A Frame Gantry Cranes, Container Handling Cranes, Container Handling Gantry Cranes, Container Lifting Cranes, Crane End Carriage, Double Girder EOT Cranes, Double Girder Gantry Cranes, Double Girder Goliath Cranes, Electrical Wire Rope Hoist, Heavy Duty Gantry Cranes, Heavy Duty Girder Cranes, Industrial EOT Cranes, Industrial Gantry Cranes, Industrial Girder Cranes, Industrial Goods Lift, etc.

**PILLAR MOUNTED JIB CRANE**

**INDUSTRIAL JIB CRANES**

**HEAVY DUTY GANTRY CRANES**

## About Us

Atlas-Crane Private Ltd is one of the leading EOT Cranes Manufactures and Exporters from India, It has been standing admirably in National & International markets since 1987. We have delivered a number of EOT Cranes to big and medium fabrication workshops and companies with variance in configurations and lifting capacities spanning from 20 to 50 tonnes. Owing to long functional experience and expertise, we design a comprehensive range of lifting devices and material handling equipment such as EOT Cranes, Grinder Cranes, JIB Cranes, HOT Crane, Goliath Cranes, Container Cranes, which serve a diverse gamut of material moving and lifting purposes.

Based in Chennai with more than 45 years of standing, besides having the factory at Thirumazhisai, Kakalur and Kumbakonam SIDCO No. 91 to 100, we are able to meet the challenges posed by the industry in terms of design and technology for EOT Cranes. We are having more than 45 years of expertise in the field of cranes & material handling equipment with proven designs, and conforming to all Standards.

Our experience and know-how have set the path for us to develop 150T Hoist and 250T Tandem-operated EOT Crane installed in Punjab State Electricity Board, and Man-Riding Winch with the capacity of 10T for Jaduguda Mines and Direct Pull Winch with the capacity of 30 Tons for M/s. Salgocar. We also undertake the projects for revamping, advancement, capacity enhancement, and retrofitting with micro speed by planetary gear or VVVF drive arrangement (at ISRO & SOUTHERN RAILWAY), Anti-collision arrangement, Remote control operation and Servicing of Cranes, Winches, Hoists, Gearboxes, etc.
