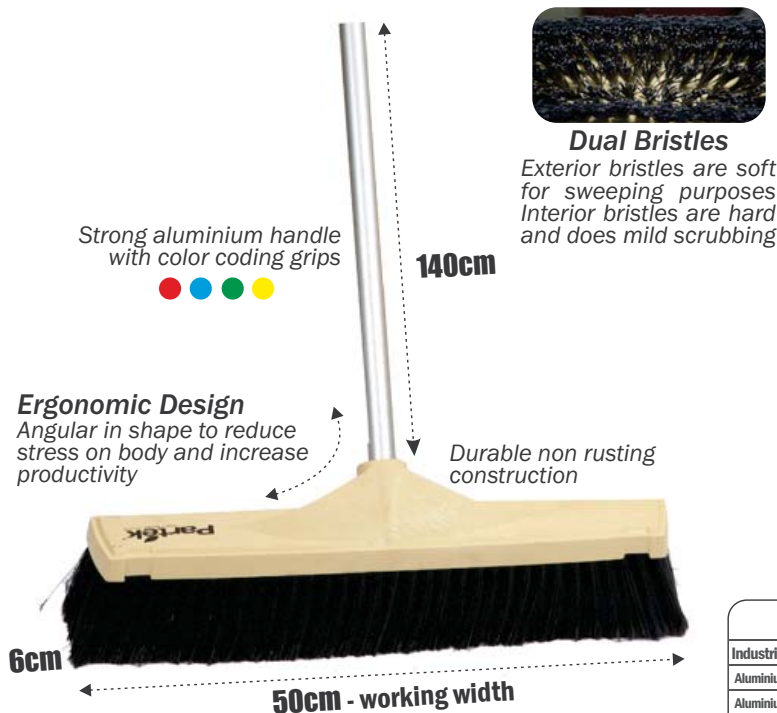

Partek Industrial Floor Sweeping Brush is an ergonomically designed hard sweeping brush, ideal for sweeping hard floors. The 18 inch brush consists of a durable lightweight plastic with bristles trimmed to 3 inches. The bristles are made of high quality PVC which retain their shape even with heavy usage and last longer. The working width of the brush is 50cm allowing good productivity while sweeping hard exterior floors. Equipped with Partek Aluminium handle with screw, this sweeping brush is good for Industries.

## Applications

Roads  
Manufacturing Plants  
Civic Buildings  
Railway Stations  
Bus Stands  
Other Areas

## Product Features

- ✓ Premium grade stiff PVC bristles ensure longevity and efficiency
- ✓ Good working width of 50cm
- ✓ Durable non rusting plastic frame
- ✓ Sturdy filament avoids bristles coming out
- ✓ Can be attached to aluminium handles with color coding

### PVC bristles vs Acrylic bristles

- ✓ PVC bristles are stiffer in composition and retain their shape for a longer time
- ✓ Are uniform and cover larger area
- ✓ Are better suited for exteriors

### Plastic vs Hardwood frame

- ✓ Lightweight and easy to use
- ✓ Holds the sweeping bristles better
- ✓ Doesn't rot unlike hardwood
- ✓ Professional looks and feel

# Strong Floor Squeegee

with Replaceable Double Blade

## Product Info

Partek Strong Floor Squeegee is an excellent choice for drying of all types of smooth floors. The new double rubber blade design is 3 times more durable and ensures thorough cleaning without leaving any streak marks behind. Also, the squeegee can be pushed and pulled as opposed to some squeegees which could only be pulled and can also be used for dry squeegeeing. The blade is made of specialised EVA rubber which snugs to the shape of the floor. All the more, the blades are replaceable which reduces the cost of replacing the entire squeegee. It comes with four color coding options through the blade screw, handle lock and the grip of the handle to cater to problems like cross-contamination.

## Product Features

- ☑ The blade lasts 3 times more than ordinary blades
- ☑ Available for medium and large areas
- ☑ Push to sweep and pull to wipe
- ☑ Replaceable blades thus reducing cost
- ☑ Can be used dry as well as wet
- ☑ Double blades for better wiping

## Round Cobweb Brush

Contoured shape with flagged-end bristles

### Product Info

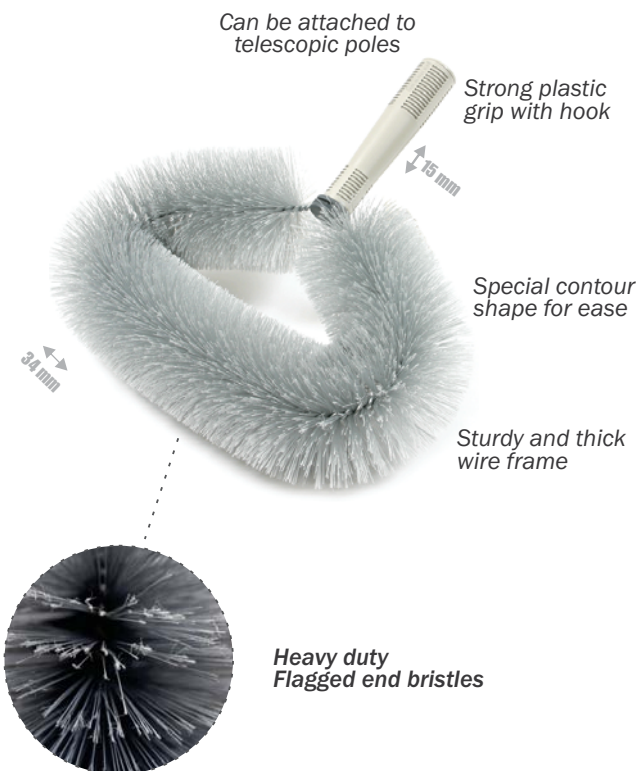

Partek Round cobweb brush is a professional tool used with a Telescopic pole for easy removal of cobwebs from any hard-to-reach area. Flagged-end (slipt-end) bristles facilitate micro-dusting. This is the ideal brush for cleaning ceiling fans blades, ledges and corners. Contoured shape and heavy duty flagged-end bristles on a strong and durable wire frame remove dust and cobwebs from corners and high rise ceilings. With the provision to be attached with telescopic poles upto 11 meters, this brush is a suitable choice for high areas.

### Product Features

- ☑ Specialised shape for cleaning cobweb easily
- ☑ Good quality wire frame to support the bristles
- ☑ Can be attached to telescopic poles for hard to reach areas
- ☑ Heavy duty flagged-end bristles for micro dust cleaning

### Applications

Hotels

## Pike-o Telescopic Poles ●●

### Heavy Duty Aluminium Construction

#### Product Info

Partek Pike-o Telescopic Poles offer a full range of possibilities for high reach cleaning. They are comprised of one, two, three or five parts and come in 14 standard sizes ranging from 1.25 m (4'2") to 11m (36'7"). The nylon collars couple together the extruded aluminum tubular sections. The end of each pole is comprised of a standard or screw cone on which you can mount any tools - squeegee, washer, cobweb brush or scraper. With the help of the Articulated tool, these poles could be used to clean tricky corners.

#### Product Features

- ☑ Increased aluminium wall thickness to prevent shaking
- ☑ Can be retracted easily for quick transport/storage
- ☑ Articulated tool for angular support
- ☑ Can reach upto 11 meters
- ☑ Can be attached to multiple tools for different type of cleaning

#### Applications

## Debri V-Sweeper Dust Mop ●●

### Dry Mopping of Large Areas

#### Product Info

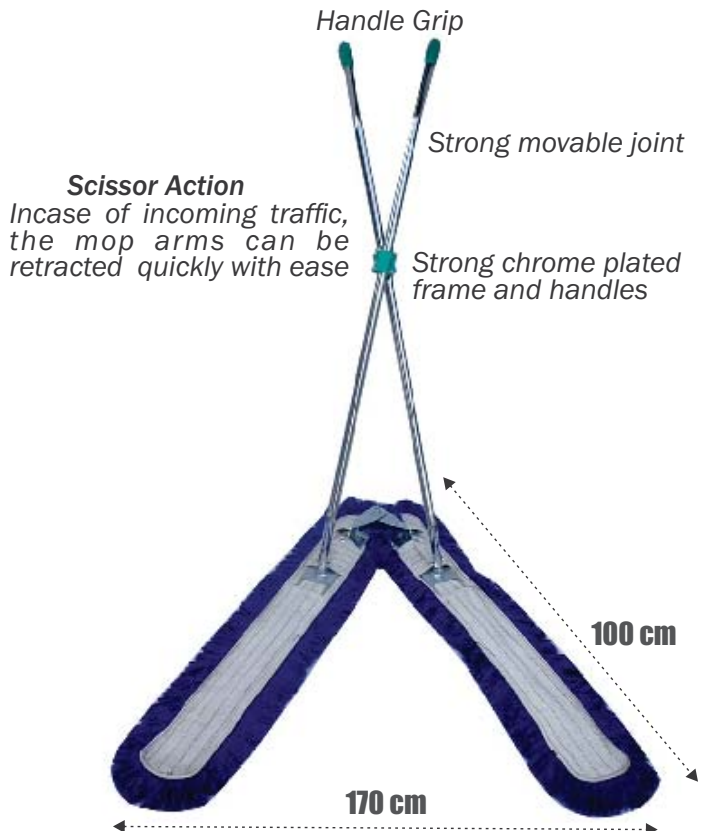

Partek Debri V-Sweeper Dust Mop is an efficient and ideal mop for ultra speed sweeping of corridors, shopping centers, schools and supermarket floors. With its scissor action, Debri V-Sweeper is more efficient than a broom and faster than a vacuum cleaner. The mop has a span of 1 meter with the extended span of 1.7 meters. The acrylic fibers are densely packed giving more cleaning effect and better hygiene. The frame is heavy duty and the acrylic mops can be easily replaced once used.

#### Applications

Corridors  
Shopping Centers  
Schools  
Supermarkets  
Hospitals

#### Product Features

- ☑ Scissor action provides excellent dust and rubbish pick up
- ☑ Extended span of the mop is 1.7 meters
- ☑ Lightweight with 1 metre acrylic heads
- ☑ Economical as only the mops need to be replaced

*High Quality Acrylic Fibers allow more dust capturing and better cleanliness. They can be washed once extremely dirty*

# Tangy Floor & Wall Scrubbing Tool

Wet Scrubbing of walls & floors

## Product Info

Partek Tangy is a Pad Holder with hook-and-loop which grips the pad for wet scrubbing of walls/floors. The 360 degree universal connector allows Tangy to be attached with Aluminium poles. Ideal for cleaning surfaces such as tile and grout in bathrooms, showers and kitchens, as well as concrete, vinyl, brick and raised circular-pattern rubber floors. The frame has swivel feature and can be worked with in multiple angles. Difficult areas like skirting, floor edge, stairs, under fixtures can also be easily cleaned with Tangy. It has a 25cm working width and 12cm length. The handles also allow for color coding options.

## Applications

Skirting  
Tiles grouts  
Hard Floors  
Glass surfaces  
Metal surfaces  
Vinyl floors  
Under Fixtures

## Product Features

- ☑ Designed for most cleaning tasks
- ☑ Strong hook-and-loop system at base
- ☑ Working can be done in multiple angles for better productivity
- ☑ Can be attached to 140cm Aluminium handles for better reach
- ☑ Multiple pads can be attached to the velcro as per the need

Can be fitted to Aluminium Handle with color coding option

# Partek Microfiber Technology

Human Hair Partek Microfiber

The thickness of partek microfiber is finer than 1/100th of a human hair

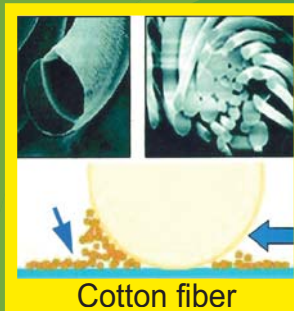

A Microfiber is defined as being less than 1 gram per 10 km in length

For most microfiber this equates to a diameter of less than 0.13 denier

A microfiber is typically made of two fibers which combine to form one thread

The most common combination of polymers is

## Partek Microfiber vs Cotton Fiber

# Lite Microfiber Hand Cloths

## High Performance

### Product Info

Partek High Performance Lite Microfiber Hand Mops are lint-free, non abrasive and highly absorbent cleaning mops for superior cleaning results. Finer than 1/100th the size of a human hair, these mops easily remove dust, dirt and bacteria from any micro pores like a magnet. With the perfect blend of Polyester( for strength) and Polyamide( for absorption), these mops are three to five times more absorbent than a cotton mop. Also, these mops releases the dirt equally fast unlike cotton cloths. Without leaving any streak or lint behind, these are perfect for general purpose cleaning and hygiene.

### Product Features

- ✓ Non abrasive and lint free cleaning
- ✓ Perfect blend of polyester and polyamide for strength and absorbency
- ✓ Can clean with water without the need to use cleaning sprays
- ✓ Works on micro dust and dirt
- ✓ Soft touch and easy to clean

### Applications

Hotels  
Corporate Offices  
Hospitals  
Manufacturing Units  
Banquet Halls

# Glass Microfiber Hand Cloth.

## High Performance Lint free

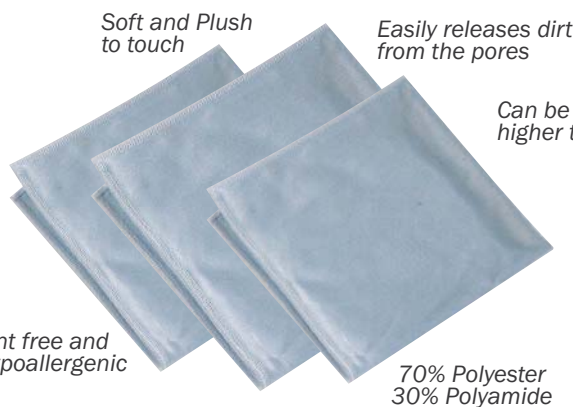

### Product Info

Partek High Performance Glass Microfiber Hand cloth is a lint-free, non abrasive and highly absorbent special cloth for perfect cleaning of glass windows & mirrors. Due to it's special smooth & shiny finish, it can remove finger prints from the glasses without wetting the surface and also acts on micro pores. For stubborn spots, just damp a portion of it with plain water and wipe clean to sparkling finish without the use of expensive spray cleaners. The secret behind spot free cleaning is the densely knitted Micro fiber with each sq. cm of cloth contains 2 km of thread. Besides the windows & mirrors, you can remove water spots from your crockery & cutlery. Your costly crystal will again come back to life without a scratch with just plain water making it an eco-friendly product.

### Product Features

## Hi-Tech Microfiber Hand Cloth

### High Performance for Electronics

#### Product Info

Partek Microfiber Hi-Tech High Performance Cloth has a special texture which lifts the dust, dirt and finger prints from electronic surfaces without the use of sprays. Soft to feel, Partek "High-Tech" Cloth is perfect for the cleaning of sensitive surfaces such as computers, monitors, cameras, tables, furniture etc. It leaves a clean and lint free surface without scratching, unlike regular cloths. To remove the dust, use dry and for dirt and smudges use the cloth damp. Due to the dense knitting, each sq.cm of Partek Microfiber High-Tech Cloth contains about 2 km of thread. This makes the cloth very durable and will look like new even after many washes.

#### Product Features

- ✓ Can easily clean without using chemicals; saves money

## Kitchen Microfiber Hand Mop.

### Ultra high Absorbtion

#### Product Info

Partek Microfiber Kitchen cloth are simply the best you have ever had. This Kitchen cloth is made of the softest, thirstiest, waffle-weave just perfect for quickly soaking up water and spills. Now you can dry glasses, crockery & cutlery without leaving lint or spots. Due to it's voluminous pattern, it encloses lot of oil and grease from your kitchen surfaces into it's large pockets, thus giving you higher performance compared to your cotton towels. Not only it absorbs oil and grease immediately, but also releases it equally fast when washed, therefore it looks like new even after many washes. Moreover you will use lesser amount of detergent to clean this cloth compared to a cotton cloth, which again saves you considerable cost over a period of time.

#### Product Features

- Can easily clean screens without using chemicals; saves money
- Finest quality of microfibers ensuring no linting
- Attracts dust and dirt like a magnet
- Works on micro dust and dirt
- Soft touch and easy to clean

# Window Washer.

with White Microfiber Sleeve

## Product Info

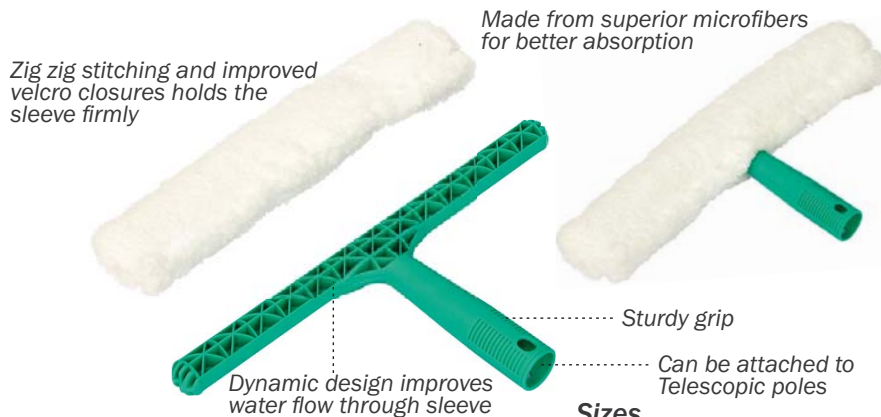

Partek professional grade Window Washer features Dynamic design which improves water flow through the sleeve spreading the right amount of liquid onto the glass. It Includes hard wearing plush, woven superior microfiber sleeve. Reinforced zigzag stitched ends and Velcro closures ensures long life of the sleeve. The microfibers have more absorption and works better than synthetic sleeves. Also, they last much longer too. It comes with the provision to be attached with Partek Pike-o telescopic poles for high reach windows and out of reach cleaning. The plastic used is eco-friendly and ensures long life of the frame.

## Applications

Windows  
Mirrors  
Facades  
Glass doors  
Other glass

## Product Features

- ✓ Dynamic and durable frame design for better life and productivity
- ✓ Can be attached to telescopic poles for hard to reach areas
- ✓ Multiple sizes for multiple uses
- ✓ Microfiber sleeve absorbs more and cleans better
- ✓ Reinforced zigzag stitched ends

# Swivel Window Squeegee

## Multi-directional with Stainless Steel channel

### Product Info

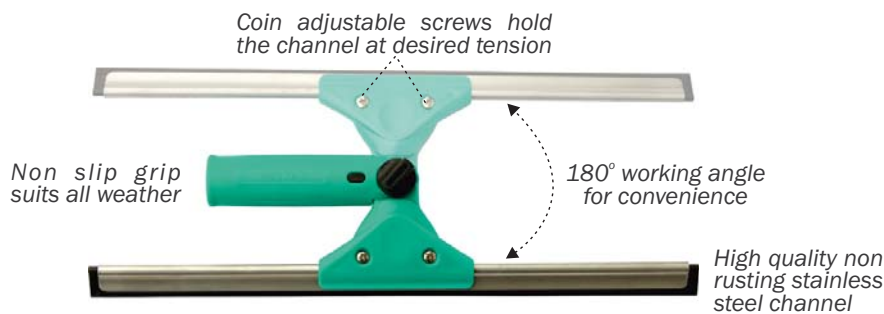

Partek Swivel Squeegee has been carefully designed and developed with a professional approach. Made of high quality eco-friendly plastic, this squeegee features an ergonomic handle with a 180 degree swivel. The squeegee is designed to clean arched and bay windows and cleans fast with streak-free results. The adjustable handle allows versatility to work in any situation, any direction. This is regulated with a twisting knob lock which can be conveniently used for various angles. Being lighter than other squeegees, it reduces stress and fatigue for hands.

### Applications

# Professional Window Cleaning Bucket

## Multi Utility Glass Cleaning Bucket on Wheels

### Product Info

Partek professional Window Cleaning bucket is a 28 litres multi-utility mobile bucket with wheels. This bucket allows all the required tools to be mounted/hung on it instead of keeping separate bucket for them. Made of eco-friendly highest grade PP plastic, this bucket is durable. It comes with a sieve for window washer (upto 45cm) along with a clip-on tool hanger for squeegee and washer. With smooth castor wheels, it can be easily pulled to different windows with ease. The best part is that all these tools are detachable and this bucket could also be utilised for pre-soaked mopping.

### Applications

Houses  
Hotels  
Corporate Offices  
Schools/Colleges  
Restaurants

### Product Features

- ✓ Ability to accommodate all the necessary glass cleaning tools on it
- ✓ Comes with four smooth easy-to-move wheels for mobility
- ✓ 28 litres is just the right capacity for window washing/cleaning
- ✓ Durable and sturdy, doesn't crack or break easily

**Perfect bucket trolley for all Glass Cleaning Needs!**
