## About Us

Thriving on the voluminous experience of precision engineering, Hanu Autonics Pvt. Ltd., has emerged as a globally acclaimed organization manufacturing high quality Petrol Injector Cleaning and Testing Machines. Our core strength lies in combining innovative technology with a thorough manufacturing experience to create quality equipment and products for our customers. Using the latest technology and continuously incorporating future enhancements in the field have assisted us to strengthen our customers' competitiveness and creating a win-win situations for all.

Focusing on providing solutions to various industries, we have created a sustainable business strategy. Having attained a competitive edge in the market with our unyielding focus on creating quality innovative products, we will continue to reinforce our sales network, research technologies and upgrade our products. We are confident that with clear strategic direction, strong technological fundamentals and a stable financial foundation, we will achieve exceptional results.

**Key Facts**

<b>No of Staff</b>	27
<b>Year of Establishment</b>	2004
<b>OEM Service Provided</b>	No
<b>Memberships</b>	F.S.S.I.

## Our Products

**3D Wheel Alignment Machine**

**Digital Wheel Balancing Machine**

**Wheel Balancing Machine RF**

**Electric Tyre Changer**

**Multi Car Scanner**

**Engine Decarbonizing Machine**

**Wheel Alignment Machine RF**

**Petrol Injector Cleaning Machine**

**Semi Automatic AC Recycling Machine**

**Diagn Multi Car Scanner**

**Pneumatic Tyre Changer**

**Air Inflator**

**Rim Straightening Machine**

**Air Compressor**

**Full Automatic AC Recycling Machine**

**Automatic Rim Straightening Machine**
