The knowledge, planning, team work, completion of work in time makes us success.

KEP PARTICIPATED IN CHEMTECH EXHIBITION

In December 2018, we participated in ChemTech Exhibition held at Hitex Exhibition Center, Hyderabad. It's a world meet of the Chemicals Petrochemicals & Process Industry in India were participated in this exhibition. CHEMTECH exhibition will provide the much usable and integrated platform to facilitate the growth of the industry in the region. It is good experience to every Industry for commercial development while interacting with the people that are helpful for their industrial growth.

In ChemTech there is an opportunity to exchange notation with potential entrepreneurs, Licensors and many other companies. This will lead as further development of Industry in India. It proved to be an upright platform to expose our product to national and international clients. In this participation we received good response during the exhibition and this event will certainly focus on our areas while finalizing our marketing strategies in the business world.
