

Platform size - 18m x 3m  
Capacity - 60 tons, 100 tons, 120 tons, 150tons 60  
tons, 100 tons, 120 tons, 150tons

#### **VOLVO**

All FM & FH series

#### **Mercedes**

ACTROS 4841K

#### **Others:**

LPS1616/32 +SSF-2-40  
LPS 1616/32 +SSFR-2-60  
LPS 1616/32 +STN-2-25  
LPS 1616/32 +FB-2-40  
LPS 1616/32 +CC-2-40  
LPS 1616/32 +FB-2-25  
LPS1616/32 + TSS-2-20  
LPS 1616/32 + TU-4-40  
LPS 1616/32 + STP-2-35  
LPS 1616/32 + SSF-2-25  
LPS 1616/32 + TU-4-30  
LPS 1616/32 + DDF-2-20

### **3. Best-in-class Indicator**

- Factory calibration enter function
- Standalone operation possible without connecting to PC
- Over 20,000 records can be stored, processed and retrieved facilitating an effective truck data management
- RS232, RS485, Ethernet and networking interface
- Standard alphanumeric keypad for faster data entry
- Can be directly connected to the printer
- PS2 keyboard connectivity (Optional)

### **4. Double Ended Shear Beam Load cells**

- Self-checking & zero loaded single link design
- Eliminates friction & provides free movement in horizontal position
- Unique Mounting system: protects the Load cells from Side Load Shocks
- Eliminates excess movements of the platform
- Post-tension action of the link automatically centers load

### **5. Lightning Protector**

- Protects load cells against transient surges caused by lightning
- Repeated Auto re-writing operation without maintenance
- Reliable protection through high surge absorption capacity
- No effect on system accuracy

### **6. WeighSoft Enterprise**

- Supports Oracle, My SQL, MS SQL, SYBASE, POSTGRE SQL
- Online, Offline, & Single Point ticket transactions
- User can define data fields to captured for the ticket
- Allows entry of Material, Supplier, Vehicle, & shift details
- User can create formula fields
- View reports based on specific queries
- Well defined security mechanism for different levels of users
- Web Camera Integration
- Compatible to OBD/GPS

### **7. After-sales Support**

- Over 30 Service Engineers across the country
- 95% of ESCAL installations can be reached within 3hrs
- Central Repository of Customer Information
- Follow-up and automatic escalations @ customer tickets are closed
- Call Centre with ONE contact number across the country to manage customer concerns
