## About Us

We, North India Machine Tools, are one of the top manufacturers and suppliers of industrial machines and equipment. We are offering an extensive range of Wire Polishing Machines, Draw Bench Machines, Gold Drawing Machines, Tube Drawing Machines, and more products. Every product that we offer is resistant to corrosion, consumes less power, requires zero or low maintenance, and is highly efficient in carrying out the operations it is designed for.

Owing to all these features, no customer has ever had control over their purchasing power and has ended up getting their hands on our products. It is majorly the appreciation and support of our elite customers that have accelerated our growth and motivated us to do better than before. In addition to our product range, our ability to conduct our business dealings in a transparent manner while following the code of ethics is what delights our customers the most and encourages them to return to us.
