About Us

I Solutions Technologies Pvt. Ltd. is a respectable company, engaged in designing, research, manufacturing and marketing a professional range of multi-media educational equipment, conference and consumption electronics. We are trusted by customers to avail highly advanced smart interactive educational equipment and solutions. Our company started functioning in 2010, and in 2015, we have introduced a line of products under the "I Solutions" brand. We offer Digital Podium, Interactive White Board, Projector, Interactive Display Panel, Student Response System, Digital Kiosk, and many other products for Smart Classroom and General Media Arrangements. In addition, we provide excellent after sale services including the installation and maintenance of our products.

After a long period of consistent efforts by our team of professionals, we have developed a comprehensive administration framework that includes research and development, arrangement configuration, manufacturing, and sales. With the coordinated efforts of our team members, we develop smart interactive products with the intention of enhancing corporate and instructional endeavour introductions, preparation, and instruction. The offered products are ISO, CE, RoHS, and patent-certified under our own brand.
