

HYGIENE & FOOD SAFETY

“ Civilization as it is known today could not have evolved, nor can it survive, without an adequate & safe food supply. ”

Partek – A brand of Nutech Group, offers the most comprehensive range of high quality, eco-friendly, Smart Cleaning Machines, Tools and chemical products - a range which has grown to almost 600 products. We already have a strong foothold in terms of cleaning & hygiene solutions to almost all segments like Healthcare, Hospitality, Industry, Retail, Infrastructure Projects, NGO's, and Government including Railways, Airports and Municipal Corporations.

With the rising demand for Cleaning and Sanitization along with increasing awareness of Cross Contamination and it's threats in the F&B and Hospitality industry, Partek is introducing a new range of FDA approved Smart Kitchen Tools in 9 colours which will be dedicatedly eliminating Cross Contamination. These tools completely fit all Hazard Analysis & Critical Control Point (HACCP) Systems & will raise the hygiene levels of your F&B infrastructure.

We also believe in Conservation & the importance of Sanitisation in small sized kitchens to huge food processing plants. On those lines, we are also focussing on the concept of Steam and how eco-friendly water efficient it is. It is a fact that Steam has the power to replace chemicals and has more applications than one can think. Our specialised Steam Cleaners will suit domestic as well as professional needs of the consumer.

Partek products are designed and manufactured keeping Indian conditions in mind at world class factories located in India, Switzerland, Germany, Italy, France, Denmark, UK & Japan meeting ISO 9000, ISO 14000 & ISO 18000 quality systems so that you get the best.

Since increasing regulations & norms for Indian Food Safety & Hygiene calls for increased measures, we have, therefore, dedicated this brochure for the same reason – to provide our customers with an opportunity to make the common source of sustenance i.e. the food more safe & fun! As you proceed further, keep in mind that our showcased products range is not only 100% Eco-friendly but also made up of the environment safe materials.

Come Associate with us and we will take you to next level, which is “Simply Beyond Cleaning”

Technology Partners

Benefit from both hygiene & efficiency

Partek in association with Salmon Hygiene Technology from the house of Hill Brush Company brings the most comprehensive and innovative line of manual cleaning tools for the food & beverage industry.

Technology and innovation that sets us apart:

- Three quality levels for the industry environment
- Totally colour-coded tools made from FDA-approved materials
- Durable, heat and chemical resistant
- Easy to clean with quick drying tools
- Versatile products designed to remove debris, deep scrub & remove water
- Ergonomic design to ensure correct working positions

Resin-Set DRS Brushware

The 'Salmon Hygiene Technology' Resin-Set brush ware boasts a revolutionary improvement in brush filament retention known as the 'Dual Retention System - DRS', whereby each tuft is anchored into the brush back with food grade stainless steel staples and an anti-microbial epoxy resin is floated in to seal the face of the brush. This not only prevents the accumulation of dirt and moisture in the tuft holes but also the release of tuft fibres into the food or beverage environment, providing complete peace of mind for the user. Available in this range are hand brushes, nailbrushes, machine brushes, wire scratches, scrubs, pastry brushes, glazing brushes, bulk tank brushes and brooms in up to nine completely coded colours to enable work area segregation and promote compliance with HACCP principles.

Resin-Set Benefits

- 'Dual Retention System' (DRS) as standard
- Anti-Microbial Resin to reduce the growth of bacteria
- Available in up to 9 total colour coded colours
- Can be used in temperatures from -10°C to 120°C
- Autoclavable in temperatures up to 134°C
- The best tuft retention system available on the market!

Regular / Lite

ADVANTAGES

- Streak free cleaning
- No lint left behind on surface
- Easily removes finger prints
- No need to use cleaning sprays
- Just plain water does it all
- Smooth & shiny texture
- Can clean glass, mirrors, cutlery, crockery and your expensive crystals.
- Very long lasting
- Truly economical to use

Glass

- Streak free cleaning
- No lint left behind on surface
- Easily removes finger prints
- No need to use cleaning sprays
- Just plain water does it all
- Smooth & shiny texture
- Can clean glass, mirrors, cutlery, crockery and your expensive crystals.
- Very long lasting
- Truly economical to use

Kitchen

- Super Absorbing Capacity
- Lint Free Cleaning
- Rapid Drying Time
- Hypo-Allergic
- Soft & Supple
- Quick, Simple and Easy to use
- Extremely Durable
- Contains No Chemical Additives
- Environmental Friendly

Hi-Tech

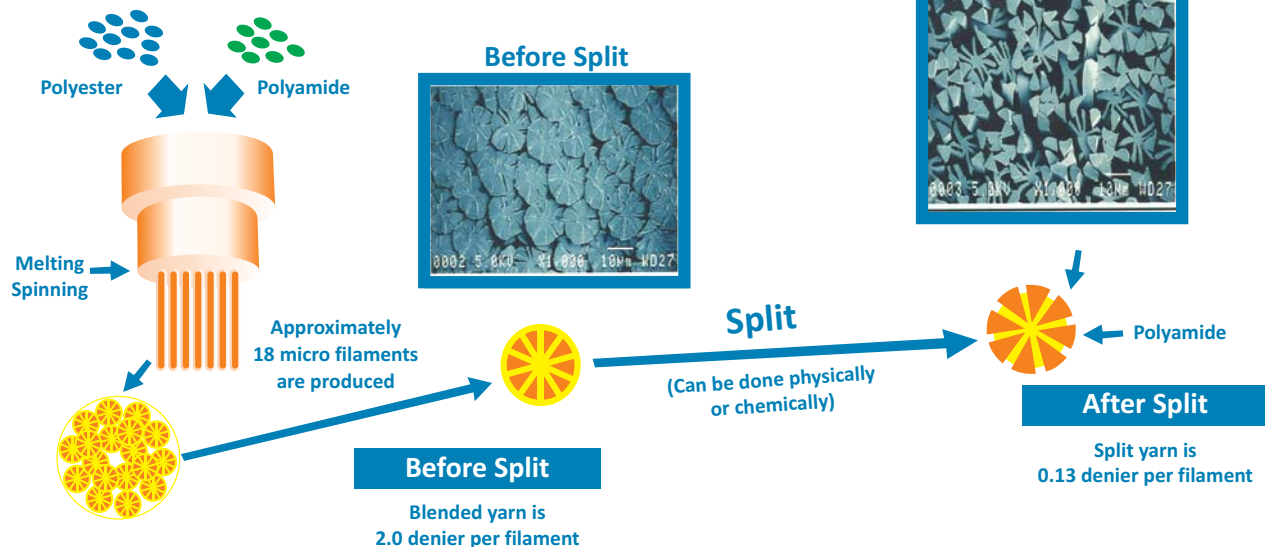

- Streak free cleaning
- No lint is left behind on surface
- Easily removes finger prints and smudges
- No need to use cleaning sprays
- Can be used dry or wet
- Soft feel
- Effective even after 100's of washes
- Very economical to use
- Environmental Friendly

Anti Bac

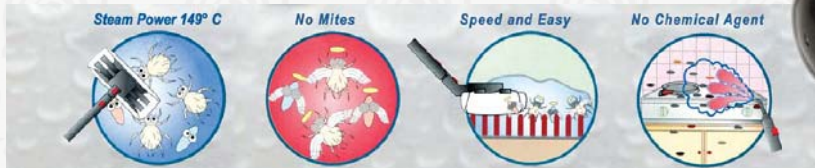

- Highly effective on micro dirt oil & impurities on your skin
- Very strong cleaning power
- Ultra absorbing and dries quickly
- Durable and last up to 500 washes
- Eco-friendly as reduces the use of soap
- Excellent price/quality ratio
- Washable at 90 deg celcius

Manufacturing Partek Microfiber (blending material)

Alpha

A unique entry level, semi-professional Steam Cleaner needing very little maintenance with tremendous potential to clean, de-grease & disinfect most of the surfaces simultaneously. Easy to carry & comes with multiple accessories to clean almost all types of surfaces. 4 bar of Steam pressure and 1500 W makes for an excellent choice.

Technical Specification

Model	Steam Pressure	Power Absorbed	Boiler Steam Capacity	Boiler Volume	Supply Voltage	Dimensions	Weight
Alpha	4 Bar	1500 W	1.7 Ltrs	2.4 Ltrs	230 V/50 Hz	47 x 30 x 38 cm	6 Kg

Alpha Plus

A professional Steam Cleaner with 6.5bar of Steam pressure & a large boiler capacity makes de-greasing & disinfecting an easy job. Its particular design of the base allows the wide range of accessories to be carried on it. Most optimum choice for sanitizing such as floors, carpets, fitted carpets, tiles glass, cooking surfaces, ovens, toilets, bathrooms and the cars.

Technical Specification

Model	Steam Pressure	Power Absorbed	Boiler Steam Capacity	Boiler Volume	Water Pump Power	Power Cable	Heating Time	Weight(kgs)
Alpha Plus	6.5 Bar	2600 W	1.7 Ltrs	2.6 Ltrs	48 W	7 m	5 minutes	7.80 Kgs

Most economical form of killing viruses, germs, bacteria and pest control

Steam n Vac

Partek Steam n Vac is a unique professional quality, continuous duty machine for multipurpose jobs. It can clean, de-grease, disinfect and dry the surface simultaneously. Facility to inject detergent, if required, with steam is also there. With 3 - Levels of Steam, Vacuum & Detergent, it performs all types of applications and replaces conventional cleaning tools and harsh detergents. It has a separate water tank to continuously feed the boiler, thus ensuring uninterrupted work. It comes on wheelbased frame on which the accessories are mounted.

Technical Specification

Model	Steam Pressure	Power Absorbed	Detergent Tank Capacity	Boiler Volume	Detergent Pump Power	Air Flow Rate	Dimesions	Weight(kgs)
Steam & Vac	6.5 Bar	2200 W	1.4 Ltrs	2.1 Ltrs	21 W	7 m	55x38x42 cm	14 Kgs

Steam n Vac HD

The Partek Steam n Vac HD range of machines are very professional, practical and heavy duty machines. These machines can clean, de-grease, disinfect and pick up the residual dirty solution. It also has the provision to add chemicals if need be. With 9 bar of steam pressure & the ability to also inject Hot Water Spray, it is a perfect Steam Cleaner for Industries. High quality Stainless Steel body ensures increased hygiene.

**Best suited for
Food Processing
Plants**

Technical Specification

Steam Pressure	Power Absorbed	Detergent Tank Capacity	Boiler Volume	Detergent Pump Power	Air Flow Rate	Dimesions	Weight(kgs)	vac motor suction power (KPA)	Boiler Stream Temperature
9 Bar	3200 W	5 Ltrs	2 Ltrs	48 W	7 m	665x420x520 mm	25 Kgs	21, 5	175° C

Steam HD

Steam is the World's best method for cleaning tiles and grout. It cleans windows and stainless steel or pol-ished surfaces without streaking, removes baked on grease from bbq's and ovens, removes most stains from carpets and kills and removes mould from ceilings and walls. In fact, steam is one of the most versatile cleaning methods available today and can be adapted to almost any task in and around the home or workshop. The Partek Steam HD is a professional, practical and heavy duty machine. It cleans and disinfects almost all types of washable surfaces. It is equipped with hot water as well as detergent injection feature, which makes it ONE of its kind in the country. Hot water injection is used where the volume of dry steam is not enough to produce effective cleaning results such as surfaces with large quantities of dust and dirt. Detergent injection is used for surfaces which require special chemical actions for cleaning while the Heavy Duty Stainless Steel Body ensures increased hygiene.

Technical Specification

Model	Steam Pressure	Power Absorbed	Boiler Steam Capacity	Boiler Volume	Supply Voltage	Dimensions	Weight	Boiler Stream Temperature
Steam HD	9 Bar	3200 W	3 Ltrs	2 Ltrs	48W 220-240V AC /50 Hz	665 x 420 x 520 cm	16 Kg	175° C

Mobile foam cleaner made of stainless steel

BIRCHMEIER®

Good adhesive foam, highly effective performance, on both horizontal and vertical surfaces – the ultimate equipment!

Professional equipment for daily use:

- Tank made of stainless steel, volume 20, 50 and 100 litres
- Large filling opening with snap closing
- Robust and flexible mixing unit to adjust the foam quality (from wet to dry)
- Compressed air valve connection with quick coupling
- Robust trigger assembly made of polypropylene and stainless steel with integrated fine filter
- Handy, stainless steel lance 45 cm
- Hoses 4, 6 and 8 m for large operation use
- Changeable from foaming to spraying

Additional security:

- Chemical resistant Viton gaskets
- Safety valve – useful for quick exhausting
- Pressure gauge
- CE- and TÜV-proved

Self contained Foam Cleaner:

- The integrated, electrical compressor makes this equipment independent from compressed air resources
- Fixed on a hand cart with protection hood for easy manoeuvring (electricity cable 8 m)

Foam Cleaner 20

Technical Data

Foaming equipment	Foam Cleaner 20
Tank material	Stainless steel
Gaskets	Viton
Foaming hose	PVC
Trigger assembly	Plastic and stainless steel
Foaming tube 45 cm	Stainless steel
Nozzle type	Fanjet
Weight (empty)	40 kg
Dimensions	L 85 x W 48.5 x H 98 cm
Tank volume	23.5 litres
Max. tank capacity	20 litres
Max. operating pressure	6 bar
Optimal operating pressure	4 – 5.5 bar
Max. operating temperature	50°C
Min. operating temperature	5°C
Electrical power	230V, 50/60Hz
Protection class	IP X5
Electrical cable	8 m
Noise level	76 dB (A)

Typical applications:

According to the soiling grade a wet or a very dry foam may be applied. This equipment is used for the cleaning and disinfection of sanitary installations, such as shower cubicles, sanitary mountings, washbasins, toilets, walls, floors and ceilings in school houses, sport areas, swimming pools and camping installations. Also in restaurants, hotels, food and beverage industries (e.g. butchers, breweries), animal breeding and agriculture this solution is often used. If required, the Indu-Matic and Foam Cleaner can also be used for spraying disinfectant products, insecticides and rust remover as well as for rim, engine and chassis cleaning products in wash stations and workshops.
