About Us

We at PTC Industries have been thriving and rising successfully in the chemical and cleansing products market since 2006. The Covid-19 pandemic has expanded our product portfolio with various personal protection products as well. Today, we are fulfilling the continuously increasing requirements of customers for PPE Kits, Phosphoric Acids, Sodium Acetates, Toilet Cleaners, Hand Sanitizers, Phenyl Concentrates, Infrared Thermometers and other products in a responsible & reliable fashion. Our excellent quality of work in the field is what makes us a leading manufacturer and exporter in the global market.

In our journey of around 15 years, we have gained valuable experience of developing qualitative products, managing business in national & international regions and maintaining strong presence in the respective marketplace. Our customers appreciate the quality that we provide through our products as well as services. We also strive to constantly provide them with the best deals in the entire domain so that we can remain their foremost preference for a long-lasting time. Professionalism is imbedded in everything that PTC does. From running the internal industrial tasks to completing the exact orders placed by our customers, we follow a scheduled, strategized and effective approach that helps us in keeping our work absolutely professional.
