

We have Supplied 718 Kg/hr plant for Zero Liquid Discharge system. This time we have given our technology solution for waste water treatment as Mechanical Vapour Recompression-(MVRE) is the most efficient Evaporation Technique driven by electrical energy thus reduces operating cost of steam and cooling water required in the process. Advantages are as follows-No Cooling Water and External Heat Source Required, Low Specific Energy Consumption. Successfully completed the erection.

**EMPLOYEE OF THE MONTH FOR SEPTEMBER-2019**

Mr.Sesi Kumar was associated with KEP from last two years. Firstly, he joined as an Office-Sub ordinate, after observing his hard-working nature KEP management has given him an opportunity as Accounts-Assistant, now his performance was high rise. We recognise in which he can handles the responsibilities at the workplace. We appreciate his punctuality and accountable attitude shown at the given tasks, his sincerity and working skills are highly appreciable. We hope he will move ahead on the path of success.

*Thank you for bringing your best to work day after day.*

*“We sincerely appreciate all your hard work and dedication.”*
