

# Schneider Electric Compact Circuit Breaker - Product Details

Field	Details
Category	Circuit Breaker
Private Category	Circuit Breaker
Product Name	Schneider Electric Compact Circuit Breaker
Country of Origin	India
Product Code	03
Minimum Order Quantity	1 Piece
Price Range	INR 440 - 1500 per Piece
Supply Ability	50 Per Month
Delivery Time	10 Days
Phase	Double Phase
Product Type	High Voltage
Installation Options	Multiple
Function	Manual
Poles Number	Twin
Material	Aluminium
Color	All

## Product Description:

The Schneider Electric Compact Circuit Breaker is designed for reliable protection and efficient electrical distribution in industrial and commercial applications. Manufactured using high-quality materials, this high-voltage circuit breaker offers excellent performance, durability, and operational safety. It features manual operation, double phase support, and twin poles for enhanced electrical control. The product is suitable for multiple installation options and ensures stable functioning under different operating conditions. The compact design helps save installation space while maintaining superior protection against overloads and short circuits. This circuit breaker is widely used in electrical panels, machinery, and power distribution systems.
