About Us

Geevet Remedies, as a company, was established in 1991. We started to manufacture veterinary formulations for cattle under our company motto 'care for silent life'. Our company is known for its high quality veterinary products owing to the sheer amount of efforts that we put up in the manufacturing and formulations. It is our deepest wish to be counted amongst the leading veterinary pharmaceutical brands in the country. Working in the same direction, we have included twin values of commitment and dedication in our company policy. We have a wide range of therapeutic and nutritional products for large and small animals in the domestic and overseas market. The products conform to the global standards laid down under the Indian, British and U S Pharmacopoeia. Geevet Remedies is known for its R&D works and research products in the veterinary field that explains the role of the company's R&D at the core of the planning process and its strong reliance on quality. The research team is led by Mr. Suresh B Chaudhary (pharmacist) in US bringing excellence to the company from technical inputs from other countries. We are also pleased to inform you that our research work is done under the technical collaboration with Indian Veterinary Research Institute (IVRI). We also have the capability to formulate any Animal Health Product (Medicines) to suit the livestock requirement of the given country.

Geevet Remedies is dedicated fully to the members of the veterinary profession, veterinary clinics and livestock owners and farmers of our country. We are the manufacturers and exporters of a wide range of veterinary drugs for cattle. GEEVET REMEDIES is a next generation veterinary solution provider.
