About Us

Hair extensions are frequently used by a large number of people, and their demand in the market has risen immensely. However, because they come into direct contact with the scalp and skin, they must be of high quality. The target of our company **Skygreen Industries Private Limited** has been to offer finest quality Hair Extensions. Our exclusive range comprises **Natural Curly Black Hair Extensions, Coloured Straight Keratin Tip Hair Extensions, Lace Frontal Closure, Raw Human Hair, Natural Straight Indian Hair Extensions**, etc. Certain features, like as unique design, soft texture, safe to use, brilliant colour variety, flawless finish, and most significantly, low pricing, are behind the increasing preference of our offered range. Our company also makes available a huge array of **Raw Hair HD Lace Closure, Wave Hair HD Lace Closure**, etc.

While conducting business, our company adheres to the highest ethical standards, which has allowed us to not only earn the trust of our clients but also to function efficiently. We have become an eminent manufacturer and wholesaler of highest grade **Hair Extensions and Closures**. In all these years, our understanding for buyers expectations has increased immensely. Therefore, each of our solutions meet their exact demands and they happily return to us when in need.

Since the year 2001, we, Skygreen Industries Private Limited have been dealing in the best quality Extensions. Our array includes Non Remy Double Drawn Black Hair, Non Remy Double Drawn Hair Bundles, Curly Hair Extensions, Wavy Hair Extensions, Natural Wavy Indian Hair Extensions, etc. This range is supplied from our premises located in Murshidabad, West Bengal (India). Due to the availability of modern facilities, we have been able to complete bulk orders in less time.

Safe Packaging and Quick Delivery

For the protection purpose, we make sure to pack our exceptional range of **Coloured Straight Keratin Tip Hair Extensions**, Natural Curly Black Hair Extensions, etc., using premium quality material before the shipment. This is crucial to safeguard the array from dirt which can ruin the quality of extensions and closures during shipment.

The responsibility of swift and timely delivery has been given to a team of experts. It uses high-end transport facilities to complete shipment within the timelines always.
